SAYS SOME FOLKS **DESERVE A SHOCK** FOR THEIR GOOD

Basil Sydney Discusses Stage and Praises Little Theatre Movement.

NEW VIEWS

"The best thing that can happen some people is to be shocked. Any uman emotion, no matter how of-make to puritanical minds, is leltimate on the stage. Prohibition is the most futile, astounding fact of the age. Israel Zangwill is a silly

Basil Sydney, the brilliant English ctor, who arrived with his Little heatre Guild Company this morning, Theatre Gulid Company this morning, voiced the above sentiments in an interview. Mr. Sydney is one of the most unaffected, jolly-good-fellow type of actor that ever came to London, and was ready to give his opinion on everything and everybody. He is an extraordinarily young man for the prestige he holds in the theatreal world. Perhaps that accounts atrical world. Perhaps that accounts for his refreshing amiability.

If you have ambitions to become

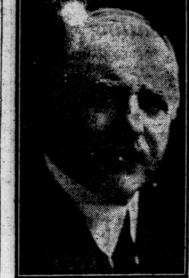

a playwright, of if you aspire to stage recognition, you had better see Mr. Sydney. As one of the pillars of the Little Theatre movement in America, he is vitally interested in America, he is vitally interested in uncovering young dramatic talent. If anyone in this city possessing exceptional histrionic ability desires it, Mr Sydney will give them a hearing. The eminent actor objects to the characterization "highbrow" so frequently associated with his productions. "Any play that is not affected is not highbrow." he claims. "Any play which seeks to portray human emotion and life should appeal to the classes. Persons who label the plays of G. B. Shaw, Ibsen, Wilde or Galsworthy 'highbrow' are merely testi-

'highbrow' are merely testiworthy 'highbrow' are merely fying to their own ignorance.' To Encourage Good Plays.

Mr. Sydney's main ambition is to so encourage the production and ap-preciation of good plays as to make it possible for the public to dictate it possible for the public to dictate to the producer in the way of procuring the plays they most desire. He would have an organization of drame enthusiasts in every city. In London the membership would be about 2,000. These people would decide on what particular class of play they most preferred and notify some eminent actor. The actor would then come to London and put on that play. Every member of the local association would be pledged to attend it, thus insurance is the same and put on the play. would be pledged to attend it, insuring it's financial success. thus insuring it's financial success. This is the scheme Mr. Sydney is working on, and one he hopes will become a reality within a few years. "The Little Theatre movement should be encouraged in every city," Mr. Sydney said. "They should put on their own plays develon learn. on their own plays, develop local talent and make it possible for good companies to tour the country without financial loss.
