Dandruff Soon Ruins The Hair

Girls—if you want plenty of thick,
beautiful, glossy, silky hair, do by all
means get rid of dandruff, for it will
ruin your hair and ruin it if you don't.

It doesn't do much good to try to
brush or wash it out. The only sure way
to get rid of dandruff is to dis-
solve it, then you destroy it, entirely.
To do this, get out four ounces of
ordinary liquid arvon; apply it at night
when retiring; use enough to moisten
the scalp and rub it in gently with the
finger tips.

By morning, most if not all, of your
dandruff will be gone, and three or
four more applications will completely
dissolve and entirely destroy every
single sign and trace of it.

You will find, too, that all itching
and digging of the scalp will stop, and
your hair will look and feel a hundred
times better. You can get liquid arvon
at any drug store. It is inexpensive
and four ounces is all you will need,
no matter how much dandruff you
have. This simple remedy never fails.

APPRECIATE STERN REALITIES OF WAR

Kenneth J. Dunstan Tells Red
Cross Meeting Time is
Ripe for Sacrifice.

PRaises THE WOMEN

Emphasizes Splendid Spirit of Co-
operation—Officers Are
Elected.

In his address at the meeting of the
Red Cross in the city hall yesterday
afternoon, Kenneth J. Dunstan, who
presided, prefaced his report by say-
ing that the third annual meeting
which had taken place during war-
time brought many to appreciate the
stern realities and the sacrifices which
many had been called on to make.
There had never been a time for more
solid confidence than the present, yet
the need for sending men to the front
was greater than ever. Referring to
the work done by the Red Cross in
Toronto, he said that no official had
received any financial remuneration,
that no bill had ever been sent in for
traveling expenses, the only recompense
required being the knowledge that one
is doing his duty to society and for
humanity.

The president also spoke very highly
of the work that had been done by
the various women's organizations and
emphasized the splendid spirit in
which they had operated. He stated
that there are 7 provincial branches
and 637 minor branches of the Red
Cross. Besides giving to wounded
Canadian soldiers, the department
has been able to assist the allies with con-
siderable sums of money and had made
arrangements by which 5000 cases
from Canada were shipped monthly
from London to the French hospitals
where they were distributed thru the
French authorities.

The treasurer's report read by J. J.
Gibson, showed that a total of \$172,-
672.14 had been received and disbursed.
The report from the "waste" depart-
ment was given by E. A. Mulholland
and showed that 12,324 colls had been
made, waste to the amount of \$6,515.43
sold with \$1000 worth on hand. This
department has the possibility of an
annual income of \$25,000.

Something about the Canadian hospi-
tals in England was told by J. F.
Rutter, who had lately visited there
and had found so much to admire,
every soldier, in his opinion, receiv-
ing the best treatment possible. Mr.
Rutter also reported that \$355,111
articles had been made at a value of
\$372,322.36.

Noel Marshall, president of the Cana-
dian Red Cross, who had lately visit-
ed the hospitals in England and
France, thought the time might come
when the organization would be called
upon to help the Allies, because so large
a share is going from Canada now to
the French, Serbians, Russians and
Montenegrins.

Reference was made to the Maple
Leaf Clubs for Canadian soldiers so
ably looked after by Lady Drummond
and to the prisoners of war, 32,000
of whom are in prisons in Germany,
everyone of whom receives a box week-
ly, valued at seven shillings.

A motion to express the voice of the
meeting with regard to the segrega-
tion of Canadian soldiers in the hospi-
tals in England, gave rise to a good
deal of discussion, but no vote on the
matter was taken, as it was thought
well to wait until full particulars had
been secured. A vote of appreciation
was moved to the president by Col.
Nichol and unanimously carried.

The election of officers resulted as
follows:

IS HE CRAZY?

The owner of a large plantation in
Mississippi, where the fine figs grow,
is giving away a few five-acre fruit
tracts. The only condition is that figs
be planted. The owner wants enough
figs raised to supply a co-operative
canning factory. You can secure five
acres and an interest in the canning
factory by writing the Eubank Farms
Company, 1190 Keystone, Pittsburgh,
Pa., U.S.A. They will plant and care
for your trees for \$6 per month. Your
profit should be \$1000 per year. Some
think this man is crazy for giving
away such valuable land, but there
may be method in his madness.
