to Neglect Standard Stocks.

SENTIMENT CAUTIOUS

A fairly active market for a halfsession was witnessed on the Toronto Stock Exchange Saturday, altho the activity was again mostly in a few specivity was again mostly in a few specialized issues. These were strong, but only in Steel and Radiation was there any advance of consequence. Friday these shares rose 6½ points to 69 and on Saturday the rise was carried five points further to 74. No definite news has been given out in connection with the company, but it is known that some new financing has been arranged in New York and that the company has a fair share of the shell orders now going. Russell Motor was firm and some announcement from this company of importance is now rumored. Steel of Canada sold higher at 45½, but Steamships was mactive and lower, as was Ames Holden. The older steel and other issues were dull and about unchanged. At the close of the week the market was accepted as having a promising future.

OUIETNESS FEATURE

Montreal Exchange Reports Car Weak-Other Munition Stocks Steady to Firm.

MONTREAL, Nov. 14.—Apart from Canadian Car common, local stocks displayed a steady to firm tone thruout Saturday. Car was weak and erratic, dropping 8 points to 92, selling inting to only a few hundred shares, and then rallying to 35; under as light a demand. At the close 951 was bid with no offerings against the wide spread of 100 asked, 94 bid on Friday.

The balance of the market was com-

The balance of the market was comparatively featureless except for a wide movement in one of the new specialities. Canada Forgings, which was narked up 15 points to 155 at the cening, but sold off later to 150 and closed 150½, or 10½ up for the day. The munition stocks, other than Car, were firm. Iron was unchanged thru out the morning at 50, Scotia finished ¼ up at 99. Steel of Canada went to 46, but reacted to 44¾ in the final dealings, ¼ off on the day. Only a broken ings, 4 off on the day. Only a broken lot of Bridge changed hands and final the at 224 was unchanged from the rrevious day. Ames-Holden common was active at 2014 to 1914, closing the point. The preferred off 1½ to 14½.

Total business 8314 shares, \$1500 bonds and 100 mines.

DOMINION WAR LOAN OFFERED FOR FIRST TIME

The Dominion Securities Corporation says: For the first time in the history of Canada a domestic war loan is to be offered for public subscription in order to assist in financing ntry's war expenditure. From motives of patriotism alone Canadians will be certain to respond enthusiastically to the appeal, and it is under stood that the interest return, in keeping with the abnormal financial con ditions prevailing thruout the world will be substantial. These two factors should make the offering extreme ly popular, and ensure its complete auccess. It is expected that \$50,000,000 10-year Dominion of Canada 5 per cent, bonds will be offered, and that tors irrespective of whether their

becriptions are large or small.

COBALT ORE FIGURES. NORTH BAY. Ont. Nov. 13.—Ore figures for the week ending Nov. 12 are: Mining Corporation of Canada, 69.500: McKinley-Darragh S. M., 82.—370; Peterson Lake S. M., 65,903.

STRONG SENTIMENT PREVAILS IN WHEAT

Gains of Seven-Eighths to Cent Scored in Chicago Pit.

BIG EXPORT DEMAND

Feeling Gained Credence of Shortage in British Grain Stocks.

CHICAGO, Nov. 14.—Assumptions that export trade from the United States would soon become larger encuraged oullish sentiment Saturday in the wheat trade. The outcome was a steady close 7-8c to 1c net higher, with December at \$1.05 5-8 and May at \$1.06 3-8. Gainsc were scored also by other speculative articles—corn ½c to 5-8c, cats 1-8c to ½c, and provisions a shade to 10c higher.

Leading bulls in wheat took the ground that foreign developments appeared to be directing the immediate European demand more and more in this country. Stress was laid on reports that the supply in Great Britain was almost negligible, and on the continued strength of prices here and at other domestic centres, notwithstanding the exceptionally heavy crop movement of late. Views of this character helped to bring in sufficient buying to start prices up grade right at the outset and there was at no time any serious reaction except of the most transient sort.

Decreasing arrivals in the northwest
