as well as the souls of those who may be intrusted
to your care.

In case of your being taken ill, there is also a
Manual for the Sick, which you can make use of with
great profit, and where you may learn to assist
others in their sickness.

And lastly, you will find herein most interesting
and instructive lessons for Spritual Reading, calcu-
lated to preserve in your mind the holy impressions
which you received during the Mission, and to fortify
the good resolutions you made. A few beautiful
hymns are added, which you may sing in your leiaure
moments when alone, or with the rest of your family
at home, in the evenings, or on Sundays.

Use, then, this little book diligently, for the sake
of your eternal salvation. Use it also for the good
of those who may be intrusted to your care, that you
may rescue them also from the general ruin. Many
a soul, by such a little book, has been turned from
the path of destruction, and brought back penitent-
to God; and many, too, have been preserved by it
in the right way. And this will be the case with you
also, dear Christian, if you are well disposed, and
read this little book with a right heart.
