

A WORKING AGE Mrs. Baker Has Secured Choicest No Girl Should Start Younger.

Says Miss E. C. Elwood.

SIXTEEN YEARS

WAGES ARE TOO LOW

Average Family Cannot Live on Average Salaries Now

That under the existing conditions child labor it is no uncomm f early ght to see men and women at 35 and years of age, when they ought to at their prime, completely broken own and unfit for further efficient abor, was the statement made by fiss E. C. Elwood of the Evangelia ettlement at the Fred Victor Mission ast night in an address on social

Miss Elwood claimed that sixteen rears was the lowest possible age at which a girl should be compelled to work. The education system was at fault, and could not be called ra-tional because it did not take into conideration the question of sex, and the difference that it would make in the class of life work which the pupil hould be prepareed to follow.

Too Low Wages. Statistics

tatistics were quoted to show that married man with three children the married man with three children to bring up could not properly exist on the average wage of \$1.75 a day. The mesult was that the mother either went result was that the mother either went the average are not stake in the same material gives variety. touches of gold, gray, coral and Another is an overdress of French lace on black foundation, with oriental banding to be worn over olive green charmeuse. The new carrot shade is shown under the handsome black chantilly lace. The many varieties of blacks for costumes and gowns and the various finishings and trimmings are extremely rich. A handsome show-

ing for a gown is green brocade on gold cloth over a skirt of slate broad-cloth. This with touches of coral is most effective. Mustard shades in

result was that the mother either went out to work or was forced to take in lodgers, thus unduly crowding the family and putting a stop to family life. The children had of necessity to gn work at a very early age, thus being deficient in education as well as impaired in health, and that the final result meant a degeneration of the nece. terials for gown. The exhibit as a whole is well worth a visit and in the

beautiful assortment there is something for even the most fastidious taste.

CZAR'S DAUGHTER ILL.

ST. PETERSBURG, March 11 .--(Can. Press.)-The second daughter ard Mrs. Pankhurst would, she was of Emperor Nicholas, the Grand Duchess Tatiana, is suffering from typhoid fever at Tsarkoe Selo. It is an-nounced that her condition has not given rise to any alarm. Grand Duch-ess Tatiana was born in 1897.

LIVING COST GROWS

gines Increase Work. NEW YORK, March 11.-(Can. Press.)-The high cost of living and its relation to the wages received by

firemen was one of the questions distoday at the hearing of the board chosen under the Erdman Act to arbitrate the demands of the firemen employed on 54 eastern railways for higher wages and better working conditions. The rules promulgated by the railways and the question of promotions of firemen to be engineers were other subjects of testimony by the seven witnesses of the day-six firemen and one engineer. The firemen contend for one thing that the heavier engines now in use

cause them to work harder for the same pay. They want two firemen assigned to locomotives.

JURY NOT SATISFIED AS TO MORGAN'S GUILT

ST. CATHARINES, March 11. --(Special.) -- "Troubles" Morgan, the negro who for several days terrorized the entire Niagara district by his sic-cessful escapes from capture by the local police, but who eventually fell New Treatment ing two sergeants of the St. Catharines force had been lodged against him, was not found guilty by the jury, which tried him today, at the assizes, before Chief Justice Falconbridge. After be-

ing out three hours, the jurors re-ported at 8 o'clock tonight that they ould not agree. Could not agree. The two officers alone gave evidence for the prosecution, Morgan testify-ing in his own behalf. Character evidence was contributed by Neil

Buchanan, a fruit grower.

Through Sanguinol

Through Sanguinol Mr. Wm. Newman of 15 Northcote avenue, Toronto, tells of his experi-ence with Sanguinol, which he used for his wife, who appeared to be help iterally run down. "I can assure you I will never forget the benefit my wife received from Sanguinol. She has the four bottles, and never felt bet-ter in her life. She has gained five pounds. She was very nervous and anaemic. I cannot praise Sanguinol enough. She previously used a Mozen or more other medicines, but nome did her ary good but Sanguinol." Do you feel all run down? Are you tortured by your nerves? Do you suffer from indigestion? Is your sys-tem enfeebled by thin, weak blood? Then by all means try Sanguinol satom of alcohol or harmful drugs. It simply contains those very elements of which the blood is composed. Feed these elements back to your system and assist Nature in her work of re-construction. Sanguinol has already brought the joy of renewed health to nurches. Get it today. You can purches it only at the OWI Drug Storer-750 Queen street east, 1551 Dundas street. 491 Parliament street. Stores-710 Queen street eart, 1531 Dundas street, 491 Parliament street, 282 College street, 990 Benhurst street, 1219 Bloor west, 732 and 584 Yonge street; VanZant Drug Stores, and E. A. Legge, College street and Ossing-ton avenue.

Hon. Dr. Reaume, minister of pub-

ic works, and Dr. Anderson, Essex, both spoke in favor of the bill, the minister stating that the provincial cabinet had made investigation and had recommended that it be passed. They stated that the place was on the Canadian side of the Detroit River, a few miles from Windsor; that 1650 acres of land had been bought by the company and that millions would be spent.

be spent. Charles McCrea, Sudbury: G. H. Ferguson, Grenville, and E. W. J. Owens were dubious about the ad-visability of passing the bull isability of passing the bill.

Wallace Nesbitt, K.C., solicitor for the corporation, appeared in behalf of its interests.

HYDRO'S BENEFITS IN BRANT-FORD.

BRANTFORD, March 11.—(Spe-cial.)—Hydro-electric power at less that \$24 per horsepower will be guar-anteed the Brantford waterworks plant on the completion of installation here, and it is announced that a big saving can be effected annually at that figure. A dual system of steam and electric energy is planned.

isters, lawyors and public nich throughout many foreign lands, Large

Valuable Feature. "Another valuable feature of this co-operation is that every unit of the sys-tem benefits by the experience of other units, and no private organization can hope, in the long run, to equal the pos-sibilities of this great provincial or-ganization."

sibilities of this great provincial or-ganization." The slight increase in cost to start with is nothing in comparison to the great decrease in cost that is bound to follow. Any manufacturer will sub-ject himself to a slightly higher cost when he is assured that it is only a prelude to a permanent saving. The savings that have already been made should give Aurora all the assurance necessary to invite confidence in the future, and it must be evident to any-one who will take the trouble to study the situation that Aurora's best interest For Bronchitis Is Having Wonderful Success and Is Making Most Remarkable one who will take the trouble to study the situation that Aurora's best interest would be furthered by that municipality becoming one of the units of the hydro-electric and participating in all the ad-For bronchitis a different form of It con-

treatment is now advocated. It consists of a scientifically devised vapor that penetrates to the uttermost recesses of the lungs and bronchita tubes. Every spot that is sore, every surface that is irritated is at once bathed with soothing balsams and healing essences that make chronic bronchitis an impossibility. This treatment, now so universally employed in bronchitis, throat troubles, colds, etc., is called CATARRH-OZONE. It acts just as air of the pine woods acts, as a healing antiseptic remedy for all diseases of the breathing organs. Just think of it—a remedy that can be carried with the very air you breathe to the seat of bronchial or catarrhal inflammation. A remedy powerful enough to kill germ life and yet so healing that disease flees before it. Catarrhozone is truly a wonderful remedy. In many lands it has won its way, and is affording grand results to sufferers from colds, ca-

the municipality sacrificing its future development for a trifling formation of the formation of the subject of development for a trifling financial guilty under indictment. benefit in the immediate present. One visible result of confession

In conversation with The World last made today was the demotion of annight, P. W. Ellis of the Toronto Hydro-Electric Commission said: "We were buying provincial hydro-electric power at \$18.20 per horsepower, and no promise was made as to how soon we would have a reduction, or what per-formance would be necessary on our part to entitle us to a reduction. We received a reduction, however, to \$15 per horsepower very much earlier that received a reduction, however, to \$15 per horsepower very much earlier than we anticipated, and I have no doubt whatever that Aurora would meet with the same experience long before the termination of the York Radial contract, judging by the experience we have had here. figures most prominently in charge of the figures most prominently in the graft disclosures made thus far. One of the most remarkable wit-

nesses examined by Mr. Whitman was Mary Stacon, who confessed today, at the age of 74 years, that fifty years of her life had been spent as "After all the hydro-electric is a cost

proposition, and neither Aurora nor any other municipality nor person can hope to receive energy below cost. The Provincial Hydro-Electric Commission keeper of disorderly resorts

IMPROVEMENTS TO HARBOR EXPLAINED

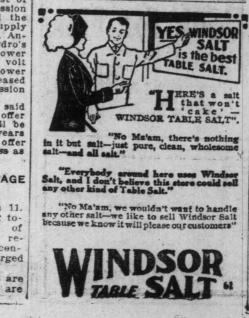

F.

Spence Predicted Great Things For Greater Toronto.

A greater Toronto and a new order of things were promised by F.-S. Spence of the harbor commission in an address given in the Elizabeth Street School tast evening. The lec-ture was illustrated by limelight views showing the waterfront new street school last evening. The lec-ture was illustrated by limelight views, showing the waterfront now and eight years hence, when the great plans outlined will be completed. The and eight years hence, when the great plans outlined will be completed. The land at Ashbridge's Bay will be filled in and crossed by a channel 400 feet wide and 22 feet deep. Ashbridge's Bay will have 644 acres of built-in land, which will be rented for indus-trial purposes. There will be a new park with an area twenty times that of Gueer's Park eleven miles of drive-

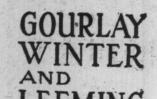

of Queen's Park, eleven miles of drive-way and twelve miles of sheltered

way and twelve miles of sheltered water for cances or small boats. A pleasure ground for restaurants, shows and games to far exceed Hanlan's will be situated near the Humber. The cost will be \$19,000,000, to be raised by renting the newly-made lands, and calculations show that this will meet all expenses and leave \$250,000 a year for the public funds of the city.

triumph_an instrument in which the artistic is joined to the material to form a medium of musical expression deft and subtle for the trained musician, and staunch and durable for constant everyday use.
