He Has Two Good Legs

BOTH made by MARKS

Sixty-four years of the most extensive experience with the most satisfactory results of any manufacturer in the world. The improved Rubber Hand and Foot possess the quality of yielding to every essential angle of the natural, without the use of complicated hinges, joints and contrivances which render expensive their daily use.

The accompanying cuts represent a person who lost both legs by a railroad accident, one above the knee and the other two inches below. He is able to walk half a mile in eight minutes without a cane or any assistance except his artificial limbs with rubber feet. He can perform a day's work without unusual fatigue; can go up and down stairs—in fact, can do any of the ordinaries of life without exhibiting his loss.

ARMS restore appearance and assist greatly in the performance of labor. From our Illustrated Measuring Sheet, Artificial Limbs can be made, and shipped to all parts of the world, without the presence of the patient, with guaranteed success. Over 48,000 of Mark's Patent Artificial Limbs in use, scattered in all parts of the world.

Received 49 Highest Awards. Purchased by the United States Government, and many Foreign Governments.

A Manual of Artificial Limbs and Illustrated Measuring Sheets Sent Free Upon Application.
