Accident to Pioneer Implement Dealer Has Fatal Termination-Junction Board of Works.

Toronto Junction, July 25.-The board of works held its regular meeting in the town hall to-night, with Councillor Ryding in the chair. Mr. Greniaus and other property

that the sewer laid on that street had not been property inspected. In 50 ft. the sewer had been raised as much as it should have been in 200 feet. Where the workmen came across gas pipes, they raised the sewer pipes over them, thus bringing the pipe near the them, thus bringing the pipe near the surface unnecessarily. Mr. Crawthers, a civil engineer, made a profile and took the levels to-day. He contends that had the sewer been put at its proper level, other houses on the street could have been served and it would be about three feet from the surface opposite Mr. Greniaus' house. Chief Robinson will be asked to report at the meeting of the executive on Thursday night.

Water Services Wanted.

Nathaniel Shunk, who owns 300 ft. of land at the corner of Annette and Elizabeth-streets, purposes building several houses. He asked for a water service, which was granted on condition that Mr. Shunk bears one half the cost of construction.

Chas. E. Proctor also intends building four houses on East Annette-street. ing four houses on East Annette-street, He desires to have the sidewalk raised. The request was referred to the com-

Supt. Haggas stated that two hydrants at a cost of \$200 were required on Weston-road, one on Van Hornestreet to cost \$50, and pipe to cost \$895. The executive will deal with this. The superintendent also reported that the men filling in the spring washout on Elizabeth-street had pushed away one trestle, one pipe was split and two or three leaks had already occurred. He thought the commissioner should give his attention to this work.

D. O. Fife asked permission to hang a sign over the sidewalk at the corn-er of Midland and Dundas-streets. Some of the councillors thought that business signs were a disfigurement, and the request was referred to the executive. Mathew Marshall, 327 Franklin-avenue, again made a request for a water service. The commissionfor a water service. The commission er promised to look into the matter.

Building operations in the town are of a gradual character, and there is no disposition to accelerate a boom. Assessor J. M. Whaley states that values are gradually rising, and that property is on a much more stable foundation than at any previous time. Considerable kicking is heard of the long waits at the switches by the local cars to allow the passage of excursion and other thru cars. The fifteen minute service is not an actuality under present conditions, and passengers are under the impression that a double line of track between the C.P.R. crossing and Glengrove Park will shortly be needed to meet the wants of the Metropolitan Railway

Proud of the Name Toronto.

We're proud of the record of the Toronto sculler at Henley. We would like everybody this summer to wear the name conspicuously when they take their outings. We have had "Toronto" cut in sterling silver, sawn right out of a solid piece, beautifully polished and mounted with brooch pin and catch. The young ladies can wear it for a brooch, for a chatelaine pin or in half a dozen other ways. The young men could not find a better lapel pin. So that everybody may have one the price is nominal, considering the pin is real silver.

Sterling Silver Lace Pins and Brooches, suitable for shirtwaist suits, for picnic wear and for tourists as souvenirs of Toronto, some enamelled, others with name Toronto in plain silver,
