

A SCOTCH TRIBUTE TO JUSTIN MCCARTHY.

At the presentation of addresses to Mr. McCarthy at the Windsor, on Tuesday, Mr. McMaster, Q. C., made the following graceful and happy remarks, the various allusions being all cordially applauded:—

"I regret that the great Scottish race has so feeble a spokesman on this occasion. Of my countrymen, Mr. Mercer has said some kind things, but intimated the contingency of our having an Irish Premier after next election. Well, that was a contingency, and we Scotchmen could afford to be generous, as we had almost a monopoly of that high office. That high office had been filled by John Sandfield Macdonald, a genuine Highlander, who was born in and represented Glengarry, the typical Highland county of Canada, which I now have the honor to represent. Then we had the other Macdonald after John Sandfield and before him too, and we have him yet, the Right Honorable Sir John A. Macdonald, who is the foremost British statesman outside of the British Isles. And then, too, we had as Prime Minister the Honorable Alexander Mackenzie, who, born in Scotland like Sir John, came to this country with nothing but his Scotch principles and Scotch integrity and perseverance, and with this capital rose to the first position under the Crown in Canada. Mr. Mackenzie was now suffering from ill health, which all deplored, but there was that sentiment from one end of the country to the other, that the chief of the Liberal party should be restored to health and vigor, and that his time and energy might be given to the Canadian people. As Scotchmen had long ruled Canada, we could not be so ungracious as not to allow Irishmen to rule Ireland. For my own part, Mr. McCarthy, I have long known you, in your books and your speeches (applause), but I was proud to meet you and see you in the flesh last evening. My pride and pleasure at meeting you and seeing you were, however, exceeded by my admiration for the eloquent and temperate sentences, the incisive and unanswerable logic, the historical and scholastic learning, the pathos and genuine patriotism, which you accumulated in your grand appeal for the Irish cause. Sir, I speak not in the language of vulgar compliment. I was thrilled with these utterances, and my heart went with my head in unstinted admiration of that invincible sequence of thought, and that apposition of dictum with which you electrified us all. Sir, last night was not a night of destruction, it was a night of instruction and education. I am, sir, not unfamiliar with your face. I have looked upon you in the English House of Commons. I have even enjoyed that privilege of the *hail pullai*—in viewing the greater animals—and looked in upon you at your meals at Westminster. Well, you might say, as you did last night, you were not 'cast down' when on the home rule resolution you marched into the lobby of the English House of Commons 311 strong, with William Ewart Gladstone at your head, but I would rather be in retrospect those nights when, a little band but six or seven or eight in all, you marched into one grand and desolate lobby, the entire mass of British and Irish members arraying themselves in the other. That was the morning and the midnight of the fight which promises to be crowned with legislative freedom for Ireland. As one of the little band firmly adhering to you as deemed best for your country, I honor you; as the master and eloquent *Vitellius*, I admire you; as the accomplished historian and temperate, logical, thoughtful writer, I worship you. Yours, indeed, is a remarkable career. But yesterday you were writing 'The History of Our Own Times'; to-day you are making the history of our own times. In the name of the Celtic race, from which you and I are sprung, in the fulness of my personal admiration, I now render you homage. You are here as the ambassador of the Irish cause. You have stated it with a wisdom, truth and clearness that overbore opposition and gain adherents. There is no man speaking the English tongue who could expound to British governed and liberty loving sister peoples the cause of Ireland with so much truth, moderation and impassioned eloquence as Justin McCarthy."

opinion the infant liberties of Bulgaria would not be impaired.

Lord Salisbury, in proposing the toast in honor of the Lord Mayor, said he believed the municipal institutions would last as long as other British institutions. He congratulated the Lord Mayor upon his being the dispenser of the city help to relieve the distress of the poor, whose prospects he hoped the living time would brighten. The Lord Mayor, responding, promised to enquire immediately into the extent of exceptional distress, and to endeavor to discover the best remedy for its relief. Speaker Peel, responding to the toast "The House of Commons," congratulated the members upon the fact that a third session in 1886 would not be needed. Lord George Hamilton, first lord of the admiralty, replied to the toast of the "Navy." He said he hoped a naval reserve would soon be formed that would be equal to all emergencies. The usual toasts followed.

The *Daily News* commenting on Lord Salisbury's speech at the municipal banquet last evening says: "Lord Salisbury's remarks on foreign affairs are such as might have been delivered by Mr. Gladstone himself. We congratulate the Tories upon their abandonment of the 'jingo' policy. They will perhaps in time come around to Mr. Gladstone's opinion on the Irish question."

CONSUMPTION CURED.

An old physician, retired from practice, having had placed in his hands by an East India missionary the formula of a simple vegetable remedy for the speedy and permanent cure of Consumption, Bronchitis, Catarrh, Asthma and all throat and Lung Affections, also a positive and radical cure for Nervous Debility and all Nervous Complaints, after having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to his suffering fellow-men. Actuated by this motive and a desire to relieve human suffering, I will send free of charge, to all who desire it, this recipe, in German, French or English, with full directions for preparing and using. Sent by mail by addressing with stamp, naming this paper, W. A. NOYES, 143 Power's Block, Rochester, N. Y. [11-1896w]

SAVED FROM FLAME AND SEA.

WONDERFUL ESCAPE OF A BARQUE'S CREW FROM THEIR BURNING HABITATION.

ST. PIERRE, Mig., Nov. 11.—The burning ship that appeared off this island on Monday proves to be the British brig *Caspar*, of Swansea, Captain Roberts. The captain and his crew had a very narrow escape from death. They had reached the island in safety, and their story, as told by Captain Roberts, is as follows:—The *Caspar* sailed from Miramichi, N.B., on the 20th of October, laden with deals for Swansea. Fire was discovered in the cargo forward on November 7. How it originated, the captain says, he has not the remotest idea. Means were at once taken to suppress it. Holes were bored in the deck and volumes of water were poured through them upon the blazing masses of lumber in the hold. The efforts to extinguish the flames were in vain. Then every aperture was closed, and as fast as possible all air was excluded from what had now become literally a furnace. Still the fire raged, gaining in volume, to the eminent peril of all on board.

THE SHIP CLOTHED WITH FIRE. Finally the flames burst their bonds, eating their way through the decks and running with great rapidity through the rigging. "They wrapped the ship in splendor wild," she was a mass of flame. To add to the terror of the occasion there was prevailing a southeast gale that tossed the burning vessel about upon waves that the captain says were mountains high.

To remain upon the ship was certain death. To leave her in the long boat, the only alternative, was to brave a fate almost as certain. It seemed but turning from the devouring flames to the devouring sea. Captain Roberts had sighted land about twenty miles distant, and it was resolved to trust to the mercy of the waves. Into the long boat went the thirteen men, eager for life and nerved by their desire to live for an almost hopeless struggle with the angry waves.

A LONG, DRAVE STRUGGLE.

The tiny craft with its living freight was buffeted by the raging seas through twelve long hours. Every moment the men expected to be swamped, but their boat rode the waves as though conscious of the value of her burden. It seemed almost a miracle that she should live in such a tempest, and there was consciousness of an overruling power in the hearts of the thirteen men, whom, in the midst of the darkness of a stormy night, she landed safe and well on the shores of Miquelon.

The effort of the authorities here to save the *Caspar*, by firing cannon shot through her side yesterday, has proved a failure. Five shots pierced her side yesterday, but she still continues to leak like Holy Willie, a burning and a shining light. Evidently nothing will be left of ship or cargo to-morrow.

NERVOUS DEBILITATED MEN.

You are allowed a free trial of thirty days of the use of Dr. Dye's Celebrated Voltaic Belt with Electric Suspensory Appliances, for the speedy relief and permanent cure of Nervous Debility, loss of Vitality and Manhood, and all kindred troubles. Also, for many other diseases. Complete restoration to health, vigor and manhood guaranteed. No risk is incurred. Illustrated pamphlet, with full information, sent, mailed free by addressing Voltaic Belt Co., Marshall, Mich.

EXPERIMENTAL FARMS.

THE DEPARTMENT OF AGRICULTURE PUSHING MATTERS REGARDING THE GOVERNMENT AGRICULTURAL STATION.

OTTAWA, Nov. 11.—The Department of Agriculture, now that the Colonial exhibition, which engrossed so much of its time this summer, has closed, is taking up the question of experimental farms, and will have quite a mass of valuable information on this important subject to submit to Parliament at its next session. Professor Saunders, director of the Central Experimental farm near Ottawa, returned lately from a trip to the Maritime Provinces, which he visited with a view to select the best localities for a Government farm in each, and he is now preparing a report on the subject. Last night he left for Manitoba and will proceed through the Northwest to British Columbia, selecting the most favorable sites for the establishment of farms in these provinces. The Minister of Agriculture, Hon. Mr. Carling, is evidently alive to the importance to the agricultural classes of the establishment of these experimental farms, where careful and thorough tests will be made of the best varieties of cereals and fruits most suitable to the various localities where they are located, and next session it may be expected that he will publish his policy vigorously. Ploughing and other work is progressing on the part of the central farm and everything being got in readiness for proceeding with spring planting as soon as the frost is out of the ground.

SEARCHING FOR TRUTH.

CHIEF JUSTICE CAMERON'S DIFFICULT TASK IN A SUIT BETWEEN TWO EVANGELISTS.

TORONTO, Nov. 11.—The Civil Court was occupied the greater part of yesterday and to-day in hearing the case of Cook vs. Baxter. Plaintiff was Rev. Jonathan Cook and defendant Rev. M. Baxter, president of the Gospel union and commander-in-chief of the Gospel army. Plaintiff sued defendant for salary due him as an evangelist at Fergus and Elora, and to his daughter, who acted as his lieutenant. Judgment was given for plaintiff. In delivering judgment, Chief Justice Cameron said: "I regret the contradiction of witnesses shown in this case. It is in matters of religion we cannot have the truth, it is difficult to say where truth shall be found. We have two Gospel army officers on each side swearing to directly opposite facts, and this brings a scandal on the way in which the army is either conducted or officered. It is my painful duty to determine where the truth lies between these parties. The army officers at headquarters do not agree among themselves, Mr. McClellan, a witness, being flatly contradicted by two other officers. He preferred accepting the evidence of plaintiff's daughter, and added that there was a moral obligation to keep the case out of court."

A Most Liberal Offer.

THE VOLTAIC BELT CO., Marshall, Mich., offer to send their Celebrated Voltaic Belts and Electric Appliances on thirty days' trial to any man afflicted with Nervous Debility, Loss of Vitality, Manhood, &c. Illustrated pamphlet in sealed envelope with full particulars mailed free. Write them at once.

ENGLAND AND EGYPT.

FRIENDLY NEGOTIATIONS WITH THE PORTE RESUMED—WHY FRANCE DESIRES EVACUATION.

CONSTANTINOPLE, Nov. 11.—The pending negotiations between Sir William White and the Porte relative to the Egyptian question will now, it is stated, be completed forthwith according to the instructions given previously to the recent French agitation for evacuation. The basis of the fresh understanding will be the joint report on the division of Egypt, to be made by Monkhtar Pasha and Sir Henry Drummond Wolff, the special Turkish and British envoys respectively, who have been for some time investigating Egyptian affairs. Their report will deal with the workings of the present Anglo-Turkish convention in Egypt and make suggestions as to how reforms in military, civil and other departments of the Khedive's Government, specified in the convention, can best be carried into execution.

FRANCE'S FEELINGS.

PARIS, November 11.—The *Journal des Debats* says cordial negotiations are proceeding between England and France in the direction of a friendly settlement respecting Egypt.

LONDON, November 11.—The *Daily Telegraph* says: A French diplomat, apparently with official sanction, says France maintains sentimental and commercial interests in Egypt and though desirous of peace is incensed at the permanent occupation of Egypt by England. The neutrality guaranteed by the powers is desired by France.

HORSFORD'S ACID PHOSPHATE.

Beware of imitations. Imitations and counterfeits have again appeared. Be sure that the word "Horsford's" is on the wrapper. None are genuine without it.

GLADSTONE'S APPEAL

FOR UNITY OF THE LIBERAL PARTY BECAUSE THE CONSERVATIVE IRISH POLICY IS NOT DEFINITE.

LONDON, Nov. 11.—Mr. Gladstone publishes a letter inviting the Liberals to renounce. He says: "After reading the Marquis of Salisbury's speech it seems to me that we have arrived at the testing situation for all Liberals really desiring Liberal union. We have no right to demand when the Government have produced their plan, that they shall pursue an altered course upon them, but we have already tolerated a long delay in the production of these plans. The beginning of new delays in February will virtually make indefinite the production of the plans. I am unable to understand how anybody promotes, or inviting such delay can be said to desire the reunion of the Liberal party."

A CANADIAN DEAL.

MINNESOTA SECURED BY A DOMINION SYNDICATE.

MINNEAPOLIS, Minn., Nov. 11.—Colonel Platt B. Walker, a prominent lumberman, says a syndicate of Canadian lumbermen, with partners in this State, have acquired the title to about 500,000,000 feet of pine timber in northwestern Minnesota, and are arranging to gobble up the rest of the vast timber belt of the northern slope, an area including one half of the entire state. He charges that the clause in the sundry civil bill providing for a commission to treat with the Indians now occupying these lands for their removal to White Earth agency was secured directly in the interest of this Canadian syndicate. Col. Walker adds that if these treaties should be made and confirmed, \$10,000,000 worth of Indian pine will certainly go into the hands of a foreign syndicate, and \$10,000,000 worth of lumber that Dakota and Minnesota will shortly need will be owned by the same pool.

A GOOD INVESTMENT.

"I suffered with eruptions on my face for over two years. I determined to give Burdock Blood Bitters a fair trial. After taking four bottles, I can say it was the best investment I ever made. Jean Clauy, Beauregard, Manitoba."

DIED LIKE TRUE MEN.

FOUR HONDURAS FILIBUSTERS PREFER DEATH TO ABANDONING THEIR CAUSE.

NEW ORLEANS, Nov. 9.—The *Times-Democrat* publishes an account of the execution on the 18th of October of General E. Delgado, Lieut. Colonel Indalecio Garate, Commander Miguel Cortez and Lieut. Loyaño. They were shot at Comayagua for leading an expedition against Honduras. The four officers were lodged in the small prison of Comayagua. The prison was a wretched place, and they were not allowed to see their families. They were executed for their devotion to their country's life. It was the desire of President Bogran to spare his life, if possible, and any pretext would have been readily seized upon to give him his liberty. The president sent a messenger to him to say that if he would promise never again to take up arms against Honduras he should receive pardon. The soldier refused to accept his life on these terms and sent back word that he would see Honduras in even a more tropical climate than the new enjoyed before he would accept his pardon on such a pledge. On the morning of the execution the men were taken to a point near the church of Comayagua. Four coffins were placed near the wall and the four condemned men were led to them. They appeared to be unexcited and not a face was blanched nor a nerve quivered. Gen. Delgado asked and received permission to order the guard to fire, which he did, first requesting them not to shoot him in the face, but in the breast. There was no rattle, no scattering reports, but one sharp, stunning report, and the four men for a half second remained in an upright position, as if still unharmed, and then fell limp and dead. The soldiers had complied with Delgado's request, and three balls penetrated his breast.

THERE IS NOTHING LIKE IT.

There is no one remedy offered to suffering humanity whose use is so universally required as Haygarth's Yellow Oil for rheumatism, neuralgia, colds, sore throat, deafness, croup, lumbago and aches, pains, lameness and soreness of all kinds, when internally and externally used.

THE COLINDRIES CLOSE.

THE INDIAN AND COLONIAL EXHIBITION ENDED—CANADIAN MUSICAL INSTRUMENTS SOLD.

LONDON, Nov. 11.—The Colonial Exhibition which succeeded the "Inventories," closed on the 9th of November last year, was closed yesterday without any special ceremony. The Queen and the Princess Louise each purchased a Canadian piano. Hon. Edward Stanhope, the colonial secretary, purchased a Canadian harmonium, and several harmoniums were also purchased by the Governor of Madras. At the close of the exhibition, the spirited Canadian national air, composed some time since by Sir Arthur Sullivan, was played. The total number of visitors since the opening was 5,550,749, an average of \$3,916 a day.

THE RIGHT WAY.

The only proper way to cure a cough is to loosen the tough mucous or phlegm that clogs the bronchial pipes. This is why Haygarth's Remedy, Balsam is the most successful remedy for coughs, colds, throat and lung troubles.

FATAL EXPLOSION IN A CIGAR FACTORY.

PHILADELPHIA, Nov. 11.—An explosion occurred in the cigar box manufactory of Henry H. Ship & Co., on Randolph street, this afternoon, which blew out the rear wall, badly injuring a number of young men, women and girls, and imperiling the lives of over 100 more. One girl is missing. All the injured are more or less badly burned.

LATER.—The name of the firm is Henry H. Ship & Co. The fire was gotten under control after having destroyed almost the entire building. The lively stables of J. M. Treally and A. C. Crosswell, adjoining the rear of the cigar box factory, were blown out by the force of the explosion. In Treally's place some fifty sleighs and carriages were crushed to atoms, and a number of carriages were ruined in Crosswell's building. Shortly after the fire had been extinguished, the body of Carrie Bruner, aged 30, an employee, was found in the third story of the factory, buried under steam pipes and heavy timber. Her body and clothing were but slightly burned, and her death was, in all probability, caused by the heavy timbers falling upon her when the explosion occurred. Fifteen persons were more or less injured, but it is thought that none of the injuries will prove fatal, with the probable exception of Annie Volzinger, aged 23, who received severe burns about the face and body, and also sustained injuries from flying timber. The injuries of the others were burns and bruises sustained in jumping or falling from the upper stories.

Women with pale colorless faces who feel weak and discouraged, will receive both mental and bodily vigor by using Carter's Iron Pills, which are made for the blood, nerves and complexion.

AN IOWA WIGGINS.

"MOST DESTRUCTIVE STORMS" PREDICTED FOR DECEMBER NEXT.

BURLINGTON, Iowa, Nov. 10.—Prof. Foster, the meteorologist, will publish to-morrow his prediction of a great storm period extending from December 4 to 17, during which will occur some of the most destructive winter storms of recent years. These storms will be much of the same nature as the great blizzards of last January. Heavy snow and high winds will greatly impede railway travel, and he advises the railways to prepare for a blockade that will occur in the Western States about December 5 and reach the Eastern States on December 9. These storms will break up the drought in the Southern States. There will be energetic electrical disturbances that will affect telegraph and telephone lines. He suggests that many lives and much property can be saved from loss by making preparations for the severe weather of this storm period.

Holloway's Ointment and Pills.—As a winter advance and the weather becomes more and more inclement the earliest evidences of ill health must be immediately checked and removed, or a slight illness may result in a serious malady. Relaxed and sore throat, influenza, chronic cough, bronchitis and most other pulmonary affections will be relieved by rubbing the cooling Ointment into the skin as nearly as practicable to the seat of the mischief. This treatment, simple yet effective, is admirably adapted to the removal of these diseases during infancy and youth. Old asthmatic invalids will derive marvellous relief from the use of Holloway's remedies which have wonderfully relieved many such sufferers, and re-established health after every other means had signally failed.

A STARTLING DISCOVERY.

DYNAMITE BOMBS AND CATS FOUND ATTACHED TO A TRAIN.

PITTSBURGH, Nov. 11.—Upon the arrival at DuBois, Pa., of the mail train north on the Buffalo, Rochester & Pittsburgh railway to-day the car inspector discovered three dynamite bombs and caps fastened under the springs of the rear coach. The bombs were carefully removed, and there were many pale faces among the passengers when they learned the terrible truth they had so narrowly escaped. The train started from Pittsburgh at seven o'clock this morning, and it is understood that the place where the bombs were placed was under the springs, as it only makes short

stops between there and DuBois. It is twenty miles from the place of starting, and how it was possible for a train to run that distance over short curves with that amount of dynamite and caps under the springs is a mystery. The four persons were in the coach, and had the accident occurred as intended, the loss of life would have been very great.

AN ASSURANCE OF INCORRUPTIBLE INTEGRITY.

The presence of Genl's G. T. Beauregard of La., and Jubal A. Early of Va., at the drawings of The Louisiana State Lottery Company, in entire charge, is regarded as a guarantee of absolute fairness and integrity. Any advertisement or offer to guarantee any particular would expose the clever hood of the swindler. Remember that the next (the 199th Grand Monthly and the Extraordinary Quarterly) Drawings takes place Dec. 14th, when over half a million of dollars will go flying about the world, trying to fall into some one's pocket. For any information address M. A. Dauphin, New Orleans, La. Sure you are right, go ahead!

THE VATICAN INDIGNANT.

ROME, Nov. 9.—The Vatican is collecting evidence concerning the details of the meeting at Mentana last Sunday, at which, it was reported, speeches were made attacking, in the presence of the Government's officers, the alleged pretensions of the church to temporal power.

PEOPLE WHO RESIDE OR SOJOURN in regions of country where fever and ague and bilious remittent fever are prevalent, should be particularly careful to regulate digestion, the liver and the bowels, before the approach of the season for the periodic malady. The timely use of Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure is a valuable safeguard against the malarial scourge. It is acknowledged to be the best blood purifier in the market.

Mr. H. McCaw, Custom House, Toronto, writes: "My wife was troubled with Dyspepsia and Rheumatism for a long time; she tried many different medicines, but did not get any relief until she used Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure. She has taken two bottles of it, and now finds herself in better health than she has been for years."

BAD FOR THE HUNTERS.

DUBLIN, Nov. 9.—Two hundred farmers to-day tried to prevent the Galloway Blazers band. With police protection the hunters were enabled to start, but they soon met with more formidable opposition and were compelled to withdraw their hounds.

It may be only a trifling cold, but neglect it and it will fasten its fangs on your lungs, and you will soon be carried to an untimely grave. In this country we have sudden changes and must expect to have coughs and colds. We cannot avoid them, but we can effect a cure, by using Dr. Thomas' Electric Oil. It is a good medicine. Just think of it—you can relieve the twinges of rheumatism, the most painful attack of neuralgia, you can check a cough, and heal bruised or broken skin, with a bottle of Dr. Thomas' Electric Oil, costing only 25 cents.

THE IRISH REPRESENTATIVES.

DUBLIN, Nov. 9.—Thomas Sexton, in a speech at Sligo to-day, announced that he had elected to sit as a Parnellite in the present House of Commons for West Belfast, and that William O'Brien would succeed him as member for South Sligo. Mr. Sexton described the present position of the Irish party as most cheering and hopeful. John Dillon, in a speech to-day, accused the O'Connor Don of treating tenants with harshness.

Mr. Peter Vermett, Hochelaga, P.Q., writes: "Dr. Thomas' Electric Oil cured me of Rheumatism after I tried many medicines to no purpose. It is a good medicine." Just think of it—you can relieve the twinges of rheumatism, the most painful attack of neuralgia, you can check a cough, and heal bruised or broken skin, with a bottle of Dr. Thomas' Electric Oil, costing only 25 cents.

THE SOCIALISTS AND THE POLICE.

The London *Times* says the police under their new leader showed firmness and tact yesterday, and that the Socialists did not come well out of the affair. They made a serious mistake by their paltry attempt to snatch a public holiday from its legitimate users.

Thomas Meyers, Braintree, writes: "Dr. Thomas' Electric Oil is the best medicine I know. It always gives satisfaction, and in cases of coughs, colds, sore throat, &c., immediate relief has been received by those who use it."

FRED. ARCHER'S SUICIDE.

LONDON, Nov. 9.—At the inquest in the case of Fred. Archer to-day it was proved that Archer had sustained no loss in batting, and that the cause of his discouragement was typhoid fever, aggravated by weakness, due to the restricted regimen which he had adopted in order to reduce his weight. A verdict of suicide while insane was rendered. It is reported that Archer leaves \$1,250,000.

Use the safe, pleasant, and effectual Worm Killer, Mother Graves' Worm Exterminator; nothing equals it. Procure a bottle and take it home.

Have you tried Holloway's Corn Cure? It has no equal for removing these troublesome excrescences, as many have testified who have tried it.

DIED.

CALLAGHAN.—In this city, on the 8th inst., William Alexander, aged 1 month and four days, beloved son of Lawrence Callaghan.

MULLIN.—In this city, on the 8th inst., Daniel Mullin, aged 20 years and 4 months, son of Peter Mullin.

CLORAN.—In this city, on the 8th inst., James Cloran, aged 71 years, a native of County Sligo, Ireland.

SULLIVAN.—In this city, on the 6th inst., Ellen, aged 3 years and 8 months, youngest daughter of John Sullivan.

SAVAGE.—At Quebec, on the 4th inst., John Savage, who was killed on board the steamship *Vancouver*, aged 48 years.

ORRORKE.—In this city, on the 8th inst., Michael John, aged 9 months and 23 days, infant son of John Orrorke.

BURNS.—In this city, on the 6th inst., Bridget Callaghan, aged 38 years, beloved wife of John Burns.

MURPHY.—At the House of Providence, St. Catherine street, Montreal, on the 7th inst., Margaret Murphy, in religion, Sister Mary of Mount Carmel, aged 32 years.

KEYS.—In this city, on the 10th inst., Elizabeth Quinn, aged 71 years, a native of Kilkenny, Ireland, beloved wife of James Keys.

MARRIED.

WARD-McCARTHY.—On Monday, the 8th inst., at St. Gabriel's Church, by the Rev. Father Fahey, Mr. J. M. Ward to Miss Nellie, daughter of R. McCarthy, of this city.

RYAN-McLAUGHLIN.—At Lechane, on Tuesday, 8th inst., by the Rev. Father Piche, assisted by the Rev. J. J. Kelly, of St. Mary's, James Ryan, son of Captain John Ryan, of Co. St. Paul, to Annie Ellen, second daughter of Thomas McLaughlin, Esq., of Lechane.

ROYAL BAKING POWDER
Absolutely Pure.

This powder never varies. A marvel of purity, strength and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight adulterated powders. Sold only in cans. ROYAL BAKING POWDER CO., 100 Wall St., N.Y.

JOHNSTON'S FLUID BEEF!

The only preparation of the kind containing entire nutritious constituents of beefsteak.

—ASK YOUR GROCER OR DRUGGIST FOR—

Johnston's Fluid Beef

And don't let extracts of meat, which have no nutrition, be palmed off on you.

Branch Office, 37 Yonge St., Toronto.

BABY'S BIRTHDAY.

A beautiful imported Birthday Card sent to any baby whose mother will send us the names of two or more other babies, and their names and addresses. Also a handsome Diamond Day Book Card for the year.

Wells, Richardson & Co., Montreal.

4-G

HEAL THYSELF!

Do not expend hundreds of dollars for advertised patent medicines at a dollar a bottle, and French your system with nauseous slops that poison the blood, but purchase the Great and Standard Medical Work, entitled

SELF-PRESERVATION.

Three hundred pages, substantial binding. Contains more than one hundred invaluable prescriptions, embracing all the vegetable remedies in the Pharmacopoeia, for all forms of chronic and acute diseases, beside being a Standard Scientific and Popular Medical Treatise, a Household Physician in plain words.

ILLUSTRATIVE SAMPLE FREE TO ALL, young and middle aged men, for the next thirty days. Send now or cut this out, for you may never see it again. Address Dr. W. H. PARKER, 4 Beilinch st., Boston, Mass.

GRATEFUL—COMFORTING.

EPPS'S COCOA.

BREAKFAST

"By a thorough knowledge of the natural laws which govern the operation of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up, and a strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack any one whose diet is not well regulated. We are thus in a weak state, and a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—Civil Service Gazette.

Made simply with boiling water or milk. Sold only in packets by Grocers, labelled thus: JAMES EPPS & CO., HOMOPATHIC CHEMISTS, LONDON, ENGLAND.
