Ontario Crops.

Toronto, Aug. 17.—The Ontario de-partment of agriculture have com-pleted the preparation of the crop statistics for the province relating to the present season, the following being the results:

The fall wheat crop will amount to 20,000,000 bushels, compared with 21,000,000 bushels last year.

Spring wheat will amount to 6,500,-000 bushels, as against 5,000,000 last

Barley, 12,000,000 bushels, same as

last year. bushels. กล against 86,000,000 bushels.

Hay, 4,400,000 tons, as against 3,-800,000 tons last year. Peas, 15,700,000 bushels, as against

14,000,000 hushels last year. The increase is attributed partly to augmented acreage, and partly to greater yield.

Fur Trade Notes.

At the recent meeting of the Hudson's Bay Co., Lord Strathcona and Mount Royal said that the usual perlodical decline in many classes of furbearing animals-which appeared occur in cycles—was now going on, and they could, therefore, hardly expect that the collection for this year and for next year would be up to the average. 1 (11.)
