

MAGIC BAKING POWDER

PRODUCT OF CANADA

Magic Baking Powder has been on the market for a long period. Because of the fact that it is superior to any other baking powder on the market, its sales have increased by leaps and bounds.

Sales for year 1920 show an increase of 2362% over sales in year 1905. During the past 24 years it has never failed to meet the exacting requirements of Canadian housewives. Its well earned reputation for purity, quality and economy justifies its being referred to as Canada's perfect baking powder, and it is constantly referred to in that way.

MONTREAL BANDITS

MADE RICH HAUL

Montreal, March 13.—Debutante, nearly all negotiable, to the value of \$20,000 and \$300 in cash was the loot of clever robbers who broke into the premises of the Bernier Hardware Company's store 126 St. Lawrence Boulevard, this city, on Saturday night. They made a hole in the brick wall separating the premises from the next door store and blew up the safe with nitroglycerine. There was so well done that no one heard a sound and nothing in the offices of the store was otherwise disturbed. Discovery of the robbery was not made until the furnace man arrived at 8:30 yesterday. The safe, which was valued at \$1,000, was damaged beyond repair.

GASPE CASE AT QUEBEC

Important Judgement Given Settling Matter of High Water Mark Ownership.

Judgment was rendered a few days ago by the Court of Appeal, Quebec, composed of five judges, in the case of Baker vs. Couture, which was in appeal from a judgment of the Superior Court of the District of Gaspé, which will have considerable bearing upon the rights of riparian owners on the Gaspé coast.

A few years ago one Couture commenced to build a fish house opposite a property owned by Baker at Grand River. Baker claimed that where Couture built was on his land. Couture claimed that where he had constructed was below high water mark. Baker replied that even if it were below high water mark, it belonged to him because this piece of land was inside of Grand River and not out in the Bay, claiming that the rights of riparian owners outside of the river is different from the rights of riparian owners on the sea.

The Superior Court at Pexco maintained Baker's contention and ordered Couture to give up possession of the property. An appeal was then taken by Couture to the Court of Review of Quebec, and the Court of Review unanimously reversed the judgment of the Superior Court, deciding that where Couture had built was below high water mark, and that the lot was not in the river but out in the Bay and that Couture had the right to build there.

An appeal was taken by Baker.

MADAM J. RICHER

Tablet, P.Q., April 18th, 1921.

"It is my duty to tell you and publish to all what your remedy 'Fruit-A-Tives' has done for me.

I suffered with Rheumatism for ten months, could hardly move in bed; and was miserable all the time. I tried several physicians and took many remedies, but they left me at the same place, in bed and suffering, the Rheumatism was so bad.

Finally started taking 'Fruit-A-Tives' and continued the treatment regularly as I found myself getting better. After using eight boxes of 'Fruit-A-Tives' (which cost only \$4) I am completely well without a trace of Rheumatism."

from this judgment to the Court of Appeal at Quebec, and by the judgment recently rendered, the Court of Appeal upheld the judgment of the Court of Review and decided that Couture had not built upon Baker, but below high water mark and could not be dispossessed by Baker.

This case brought forth many interesting arguments as regards the high water mark in the Province of Quebec, and as to whether it was the high water mark of the English law that should be followed here or the high water mark of the French law. Baker was represented by Mr. W. A. E. Flynn, of Pexco and Mr. Alvin Marchand, of Quebec and Couture was represented by the Honorable John Hall Kelly, of New Carlisle.

FARMERS' BRANCH STORES HARD HIT

Must Provide \$90,000 for the Head Office Under Reorganization Plan.

(Fredericton Gleaner.)

More than twenty of the thirty-two branches of the Maritime United Farmers' Co-operative, Limited, will be faced by choosing between the alternatives of closing up their stores or providing considerable additional capital to carry on as a result of the reorganization plan which was adopted at the annual meeting of the shareholders here recently, according to information obtained from an official of the organization.

Not \$70,000, as was reported at the time, but a total of \$90,000 must be contributed by the branches to square up head office accounts, which is provided for by the plan, and the exact number of branch stores which will be thereby crippled financially so that they will have to either close up or secure new capital is said to be twenty-two. Local shareholders have not yet received the promised copies of the company's financial statement ordered printed and distributed by resolution passed at the annual meeting, but the official who gave the Gleaner the information as to the results of the reorganization plan is in possession of all the facts and inside information.

It is also learned that no time is to be lost in proceeding against shareholders who have failed to pay the second 50 per cent of their stock subscriptions or who still have any amount of their subscriptions outstanding. From this source, it is said, the management expect to be able to get in something like \$30,000, and it is said that the only subscribers who will be able to escape payment will be those who have failed to make any payments whatever and therefore had no actual distribution of stock made to them.

The creditors, it is further said, are to continue to receive a percentage payment upon their claims against the company, as during recent months, until the reorganization has been completed and matters cleaned up.
