from carrying cattle from St. John and Halifax.

No Relaxation.

The answer to that request reached the minister at 4 o'clock this afternoon. It positively refused to concur in the proposed relaxations. Meantime the ministers had met in council to consider the situation, and had uecuced to abide by the decision of the imperial authorities, so that neither will the C.P.R. be permitted to resume the transportation of cattle from Montreal to St. John, nor will steamers saling from Portand or Boston be allowed within 21 days after their degrature from those ports to call at St. John or Halifax, and take cattle on board for a British port. The Intercolonial Rallway will, therefore, continue to carry cattle to the Canadian seaboard afform thence to their trans-Atlantic destination. They will have to be transported in direct steamers, at all events, not in steamers that make their tis-Atlantic terminus at Portland or Boston.

FIFER MANY CENTINIES

Journed to the town hall. David Lockwood, being called, testified that while driving home on Friday evening last he met a buggy in which were two men who were apparently scuffling. When he had gone a little piece farther he heard some one shooting, and, turning around, saw one man falling from the rig and the Central and Western States yesterday, morning the Observatory sent out a warning to versifie the warf were two men who were apparently scuffling. When he had gone a little piece farther he heard some one shooting, and, turning around, saw one man falling from the rig and the cother following, and the two strug-flings. Then he heard one of them morning. In the Northwest there has been zero weather, but it will not be so severe here, althother will be so severe here, althother will be so severe here, althother will be so severe here. A heavy northwest wind will prevail. The gale were apparently scuffling. When he had gone a little piece farther he heard some one shooting, and, turning and the two other following, and the two other following. The heavy shout: "Hold on is-Atlantic terminus at Portland or

cli gave the foregoing information, in effect to The World representative, did not seem to be greatly perturbed at the refusal of the British Board of Agriculture, to acquisee in the relaxations he suggested. Altho, he said, he had been in hopes that they would have been agreed to, because of the great facilities they would give to cattle shippers and the railway company. Mr. Fisher said: "The imperial authorities declined to allow cattle to pass thru the State of Maine, so that the conter given out the other day stands. They also say that no cattle must be shipped from Canada by steamships which have touched at a port of the New England. States, within 21 days prior to their arrival at the Canadian port from which it is desired to ship cattle to England.

Greece and Persia Will Resume Relations in Diplomacy.

Athensians will resume Relations are in the roadside. The wounded man, gave medical testimony, and in answer to Mr. Anderson said that Skellon gave him an account of the affair while he was dressing has about to be resumed between Greece and Persia. The last ambassador to the Mr. Antenians was despatched by King Darius in 491 B.C. That embassy was in charge before the battle of Maration, which effectually broke off all diplomatic intercourse between the two countries.

QUIRK WAS MURDERED.

Theory of Unfortunate Steamer's Sudden Disappearance.

Wires Strathcons.

Wires Strathcons.

I have just sent another cablegram more successful, I don't know. No. I have no announcements to put forward. It was simply a fresh unging of the request for relaxation, but I am word there is not much hope for its favorable effect. They are very touchy in England about these matters and we must be careful not to offend their susceptibilities or they might take a course which would shut our cattle out altogether. The situation, therefore, is this, that any cattle shipped from Canada must go around Maine and not thru that State. There has been a considerable demand from the Western States already for facilities for shipping cattle to Europe thru for shipping cattle to Europe thru Canada. These people formerly shipped thru the ports of Portland and Boston, which are rivals to our own winter ports, but are now closed to that trade. Of course anything we can do to facili-tate shipment thru Canada will be done, as it would be of the greatest importance to our own interests."

Greatly Used "Have Canadian shippers in the past been really dependent upon steamers salling from Portland and Boston for adequate ocean transportation facili-ties" Mr. Fisher was asked.

"Well, a considerable number of Canadian cattle," he answered, "have been going that way, just as many American cattle have been shipped from Canadian ports. In fact, I have just had a visit from a gentleman from the Northwest who now has 600 head of cattle in Boston, that he can't set rowers account of the arrivage. get now on account of the embargo.'

to Test Their Appeal, Berlin, Dec. 2.-Distinguished mem

ers of the Society for the Preventio Great Britain Will Take No Chance of Having Canadian Cattle Infected With Disease.

Ottawa, Dec. 2.—(Special.)—In the interest of cheap and efficient transportation of Canadian cattle to the British market, Hon. Sydney Fisher Addressed to the British Board of Agriculture, thru the High Commissioner in London, a request to be allowed to relax the new Dominion customs from carrying cattle thru to St. John, because its line lies for a short distance in the State of Maine, and which prevents vessels bound from Portland and Boston to British ports from carrying cattle from St. John and Halifax.

Belevation

of Cruelty to Animais have been invited to a horse meat dinner by the Fleischer Zeitung, the national organ of the German butchers, which says it desires to the macure the sincerity of the society in issuing its recent appeal to the public to eat more horse meat, so as to be merciful to animals unit for work, which would be relieved of their sufferings if the consumption of horse meat is made more popular. The Fleischer Zeitung has not yet received any acceptances to the invitation cards, which were sent out on saturday. The paper promises to put up as good a horse meat feast as an accomplished cook can produce, but the only material must be an aged, rheuman complished cook can produce, but the only material must be an aged, rheuman complished cook can produce, but the only material must be an aged, rheuman complished cook can produce, but the only material must be an aged, rheuman complished cook can produce, but the only material must be an aged, rheuman complished cook can produce, but the only material must be an aged, rheuman complished cook can produce, but the only material must be an aged, rheuman complished cook can produce, but the only material must be an aged, rheuman complished cook can produce, but the only material must be an aged, rheuman complished cook can produce, but the only material must be an aged, rheuman complished cook can produce, but the only material must be an aged, rheuman complishe of Cruelty to Animals have been in-

peradventure the power sought. The question of regulation of the trusts stands apart from the question of tariff revision. Wherever the tariff conditions are such that a needed change cannot with advantage be made by the application of the reciprocity idea, then it can be made outright by a lowering of duties on a given article. In my judgment the tariff on anthracite coal should be removed. It is earnestly hoped that a Secretary of Commerce may be created, with a seat in the cabinet.

There should be no halt in the work of building up the navy—it is the surest guaranty of peace.

Laws Can Kill Prosperity.

The message, in part, is as follows: To the Senate and House of Representatives;
We still continue in a period of un-ocunded prosperity. This prosperity is

Continued on Page 5, SELL IT AT A LOSS. Ottawa Council Parts With Welsh

Ottawa, Dec. 2.-The Ottawa City Council to-night decided to sell the 2000 tons of Welsh coal now in stock at \$8 a ton. This involves a loss of at \$8 a ton. This involves a loss of \$4 a ton, and is 50 cents lower than the price now quoted by the dealers—\$8.50 a ton. The balance of the civic Weish coal is at Montreal, and two men are under arrest there for stealing a quantity of it. Detective Robillard of Ottawa was sent down to investigate, and reported that it was being stolen, and word was received to-day that a watchman on the Elder-Dempster whare and another man had been arrested on a charge of stealing it.

Montreal, Dec. 2.-The sum of \$1700 was raised this evening at the Blake-Devlin meeting.
