

YORK COUNTY AND SUBURBS

WRECK AT BOLTON FREIGHT DERAILED

Junction Council Barely Gets a Quorum—East Toronto Railway Man's Sudden Death.

TORONTO JUNCTION, April 15.—As the Teeswater freight southbound was approaching Bolton Junction to-night about 4.30 in charge of Conductor John Carroll, four cars heavily laden with merchandise left the tracks, tearing up the roadbed and ties and scattering the contents over the road. The auxiliary from the Junction left the yards at 5.30 and by 3 o'clock the track was cleared. A broken car wheel was the cause.

The regular meeting of the Toronto Junction Council was held to-night and was very sparsely attended, there being just a quorum. Those present were: Mayor W. A. Baird, Councillors Howell, Whittier, Bull, Irwin, Haines and Sheppard. Quite a number of citizens were present and took a deep interest in the proceedings. It has often been the desire of councillors to have a better attendance by the citizens, and to-night's meeting came nearer to reaching their desire than for some months. It was decided to give \$25 to No. 3 Company, York Rangers. Captain J. G. Wright was present and extended an invitation to the members of council to visit the company at Niagara during the annual camp. The invitation was graciously accepted by Mayor Baird on behalf of the council and it is very likely the council will attend the camp in a body.

Mr. James Brown wrote saying the goods stored by him in the corporation shed and sent by the council of 1904 to Belleville were to be sold shortly by the G.T.R. for freight charges. He asked the council to redeem the goods, but as this matter has held her for so long and the council consider that Mr. Brown was not in the matter was given another shift.

Two petitions from property owners on Dundas-street were presented by Councillor Irwin. One was signed by eighty of the property owners asking that a paved brick be used as the form of pavement to be used on Dundas-street while the other was signed by 21 property owners asking that the names be taken from the original petition, which asked that asphalt block be used. The report of the special committee was handed in by Councillor Haines. The committee considered it wise for the council to get measurements and make profiles and put himself in position to ask for tenders on several kinds of pavements so the council can select the pavements considered best.

The engineer said the plans would be ready in three days. The works committee will meet next Monday night when the whole matter will be gone into and tenders will be called for. This will mean another two weeks, and all this time the season for putting down pavements is passing.

Mrs. Elizabeth Brown, widow of the late George Brown, who died yesterday, was at one time a well known citizen of the Junction. She was in her 57th year. The funeral will take place to Prospect Park Cemetery today.

Markham. Miss Crombie of Toronto will address the Auxiliary of the W.F.M.S. of the St. Andrew's Presbyterian Church to-morrow (Wednesday) evening, at 7.30.

Markham Lacrosse Club would like to get a circuit including Cannington, Uxbridge, Whitby and Markham as the one most likely to give general satisfaction.

Markham Oddfellows will attend service in St. Andrew's Church on Sunday next, April 20, at 7 p.m. Rev. Mr. Grant will preach.

G. A. Speight has bought a lot on the east side of Main-street north of Miss Holden's store, and during the summer will erect a handsome residence for his own use.

YOUR BEST HAT

Your best hat should be the best there is. Among the world's best makers it is pretty hard sometimes to decide which is best, but you can make no mistake in such makes as these:

KNOX, YOUMANS, STETSON, PEEL, CHRISTY, GLYN.

SILK HATS, \$5 to \$8. STIFF HATS, \$2.50 to \$5. SOFT HATS, \$2 to \$8.

In Men's Furnishings we can give some high qualities and some very modest prices.

GLOVES, SHIRTS, NECKWEAR.

Fairweather

84-86 Yonge St.

Church, postponed from Easter Monday, was held at the school-house last night.

The pastor, Rev. T. N. Patterson, presided and recommended that the members of the congregation present.

The statement presented showed that the previous year's receipts for the year were \$1,387.88. The balance carried forward was \$84, against \$37.61.

The treasurer's report showed that the immediately expired year were \$75 in excess of those of the year previous.

The increasing work of the parish suggested to the meeting the necessity of obtaining a curate, and a committee was appointed to make immediate arrangements for the engagement of an assistant.

The officers elected were: People's wardens, J. Borwell, rector; Messrs. W. McCrae, Sidney, Messrs. Lundy, Coulson, Cook, Burkes, Muston, Jennings, Williams, Wilmut, Boyd, Thorns and Capthorn; tribunes, Messrs. Lundy and Burke; delegates to synod, Messrs. Auden, Williams and Wilmut.

North Toronto. The water, fire and light committee met last night and recommended that the hydrants be moved on Erskine-avenue at once so that the contractors can commence their work in laying the concrete sidewalks.

Signs prohibiting "walking over the roofs of the wells at the pumping station" will be displayed in future.

The committee recommended that the town engineer receive \$50 for his extra time while the new water-tower was in course of construction.

The board of works committee recommended the hiring of the large street grader to be used for the grading of the new streets in the Northern Heights at \$250 per day; also that a carload of broken stone be purchased from Christy Henderson Company as a sample load at \$1.25 per ton.

Chairman Murphy and Councillor V. J. Laurence were not in friendly mood with Commissioner Walmsley for discharging the contractor's work, explained, but it seemed that the board was not satisfied with his explanation.

Chairman Murphy desired to know why certain parties had to be asked to raise the sidewalk on Sherwood-avenue while the ratepayers on any other street have simply to submit to the council. The thodist Ellis allowed the sidewalk on Erskine-avenue to be graded and a concrete sidewalk 4 feet in width be laid on the south side on the initiative, and a tar and gravel-walk on the north side of Roper-avenue on the same plan.

The World correspondent regrets very much giving credence to common reports a few days ago of the supposed death of Mrs. Bates, Glenwood-avenue, who is in the Western Hospital.

It is learned that the lady is improving nicely.

Josephine Phillips of Dufferin-street, Toronto, was charged in the court police court with attempting to commit suicide at Humber-Bay yesterday. Defendant claimed that it was the work of a spree, promised to go to work again, and signed the pledge. Magistrate Ellis allowed her freedom on suspended sentence.

Rev. George M. Brown of the Sherburne Methodist Church addressed the ladies of the Ladies' Missionary Society last night, while Mrs. Dr. Powell of Toronto lectured in the Epitaph Methodist Church under the auspices of the Ladies' Missionary Society.

The F. Robins Company are opening up the new farm recently purchased from Col. J. A. McGilivray at Bedford Park, known as the "Northern Heights."

Mrs. Nelson, Moore Park, the wife of the third deputy-reve, York Township, is seriously ill and will undergo an operation.

Mr. Lecras informed The World that

DECK'S NEW POWER BILL RULES OUT CONNEX ACT

Makes the Fact Clear—Further Supplementary Estimates—Day in Legislature.

Further supplementary estimates were brought down in the legislature yesterday afternoon. The main items are grants of \$4000 and \$1000 respectively to Mrs. Helen St. John, widow, and to Miss Winnie St. John, daughter of the late Speaker St. John. A grant of \$4000 is also made to the drainage scheme on the River Raisin.

Hon. Mr. Beck introduced a bill to provide for the transmission of electric power to municipalities. It will take the place of one recently introduced, which will be withdrawn in committee. The present measure has been drafted by the commission for the revision of the statutes and will harmonize the existing legislation. It defines the power of municipalities to supply light and power to users, and to those in adjoining places, with the consent of the hydro-electric commission. It also makes clear that the Connex Act does not apply to municipal corporations entering into contracts with the commission. Another clause makes the line loss a part of the cost of operation, to be paid by the municipalities, and forest of application to the commission are drafted. The bill was also given a second reading.

Hon. Mr. Hanna introduced a bill to provide for the plugging of gas and oil wells. This is the measure A. E. McCoig introduced some time ago which the government has taken up.

Premier Whitney found it impossible to make his promised statement on railway subsidies, but will do so to-day, when there will be three sessions of the house before 11 o'clock. The members threaten to prolong the session into next week. The promised opposition will probably resolve itself into timely debate, as several contentious topics are reached. The privacy of the university governors will be overruled.

Hon. Mr. Hanna announced an amendment to the clause in the Municipalities Amendment Act, by which localities and municipalities are left out from its operation, and no action could be entered until 90 days' notice had been given by the municipality to the party against whom the suit was brought.

In regard to clause 606, Mr. Hanna added the words "oral order" after the words "express notice," which the amendment requires to be given to the officials of municipalities before damages are claimed for injury received on defective highways. A. G. MacKay feared that cases in which direct knowledge was possessed by officials would be exempted, but Mr. Hanna thought the law would cover such cases, while some protection must be afforded municipalities.

Herbert Whitney declared municipalities had no more right to protection than other bodies. If the amendment were passed, municipalities employing labor should be given the same advantages. Such actions were the result of negligence usually, and very few accidents occurred. He thought it was not a question of changing the law, but of doing what was right.

Studholme's Philosophy. "Protect your little fellow," said Allan Studholme. "You big corporation and your big fellow with the millions can protect themselves."

Messrs. Graham, Hislop and G. H. Ferguson opposed the amendment, but the government put it thru.

The bill as amended was reported.

Hon. Mr. Hanna announced, when the house went into supply, that Dr. Welford, a surgeon of repute in Woodstock, had been appointed consulting surgeon to the Epileptic Hospital there.

The government recognized the necessity from the outset, but had deferred making the appointment. Relief in the cases in question was often given by surgical means, and all cases should be passed on surgically as they came in.

Dr. Welford will receive \$600 a year.

C. N. Smith enquired in connection with the item of \$3000 for investigation and cost of preliminary steps for the removal of the Central Prison what the government had in view. Hon. Mr. Hanna hoped to have a well-defined plan next year. No land had been bought or thought of, and nothing would be done until the question had been thoroughly thought out.

Premier Whitney stated that the government was giving a good deal of attention to the Guelph Winter Fair, and building for fat stock. They had made up their minds to have a thorough enquiry as to what was necessary.

Allan Studholme objected to the class of men brought to Canada by the Salvation Army. He had supposed they were to take up farms and go on the land, but they were taking the work at lower wages from Canadian workmen, who had to go to the States. He thought the government should send a man to the ports of debarcation to inspect the immigrants.

Third Readings. A long time was spent over the drainage of lands adjoining the Nation River.

Two minutes were devoted to giving
