250,000 year ago. Toronto Sugar Market. Crop Reports.

Price Current says: Continuance of dry weather in central and western regions served to retard development of wheat plant, and in various localities there appears to be a feeling that the crop is suffering from such cause, but not to a degree of seriousness. Week favorable for handling corn and good progress made in producing sections.

Toronto Sugar Market,

St. Lawrence granulated, 4.85 per cwt., in barrels. Beaver, 34.65 per cwt., in barrel

for handling corn and good progress made in producing sections.

Modern Miller says: Outlook moderately bullish, rains having fallen over a large area of winter wheat country, but were by no means general, and the precipitation was light. Recent reports of damage to the Kansas crop by lack of moisture cannot be confirmed. Millers and grain dealers believe the dry condition will cause better root development.

Washington.—In consequence of the severe droughts in August and September, the corn crop in Central Mexico is practically a total failure, except where arrigation has been undertaken, and the government will probably be obliged to import much corn-frem the United States.

Union Horse Exchange.

J. Herbeit Smith, manager of the Union Horse Exchange at the Union Stock Yards, reports a fair trada during the week. First-class horses are slow sale on account of their high values, which are too high to suit purchasers. In spite of this Mr. Smith reports sales this week of three car loads to go to the lumber ocemps, as well as a fair number of sales to fill the local demand. Manager Smith states that he could sell three car loads per week of second-class horses if he could get them.

Mr. Smith is looking for a better demand after the first of next month. Prices ruled as fellows: Draughters, \$250 to \$275; general purpose and farm chunks, \$125 to \$200; express and wagon borses, \$180 to \$225; drivers, \$100 to \$225; serviceably sound, \$250 to \$100.

Further Weakness in Rochester Affects Sentiment Regarding Whole List-McKinley-Darragh Continues its Steady Advance.

Rochester stock developed further weakness on the mining markets to-day, and the reactionary trend displayed by this issue had a depressing effect on the whole list, various of the cheaper Cobalts selling off from the previous day's figures in sympathy with the movement.
