SEVENTEENTH YEAR

THE DRUMMOND CASTLE SINKS.

Mail Steamer From Cape Town for London Strikes a Rock AND 24 PERSONS ON BOARD PERISHED.

Only Three Survivors, One at Ushant and Two at Isle de Molene—Six Bodies Recovered—The Vassal's Passenger List Numbered One Hundred and Forty-Four—The Ship Sank Before Boats Could Be Lowered.

Brest, France, June 17.—The British steamer Drummond Castle, Captain N. W. Pierce, from Cape Town, for London, collided at midnight with an unknown steamer and sank three minutes later with 144 passengers and 103 officers and crew on board.

Two men were picked up floating on some wreckage by fishermen off Ushant, near which point the steamer went down. It developed, however, that some of the passengers and crew escaped in the boats.

The Drummond Castle belonged to the famous Castle Line of steamships, running between South Africa and London. She was of about 2300 tons register and was last heard of at Las Palmas, Canary Islands, on June 12, Friday last.

Tugs have been sent out from this port to the scene of the disaster in the hope of picking up some survivors.

The fate of the steamer with which the Drummond Castle collided is not known and hopes are expressed that she may be about among some of the passengers and crew of the Castle are on board of her.

The sole survivor at Ushant of the Drummond Castle is a man named Macquart. Six bodies have already been recovered there. One is that of an officer of the lost steamer and another is that of a girl 6 years old.

Two additional survivors of the sunken steamer are at Isle de Molene. The cause of the disaster is unknown, but it is believed to have been due to the lights of the unknown steamer having been mis-read or not discerned by the officers of the watch on board the Castle liner.

Heading for Survivors. London, June 17.—The United Press correspondent at Brest telegraphed at 2 o'clock this afternoon that no positive knowledge has been obtained up to that hour regarding the fate of missing passengers and crew of the sunken steamer except that, as before reported, one survivor was at Ushant, and that others were at Isle de Molene, and that six bodies had been recovered. The correspondent also stated that a search is being made by steamers in the vicinity of the scene of the disaster for the hope of rescuing other survivors.

A Warship's Attempted Rescue. A telegram was received to-night at the Admiralty Office from the commander of the British warship Sybil, which is cruising in the Bay of Biscay, confirming the reports previously received regarding the suddenness of the sinking of the Drummond Castle.

The Sybil was ordered to search for the wreck of the steamer, but so sudden was the collapse of the vessel that the efforts of the cruiser's men were in vain.

Many friends of persons who were known to have been on board the lost steamer remained at the offices of the Steamship Company until late to-night, hoping to learn that there were other survivors of the disaster, and that among them would be found their friends. The meagre telegrams received, however, only tended to confirm the worst reports.

MR. POPE UNOPPOSED. The Patron in Compton Will Retire and Leave the Field Free—Sir Adolphe Caron's Nomination.

Montreal, June 17.—(Special.)—There appears to have been a misunderstanding regarding the nomination of Sir Adolphe Caron in St. Maurice and Three Rivers. Sir Adolphe was not present at the nomination and his name was put forward without his consent, so no doubt the ex-postmaster-General will retire at an early day, leaving the field an easy victory to Mr. F. Desaulniers, who represented St. Maurice in the last Parliament.

MR. WILLIAMS TO-MORROW. Mr. Williams of the East, and the style cannot be surpassed by any design on the market at anything like the price. It's the great inducement of the week at Dineen's.

WILL SELL IT TO-MORROW. That New Hat About Which They're Talking—Price \$1.35.

To-morrow the new hat, which is in Dineen's window, with the price of one-twenty-five affixed, will be on sale, and not before. This hat was made to sell for two-fifty, and would be good value for the money.

MANITOBA'S CROP OUTLOOK.

The Wet Season for Seeding Ensures a Bountiful Harvest.

Total Acreage Under All Crops 191,213 Acres. This is 1,000,000 Acres more than last year, being 1,000,000 Acres more than last year, according to the First Official Statement issued by the Provincial Authorities.

Winnipeg, June 17.—(Special.)—The first official crop bulletin for this year was issued by the Provincial Government to-day. Summarized shows the acreage to be as follows: Wheat 1,081,900 acres; oats, 442,448; barley, 127,888; flax, 20,335; rye, 310; peas, 110; corn, 700; potatoes, 12,500; roots, 6715, making the total area under all crops 1,696,633 acres—a decrease of 191,213 acres compared with last year. This is due to the very late opening of the season. Not in 15 years has there been such a wet season for seeding. Though the area under crop is less than last year, it exceeds 1884 by 100,000 acres. The wet weather, though retarding the season, is declared to be of great benefit to the province as a whole, and almost assures a bountiful harvest.

WHAT OUR CHIEF MISSED. Canadian Representative Flemen and Being Well Treated in England.

IT'S MR. WHITE'S TURN NOW.

The Ex-Speaker Contradicts Mr. Craig's Statement.

Ottawa, Ont., June 17.—(Special.)—The other day a Mr. Craig of Renfrew, speaking in this city, stated that some of the Catholic clergy were supporting Hon. Peter White in North Renfrew, although he is an anti-Remedialist. The excuse, said Mr. Craig, which one of them gave for this inconsistency was that they had a private place from Mr. White that he was not against Remedial Legislation. To-day the following emphatic contradiction of Mr. Craig's assertion was received:

"Pembroke, Ont., June 17. The statement reported in your issue of yesterday as having been made by Mr. Craig of Renfrew, that I had given a private pledge that I was not against Remedial Legislation is wholly untrue. I have given no such pledge to any person."

Mr. McVey's Statement. Sir Charles Tupper's prompt repudiation of the statement that Mr. Taylor awarded the contract for the construction of the two steel sewers to be used in connection with the steel dredge in the waters of the Maritime Provinces to the firm of Carriere, Latine & Co. of Quebec. This firm was the lowest tender.

General Notes. A deputation from the Montreal Board of Trade is expected here to-morrow to interview the Deputy Minister of Marine and urge an improvement in the lighting of the Straits of Belle Isle.

Two lads were drowned in the Ottawa River to-day. One of them, named E. Larose, 9 years old, was drowned at the Hull Ferry Wharf while gathering slabs, and this morning James Lade-ro, a boy employed in Eddy's match factory, fell off a beam on which he was walking into the stream and sank before assistance could reach him.

Personal. Mr. Melburn Nelems, C.P.R. ticket agent at Woodstock, has been transferred to St. Thomas.

Mr. L. Col. Montanbert, Inspector of Artilery, Quebec, is in the city. W. H. Biggar, M.L.A., Belleville, is at the Queen's.

James A. Oulvie, Brantford, is at the Walker.

Book Tickets 83 to Hamilton and St. Catharines.

THE TAI-TAI WATCH.

Did John Kearney Ruthlessly Slay Old James Agnew?

The Grand Jury Returns in a True Bill in the Hasty Murder Case Against the Alleged Principal in the Crime—Tail-Tale Watch, Revolver and Footprints are Strong Points in This Circumstantial Case.

Lindsay, Ont., June 17.—The Spring Assizes for the county of Victoria were opened last evening after the arrival of the presiding judge, Hon. Mr. Justice Street, from Ottawa, where he had been holding the weekly court. Beyond empanelling the grand jury and calling the long list of petty jurors, no business was done. His Lordship, however, charged the grand jury very fully and clearly as to the two criminal cases of the Queen v. John Kearney and the Queen v. Patrick Kearney, who were committed for trial by the Police Magistrate about three months ago for the murder of James Agnew, a retired farmer residing at Lindsay.

James Agnew was on the night of the 17th of March last found by his wife lying dead on the ground at the door of his stable. He had been shot through the head and killed instantly, the revolver bullet which was found in his brain entering just behind the left ear in its upward direction, and lodged behind the right ear, where it was found by the surgeons during their post-mortem examination. In its passage the bullet had severed the spinal cord and a large artery, causing instant death. The old man's watch was found beside the body or pocket-book and a lot of his private papers were found about in the stable and outside on the ground.

The Prisoners' Arrest. On the following day the prisoners were arrested, and after a lengthy hearing before the Police Magistrate were presented up for trial. The evidence before the magistrate showed that John Kearney had a revolver with him on the night of the murder near Mr. Agnew's house, and that the brother heard of the murder, and was concealed by Patrick in the cellar of the house occupied by the prisoners' father in-law, where they were afterwards discovered by the police officers. A pair of overalls worn by John Kearney on the night of the murder were found at the farm-house of Henry Logan, who had been working up to that day. These overalls were found to fit in and correspond with fresh footprints in the snow around the house and stable of the deceased farmer, John Kearney, who had previously carried a small silver watch of the deceased farmer, John Kearney, who had been working up to that day.
