BY-LAW NO. 3, 1907
OF TOWNSHIP OF WARWICK.

A By-law to provide for drainage work in the Township of Warwick in the County of Lambton, and for borrowing on the credit of the municipality the sum of \$503 00 for completing the same. Provisionally adopted the 18th day of March, 1907.

Whereas the majority in number of the resident and non resident owners (exclusive of farmers' sons not actual owners, as shown by the last revised assessment roll), of the property hereinafter set forth to be benefited by drainage work, have petitioned the Council of the said Township of Warwick, to have the drain known as the McGill-Sisson award drain, (being in the fourth and fifth concession, S. E. R., from lot 5 to lot 7 inclusive), repaired under The Ditches and Watercourses Act. The drain to be known as the Sisson Local Drain.
 And, whereas thereupon the said Council has procured an examination, to be made by C. A. Jones, being a person competent, for such purpose, of the said area proposed to be drained and the means suggested for the drainage thereof, and of other lands and roads liable to assessment under the Municipal Drainage Act, and has also prepared plans, specifications, and estimates of the drainage work to be made by the said C. A. Jones and an assessment to be made by him of the lands and roads to be benefited by such drainage work, and of other lands and roads liable for contribution thereto, stating as nearly as he can the proportion of benefit, outlet liability and injurious liability which in his opinion will be derived or incurred in consequence of such drainage work by every road and lot or portion of lot, the said assessment so made being the assessment hereinafter by this by-law enacted to be assessed and levied upon the road and lots or parts of lots hereinafter in that behalf specially set forth and described, and the report of the said C. A. Jones in respect thereof, and of the said drainage work being as follows:—

Petrolia, Dec. 18th, 1906.
 To the Municipal Council, Township of Warwick.
 GENTLEMEN:—In compliance with instructions received from your Honorable Body I have made an examination of the drain hereinafter known as the Sisson Drain situated on the westerly portion of lot 5 and w. 3/4 lot 6, con. 5, the northerly portion of lot 6, con. 5, S. E. R., and the 6/7 sideroad south of the Blind Line between cons. 5 & 6, S. E. R., of your township. Following is a more accurate description of its location: commencing at its head on the east side of the 6/7 sideroad, 2 rods north of the Blind Line between cons. 5 and 6, thence southerly along the easterly side of the sideroad, 43 rods thence westerly parallel with said Blind Line to the line between the easterly three quarters and westerly one quarter of lot 6, thence northerly along the last mentioned line about 40 rods to the said Blind Line, thence in a north-westerly direction across the w. 3/4 of lot 6 and the greater portion of lot 5, con. 5.

It is now an open drain constructed under the Ditches & Watercourses Act and the parties interested have petitioned your Honorable Body to have it repaired under the Municipal Drainage Act with the request that if the engineer deems it advisable, it be made a tile drain and partly open. In this respect I concur with their views and would recommend that a tile be laid beneath the bottom of the present drain following its exact location, the upper 250 rods, below which point the present drain becomes so crooked that I would recommend making a somewhat straighter course for the same, cutting off some of the shorter bends or turns and making them more gradual curves, still leaving the open drain in this portion as well as that of the upper 250 rods to carry off fresh water.

This proposed work of tiling though a little expensive will do away to a very great extent, if not altogether with the necessity of continually repairing the open drain.
 I would also recommend extending the drain about 40 rods below the present end of the work, thus providing a more desirable and efficient outlet for the tile. This will carry the work down to a point about twenty rods below the line between the 2 and w 1/2 of lot 5, con. 5.
 I have chained, staked and levelled the drain in stations of 2 chains or 8 rods each for the upper 250 rods and 1 chain or 4 rods each for the lower 50 rods, the total length being 300 rods 90 chains 92 links. The total length of the drain to be tiled is 290 rods and 71 links where it turns west across the sideroad and lot 6, stake 34 is where it turns north along the centre of the w 3/4 of lot 6, stake 44 is where it crosses the Blind Line, stake 80 is where the tiling ends and stake 90 is where the open drain ends on the w 3/4 of lot 5.
 I would recommend that a 6 inch tile be laid along the sideroad from stake 0 to 10x70 a 7 inch tile, from 10x70 to 34 and an eight inch tile the remainder of the distance to stake 80 1/2, the open drain below this will be 2 1/2 ft bottom width with sides sloped 1 hor. to 1 vert.
 I have also prepared plan, profile, estimate of cost, specification of work and schedule of assessment on the lands affected, all of which I herewith submit.

ESTIMATE OF COST.

7 1/2 ft. 6 inch tile at \$30 per 1000 ft.	10 to 10x70	\$21 25
Teaming same at \$20 per 1000 ft.	10 to 10x70	2 50
Digging trench, laying and covering tile 43 rods at 25c. per rod.	43	10 75
150 ft. 7 inch tile at \$40 per 1000 ft.	10x70 to 34	6 00
Teaming same at \$4 per 1000 ft.	10x70 to 34	6 00
Digging trench, laying and covering tile 30 rods at 42c. per rod.	30	12 60
Digging trench, laying and covering tile 40 rods at 42c. per rod.	40	16 80
Teaming same at \$20 per 1000 ft.	10x70 to 34	12 00
250 ft. 8 inch tile at \$30 per 1000 ft.	34 to 80 1/2	7 50
Teaming same at \$20 per 1000 ft.	34 to 80 1/2	5 00
Digging trench, laying and covering tile 20 rods at 42c. per rod.	20	8 40
Furnishing and placing box at mouth of tile	2	95
Digging open drain 80 1/2 rods at 6c. per rod.	80 1/2	4 83
85 to 90, 20 rods at 6c.	20	1 20
Publishing by-law \$3; registering same \$2, 10 00		
Township Clerk's fees		15 00
Letting and inspecting work		15 00
Survey, ass't. on same, plan, profile, specification, estimate of cost and ass'tmt.		35 00
Total estimated cost of work		\$503 00

SCHEDULE OF ASSESSMENT.

Municipality for 6-7 sideroad.....40 00						
Total assmt lands and road.....\$503 00						

SPECIFICATION OF WORK.
 The contractor is to furnish all material required and all labor necessary for the completion of the work.
 The trench for the tile is to be dug with a perfectly even grade in the bottom and to follow the centre of the present open drain from 6 to 69 1/2 and from 69 1/2 to 80 1/2 it is to follow the line of stakes to be dug on the numbered side thereof and about 1 ft. therefrom. The commissioner will set up stakes or pickets for the centre line of the trench making as gradual curves as possible in all cases and the contractor will follow these stakes or pickets for the

line of the trench. Where any abrupt turn occurs the ends of the tile shall be revolved a little by sawing them in order to make a closer joint more particularly at 10x70 and at 34. The tile are to be evenly and neatly laid with close joints and perfectly straight lines excepting where bends occur. No tile to be covered up until it is inspected by the commissioner. It is then to be covered to a uniform depth of 1 foot, where it is in the bottom of the present drain and to the full level of the natural ground, where it is not in the bottom of present drain. The earth on filling over the tile to be tramped with a medium weight pounder.
 The tile are to be of the best quality of agricultural tile and of the size shown and figured on profile.
 Build a box at the mouth of the tile for an outlet, into which the tile will empty, to be 10 feet long and 10 inches square inside made of 2 inch pine or cedar, to have a plank over the end where the tile enters with a circular hole in same, the exact size of the 8 inch tile which will be inserted into it about 4 inches and then plugged perfectly tightly. The trench for the tile figured on profile so that the bottom of the inside of the box will be level with the trench for the tile. This box to be thoroughly anchored in its position to the satisfaction of the commissioner.
 The open drain from the mouth of the tile to 90 to be dug to the depth of 2 inches deeper than the wide in bottom, side slopes 1 hor. to 1 vert., with an even grade in bottom throughout.
 The earth is to be cast to the low ground and none left closer than 3 ft. from the edge of the drain. The depth or cuts in all cases are from the ground beside the stake on the numbered side thereof and are to govern in preference to those in red, which represent approximately the depth of the tile or open drain as the case may be below the present bottom. Should any error appear in the figured depth at any stake, the grade of the bottom is still to be made to conform with that shown on profile.
 All work to be done, material furnished to the entire satisfaction of the commissioner in charge of the work.
 I have the honor to remain,
 Your obedient servant
 C. A. Jones, O. L. S. & C. E.

And whereas the said Council are of the opinion that the drainage of the area described is desirable, and therefore the said Municipal Council of the Township of Warwick, pursuant to the provisions of the Municipal Drainage Act enacts as follows:
 1. The said report, plans, specification, as assessments and estimates are hereby adopted and the drainage work therein indicated and set forth shall be made and constructed in accordance therewith.
 2. The Board of said Municipality may borrow on the credit of the corporation of the said Township of Warwick the sum of \$503.00, being the funds necessary for the work and may issue debentures of the corporation to that amount in sums of not less than \$50.00 each and payable within 4 years from the date thereof, with interest at the rate of one per cent per annum, that is to say in 4 equal annual payments such debentures to be payable at the Treasurer's office, Warwick, and to be attached to them coupons for the payment of interest.
 3. For paying the sum of \$281.50 the amount charged against the said lands for benefit and the sum of \$181.50 the amount charged against the said lands for outlet liability, apart from roads belonging to or controlled by the Municipality and for covering interest thereon for four years at the rate of 4 per cent per annum the following total special rates over and above all other rates shall be levied and collected (in the same manner and at the same time as other taxes are levied and collected) upon and from the unincorporated lots and parts of lots and the amount of the said special rates and interest against each lot or part of lot respectively shall be divided into 4 equal parts and one such part shall be assessed, levied and collected as aforesaid, in each year, for 4 years after the final passing of this bylaw, during which the said debentures have to run.

4th. For paying the sum of \$40 00 the amount assessed against the said roads of the Municipality and for covering interest thereon for 5 years at the rate of 4 per centum per annum, a special rate on the dollar sufficient to produce the required amount therefor shall over and above all other rates be levied and collected, (in the same manner and at the same time as other taxes are levied and collected) upon and from the whole rateable property in the said Township of Warwick in each year for 4 years after the final passing of this By-law during which the said debentures have to run.

NOTICE.
 I, Nathaniel Herbert, Clerk of the Township of Warwick, in the County of Lambton, do hereby certify the foregoing to be a true copy of a By-law provisionally adopted by the Council of the said Township of Warwick on the 18th day of March, and a Court of Revision will be held on the same at one o'clock p.m., on Monday, the 5th day of May, in the Town of H. J. Warwick Village. And take notice that anyone intending to apply to have the said By-law or any part thereof quashed must not later than ten days after the final passing thereof serve notice in writing upon the Reeve and the Clerk of the Municipality of his intention to make application for that purpose to the High Court at Toronto during the six weeks next ensuing the final passing of the By-law.
 NATHANIEL HERBERT, Clerk.

Mr. C. McKenzie, of Petrolia, has received notice of his appointment to the position of Police Magistrate of that town. Mr. McKenzie succeeds Mr. Duncan, who has held the position for five years.
 Only those who have had experience can tell the torture corns cause. Pain with your boots on, pain with them off—pain night and day; but relief is sure to those who use Holloway's Corn Cure.
 H. G. Taylor last week sold Charles Middleton's property in the southeast part of Wyoming, consisting of a house and 2 1/2 acres of land, to Mr. Wm. Patterson, who recently purchased the Chas. Litchfield homestead in the village.

Treat the Inside Nerves
 There is one sure way to get well. That is to restore the inside nerves. Dr. Shoop's Restorative is the only treatment that in any way affects the inside nerves. It is a remedy which acts safely and positively, not on any specific organ, but on the very inside nerves themselves—a medicine which gives them power, and strength and reinforcement, that repairs the very misapprehending of life, that vitalizes every organ.
