THE TORONTO WORLD.

SATLEDAY MORNING, JULY 5, 1884. Vicissitudes of Poker.
From the Detroit Free Press. The game of poker has had its vicies

The game of poker has had its vicissitudes. What, with the well-intentioned people, who would stop all card playing on the one hand and the unfair player on the other, poker has had much to do to retain a respectable standing in the worst-society. It was in the early days of California that it suffered most, and if it had not been for the wisdom of a certain San Francisco Board of Supervisors it would undoubtedly have had to succumb to adverse circumstances. Indulged in by newcomers to the Pacific Coast, with minds untrained in the value of certain hands, there was soon a hopeless confusion and corruption of the great game which the board saw could only be saved to posterity by offical enactment. They therefore drew up and had placed upon the statute book of the city a section which still stands and which reads as follows: "Every person who, at the game 'poker hand,' shall by claim, pretense or representation that three or four cards of the same suit shall beat three races, or the same suit shall beat three races, or threes of any kind, obtain or take any money, personal property or valuable thing, with intent to defraud, shall be deemed guilty of a misdemeanor and shall be punished accordingly."

Remember the Bon Marche keeps open till 10 to-night.

Beauteous Women. If we go back to the ancient times when Cleopatra was smiled upon by Anthony Cleopatra was smiled upon by Anthony we wonder how the women of by-gone ages preserved such beautiful complexions. History tells us that the Roman women were truly beautiful, and that they were especially noted for their luxuriant tresses, "the praise of man" and "a crown of glory and loveliness." Since the time of Brutus, however, women in general appear to have neglected their complexions and have not paid nearly so much attention to their facial beauty as did their sisters in the famous city of old Rome. But a thorough artist has come to the rescue. A. Dorenwend of the Paris hair works, Yonge street, amounces his Eureka Hair Destroyer, a preparation warranted to destroyer, a preparation warranted to stroy all premature hair on the face.

Marry Young. From the New York Journal.

Youth is the season of love and hope, or as George Eliot more beautifully puts it, "O budding time, O love's sweet prime." What beautiful and accomplished maiden of twenty, with the right ideas, wants to of twenty, with the right ideas, wants to marry a cranky, withered, matter-of-fact man of forty? She may, if she is a frivolous creature of fashion, want his money; she certainly cannot, unless in very exceptional cases, want him. Youth takes to youth as naturally as a flower to the sunshing. Boys marry young. shine. Boys, marry young.

The Bon Marche have just opened two cases of the following new brands ladies' fine lace collars: Haute Nouveaute, L'Epaulette, Demi Habit, Royal ascot, Gaurd Front, which they are offering to-day retail at less than wholesale prices.

A Baby 51-2 Inches Long. A second Tom Thumb has just been born A second Tom Thumb has just been born to a young girl in Moraga Valley, in Contra Costa county, Cal, who rivais in size any any of the pigmies who have made their appearence in this mundane sphere, The mother is but 12 years old, and the baby boy measured about five and a half inches and weighed only one and a quarter pounds, but it was as lively a specimen of the human family as one could wish to see. The little stranger soon became an object of interest in the valley, and people came from all directions to see him and to hear him cry, an accomplishment he is as prohim cry, an accomplishment he is as pro-ficent in as any larger baby.

Ladies' fine doe skin driving gloves, Dent's best quality, worth \$1.50, for 75c, at the Bon Mar-che, 7 and 9 King street east.

The Royal Organ. T. James & Co., Guelph, manufacturers of the justly celebrated "Royal" organ few years a large and lucrative business. Their representation as manufacturers of a first-class instrument is pronounced by music critics as equal to that of any manufacturer in the world. The firm guarantee all their instruments, and of late have shipped large quantities to the lower provinces. The "Royal" is first-class in every respect.

One of the attractions in the city is the display of work in the window of the Domestic sewing machine company, 98
Yonge street. The great variety of fancy
work of almost every description on view
is done on the Domestic machine. Ladies is done on the Domestic machine. Ladies about to purchase will do well to call and have a trial before making a bargain elsewhere. Among the many specimens displayed may be mentioned a very handsome satin school banner worked in "arrasene," also an elaborate mantle-drape and bannerettes worked in chenniel and tinsel. The heaviest and lightest work can be done on this maghine.

on this machine. For dress muslins and Victoria lawns go to the Bon Marche, open till 10 to-night.

Perhaps the most extraordinary success that has been achieved in modern science has been attained by the Dixon treatment for catarrh. Out of 2000 patients treated during the past six months, fully ninety per cent have been cured of this stubborn malady. This is none the less startling when it is remembered that not five per cent of the patients presenting themselves to the regular practitioner are benefitted, while the patent medicines and other advertised cures never record a cure at all. Starting with the claim now generally believed by the most scientific men that the disease is due to the presence of living lieved by the most scientific men that the disease is due to the presence of living parasites in the tissues, Mr. Dixon at once adapted his cure to their extermination; this accomplished, the catarrh is practically and the permanency is unquestioned, this accomplished, the catarrh is practically cured, and the permanency is unquestioned, as cures effected by him four years ago are cures still. No one else has ever attempted to cure catarrh in this manner, and no other treatment has ever cured catarrh. The application of the remedy is simple and can be done at home, and the present season of the year is the most favorable tor a speedy and permanent cure, the majority a speedy and permanent cure, the majority of cases being cured at one treatment. Sufferers should correspond with Messrs. A. H. DIXON & SON, 305 King street west, Toronto, Canada, and enclose stamp for their treatise on catarrh.—Montreal

From the Chicago Tribune. Let me dispel an illusion," said a deale

"All right; dispel away."
"It is not boarding-schools and se aries that consume all the gum made, It is not alone fair girlhood to which its seduc tive nature appeals. Men chew a good deal. I can't undertake to say how much

deal. I can't undertake to say how much gum is sold in Chicago annually, but no doubt the figures, if they could be got at, are appalling. Only think of the vast waste of muscular power in chewing it. If it dould only be utilized, the power of these thousands and thousands of jaws munching away hours and hours—why, what results it would effect in mechanics!

"Oh, yes, men chew gum—lots of them do. It's a habit that grows on one. Its fearful fascination is betrayed immediately its insidious enticements are yielded to. There is a young fellow that buys of me steadily who is a victim of the habit. He complains and often says he wishes he could overcome it. But he's the only man-customer that complains. The rest like it. You see, there are a good many who find the habit beneficial—speakers, for instance. Quite a number of board of trade men chew it. It helps keep their voices in shape for the wear and tear they are subjected to in their business."
