

**Plow Two Furrows, Not One — Work Three
Horses, Not Four — Pay One Man, Not Two
That's the Way to Make Your Farm Pay Big Profits**

KID KANGAROO

WE have sold many thousands of these plows, and we have yet to hear of a single complaint from any buyer.

The Kid Kangaroo is fitted with our new patent straightener device, which is very necessary to keep plowing straight. It is fitted with special soft-centre crucible steel moldboards that will clean in any soil. Frames can be adjusted for wide or narrow furrows. We can furnish either wide or narrow bottoms, rolling colters, jointer or knife colters as desired. Three horses can easily draw this plow in the heaviest land.

MAPLE LEAF

THIS plow combines great strength, durability and remarkable light draft. It has been carefully and thoroughly tested, and will do perfect work. The frame is built to combine strength with the least weight. A special feature of this plow is the adjustable frame. By unloosening two bolts and two set screws, it can be adjusted to any width from 7 to 10 inches, within a few minutes. It has our new fine adjustment ratchets for gauging the depth of the furrows. Levers are conveniently placed and are easy to operate. The wheels are absolutely dustproof—straightener device can be fitted to plow when called for. This plow can be handled by two horses, yet is quite strong enough to stand the strain of three. Can be fitted with wide or narrow bottoms, rolling colter, knife colter or jointer. This is without doubt the most popular two furrow plow manufactured.

Where Cockshutt Plows are made

FARM RIGHT If interested, let us send you our plow catalogue, which describes and illustrates a large range of implements which make farming profitable.
