NEW PROFESSOR APPOINTED

Dr. Weelock, New Professor of Physics

Sackville, N. B., March 14.—Dr. Becknell, professor of Physics in Mount Allison University, has signified his intention of not returning to Sackville next year. A meeting of the Mt. Allison Executive to consider the matter was held Tuesday afternoon, when the chair was filled by the appointment of F. E. Weelock Ph. D., as permanent professor of Physics in the University of Missouri, Columbia, Missouri. He is a native of Lawrence, N. S. and received his early training in the public schools of Nova Scotia. He attended Normal school in Truro, N. S., 1896-97; was principal of Lawrence town high school for two years, subsequently attending Acadia College, Wolfville, 1901-05. He was vice principal of the MacDonald Consolidated school 1905-06 and afterwards Yale University 1906-10, taking the degree of B. A. in 1907 and Ph. D. in 1910. While at Yale Dr. Weelock assisted in laboratory work and the last year had charge of one of the laboratories. He is spoken of as being a very strong teacher, careful and thorough, conscientious and reliable.

Personally he is said to be very attractive, large and robust, handsome and with excellent manners. He is quiet, modest and goodnatured, honest and sincere.

MY LADY'S COLUMN.

HAIR POWDER

The first English ladies who had the courage to wear powdered hair were as much pointed at for their singularity as the wearer of a crinoline would be to-day. It was in the beginning of the reign of George the First that the pioneers ventured to make themselves so conspicuous, and at the time when the next King was crowned there were only two hair-dressers in London, but in the year 1706 it was calculated that there were in Great Britain no less than fifty thousand hair-dressers! A writer with a turn for statistics reckoned up the probable amount of flour these fifty thousand would use in a year and arrived at the conclusion that it was equal to what would make 5,314,200 quartan loaves.

Apart from the question whether the flour might not have been better employed, it must be owned that there was more excuse for the artificial production of grey hair than there is for the dyeing of the hair when nature decides that it is time for it to be grey.

Simple Hospitality

Sometimes a wife settles down into a dreary, domestic routine, honestly believing that until her husband improves there is no other course for her to pursue. The very fact that many people cannot afford elaborate entertainments does not imply that they cannot enjoy simple ones. Novelty is the charm of life, as variety is the spice, and very often the guests who come from luxurious homes are the most easily pleased. The young housewife who, through fear of criticism, refuses to invite her richer or more experienced friend to her home, is cheating herself of much pleasure.

SMART WINTER COSTUME

Fashioned of Black Velveta

An apron front edged with knitted silk fringe is the feature of a street costume of velveta.

This walking suit is of black, old time satin being the contrasting tone in the revers upon the three-quarter length jacket. The revers, too, are edged with fringe and are embroidered with soutache braid of the blue tone.

The coat is trimmed with Hessian braid. A touch of white is given this walking costume with white buttons, a delicate feather outline the collar and cuffs.

The lines of the skirt show a slight tendency to fullness and in length it just escapes the floor.

The model would be pretty in corduroy or cloth.

Golden Orange Cake

Cream one-fourth cup of butter, add one-half cup of sugar slowly, and continue beating. Add the yolk of one egg, beaten until thick and creamy, and beat until the mixture is smooth and light. Bake in a buttered and floured tin.

Fire Destroyed House of P. Wilmot

Early on Monday morning fire destroyed the house and barn of Mr. P. Wilmot on Christopher's flats. An alarm was sent in to the fire department between 1 and 2 a.m. but when they arrived the buildings were a mass of flames.

The house is situated beyond the protested area and nothing could be done to save the property. It appears that a small fire had broken out late on Sunday night, and when thought to be extinguished, Wilmot drove into town, the fire breaking out again when he returned. He was unable to get into the house at the time.

The fire is covered by insurance.
