A quiet wedding was solemnized by Rev. Mr. Cornish in Christ Church, Forest, on Saturday, September 8th, when Roberta H. third daughter of Mr. and Mrs. R. G. Bailey, was married to J. Percival Core of Camlachie. The bride was attired in a brown travelling suit, with shell pink Georgetta Crepe waist and hat to match. After the ceremony the happy couple lett for a short honeymoon to Toronto and other points, and will be at home to their friends after October first. Pressing a button opens a new automobile door latch that is controlled by electricity.

A Few Words to the Ladies From the Food Controller

THE RESIDENCE WATER OF THE REPORT AND THE SECOND CONTRACT OF THE SEC GUID-ADVOCATE, WATFCRD, SEPTEMBER 28, 1917

Office of the Food Controller, Ottawa, September 14th, 1917. To Lady Hendrie, the Members of the

Women's Auxiliary of the Organization of Resources Committee and their coworkers throughout Outario:—
Great Britain and her European Allies look to Canada for food. The King has notified the Canadian Government that "Increased supplies are absolutely es-sential to the deleat of the enemy's de-vices and to a speedy and successful ter-

mination of the war."

Lord Rhonda, the British Food Controller, has told the Dominion that Great Britain looks to "The resources of Canada and to the indomnitable energy of Canadians for an answer that will shatter

Germany's threat of starvation."
There is a world famine of wheat and a world shortage of beef and bacon.
These are the commodites most required These are the commodites most required for overseas. It is to ensure supplies of these foods and other non-perishable and easily storeable commodites that every housewife is being asked to sign the Food Pledge. Canada has abundance of other foodstuffs. By reducing domestic comsumption of wheat, beef and bacon and by using substitutes the housewives of the Dominion can give vital war service. They will give it once they realize the necessity. All that is asked at present is that they do not use beef and bacon on two days a week or at more than one meal on any other day, that they reduce their consumption of wheat bread by one-quarter and that they use they reduce their consumption of wheat bread by one-quarter and that they use perishable and non-exportable products to the greatest possible extent as substitutes for the staple foods required for export. The appeal to the housewives is contained in the one word substitute. When they realize the great need of the fighting forces and our Allies they will also save every ounce of food possible in order to release more for export. To do this means the complete conservation of our food supplies and the elimination of waste.

To yourself, to the members of your To yourself, to the members of your committee and to your co-workers I wish to express my great appreciation of the services you are giving in circulating the Food Service Pledges by a house canvass and thus bringing home directly to the people the imperative need for substituting other foods for those required for export. Your task is an arduous one, but I am confident that the housewives of Ontario will respond splendidly to your Ontario will respond splendidly to your war appeal.

Very truly yours, (Signed) W. J. HANNA, Food Controller.

SORES FLEE BEFORE IT .- There are many who have been afflicted with sores and have driven them away with Dr. Thomas' Eclectric Oil, which acts like magic. All similarly troubled should lose no time in applying this splended remedy as there is nothing like it to be had. It is cheap, but its power is in no way expressed by its low price.

Why Not Our County?

Highway Legislation has been considered by all Municipal Corporations more or less for the past twenty years. The Province of Ontario has endeav-oured to have its Highway Laws made

not only Progressive but with an idea of serving the best interests of the people in the Proynce. To-day Legislation provides for three types of roads. These are called Provincial, County and Town-

ship Roads.

The Provincial Highways are those which may be selected by the Province because they connect centres of population or other important terminal points and serve as Trunk Lines in the System of Highways throughout the Province. These roads will be assumed by the Province and 70 per cent of the cost of Construction and Maintenance will be

Construction and Maintenance will be undertaken by the Province, The balance of 30 per cent to be paid by the Municipalities through which they pass. The Township roads are those which serve largely a local function. These are controlled by the Township Council and their administration is left largely in the hands of pathmasters who disburse statute labor where and how they may deem best. Where a Township employes a Superintendent appointed by By-law a Superintendent appointed by By-law giving him charge of the Township Roads the Government will pay 25 per cent. of the salary of such Superintendent up to \$150.00 per year for a period of three years. But its the County Roads which we wish to discuss.

These roads are the Main or Market Roads in each County and are intended to serve a large percentage of the popul-ation of a County. They connect the Towns, they lead to the shipping points, they serve the producers, they link to-gether producer and consumer. These roads are selected by the County Council and are by By-law adopted as a

County System. They usually embrace from 10 per cent to 18 per cent of the entire road mileage in the County and support from 75 per cent to 85 per cent of the traffic. The laws relating to these roads have been changed and amended from time to time until now they apparently meet the needs of the Counties throughout the Province which are entitled to Govern-ment assistance under the Highways

ment assistance under the Highways Improvement Act.

Of the Thirty-seven Counties in the Province which would be entitled to Government assistance no less than thirty-four have passed the necessary By-law, only three Counties are not participating and Lambton is one of the three.

The Government has distributed over

\$2,500,000.00 among the Counties which have adopted County Systems. Some Counties have received from \$150,000.00 to \$200,000.00 each. Our Auto License money is being spent by the Government to improve roads but not in our County. Why? Why hasu't our County been one of the first to benefit. Surely our Roads are not they might be. Again we ask Why?

To ASTHMA SUFFERERS. Dr. J. D. Kellog's Asthma Remedy comes like a helping hand to a sinking swimmer. It gives new life and hope by curing his trouble—something he has come to believe impossible. Its benfit is too evident to be questioned—it is its own best argmment—it its own best advertisement if you suffer from asthma get ment. If you suffer from asthma get this time-tried remedy and find help like thousand of others.
