

1. That in revising the boundaries of the Riding of York East, the Commission did not give due consideration to the geographical and civic entity of the Township of East York, which forms most of the riding.
2. That the commission did not give due consideration to the various briefs presented to the commission at the hearings in Toronto, which with unanimous agreement of certain groups in the three ridings involved, namely York East, Broadview and Greenwood, recommended that York East be bounded on the south by a line north of Danforth Avenue which line would maintain a population of 82,857, but would include most of the Township of East York, and further that Broadview and Greenwood be divided by a line running from north to south at a point which would maintain their populations at 78,443 and 76,959 respectively, and that the boundary line between York East on the one hand and Broadview and Greenwood on the other hand would run as parallel to Danforth Avenue as possible.
3. That the above recommended revisions can easily be accomplished, maintaining the identical populations in the three ridings as set out by the commission report, and without disturbing the boundaries of any of the other ridings in the city of Metropolitan Toronto.
