Londoner Suggests Work For Blind As Worthy Cause

**EXHIBIT** HERE

Proposal Is That Young Matrons Lend Support To National Institute Program

That the Canadian National Institute For the Blind, at Toronto, is worthy of sympathetic support from all Canadians, and that London must be aroused to do its share in helping the blind is the strong opinion of a prominent London woman who is herself keenly interest-ed in the work done by the institute. Last year, it is believed, for the first time London staged a definite campaign for the institute, under uspices of the I. O. D. E., and a fairly satisfactory sum was raised in this way While no definite action has been taken it is thought that a similar campaign will probably be arranged for this

It has also been suggested that the work done by blind members of the institute be exhibited in this city. This done annually through the kindness of Mr. James Gray, but it is believed that additional publicity could be given in Toronto, a guest with Dr. and Mrs. of Prescott, have gone to Montreal for the women of the city, and a draw- P. ing-room sale has been suggested, at which not only would the excellent work turned out by the institute workers be displayed, but blind members of the in- Briscoe street. would themselves be present to tell of their struggles to remain selfsupporting under their serious disabil-
