BECK IS GETTING ABUNDANT POWER

(Continued From Page 1). the city, intimating the price the Mackenzie interests have placed on a clean-up sale of their power plant and radials, disassociated from the Toronto Railway Co.

no line of action to the city; there are others who say that if a sale cannot be effected at the price named Mitchell, who is returning to Toronto by Sir William Mackenzie's associates the city may go up a couple of mil-

to be very well disposed to some kind of clean-up. The Ontario government are attending to their own knitting.

FRONTENAC FARMERS

Kingston, Ont., Nov. 28.—(Special).— At a meeting of the Frontenac county council, a resolution was passed recommending to the tariff commission that the tariff on farm produce and farm machinery be abolished.

The council will erect a tablet and also place a stained glass window in the men who kidnapped Small. At the time it was believed these messages were an attempted hoax. Whether Doughty was in touch with these men in the States is still a myst.

NOTICE OF REGISTRATION OF

NOTICE is hereby given that a Bylaw was passed by the Council of the Corporation of the City of Toronto on the 8th day of November, 1920, providing for the issue of "City of Toronto General Consolidated Loan Debentures" to the amount of \$212,000, to provide the sum of \$200,000 for the purpose of erecting a new Technical School Building (Riverdale Branch) on Greenwood Avenue site, and that such Bylaw was registered in the Registry Office of the Registry Division of Bast Toronto on the 12th day of November, 1920.

Pro-Ireland Demonstration Held by Milan Catholics

OAKOAL, THE NEW FUEL, MAKES GOOD IN TORONTO

Big Business Men, As Well As Men and Women of All Classes, Should Read This Most Important Announcement.

Citizens of Toronto and other parts of the Province will read with pleasure that the OAKOAL plant has turned out sufficient fuel to substantiate every claim we have made for our new fuel product.

This wonderful substitute for anthracite coal has more than met our most sanguine expectations. The burning, heating and economical qualities are astounding. No soot, no clinkers, no disintegration while burning—it is a perfect fuel for all domestic purposes, and burns wherever coal burns.

Delivery of this product will start in a few days. Already we have orders for thousands of tons, and as we have some 20,000 tons of anthracite screenings in our yards, and as some 20,000 tons of wastes will be added to these to make OAKOAL, we will be able to deliver some \$600,000 worth of fuel during the next six months.

NOW YOU PURCHASED BONDS DURING THE WAR to save Canada from the enemy, and to show what Canada could do when emergency made demand. Why not help now to save thousands of citizens from another enemy-Winter-since emergency makes demand, and since your money will multiply?

The following communication speaks for itself:-

FUEL ADMINISTRATION. Province of Ontario.

Toronto Harbor Commissioners' Building, Oakoal Co., Limited, Foot of Bay Street, 43 Scott St., Toronto.

Gentlemen:-The alarming increase in shortage of anthracite coal in Ontario, now 165,000 tons, calls for prompt action on your part. While I am satisfied you are doing well, I am equally satisfied that extra efforts

will result in greater production. The public have been warned of the danger, and urged to avail themselves of your commodity, and I feel assured that you will do your share in averting any danger of suffering, consequent to short-

> Yours very truly, H. A. HARRINGTON. Fuel Administrator for Ontario.

Toronto, November 19th, 1920.

We have done our utmost to help solve this great problem. We have put over \$200,000 into our plant and raw material, knowing we were able to produce the goods, although there were many who said "it could not be done." We cannot meet the demand with present capacity -Hence must double it.

We have installed 600 h.p. of steam energy and laid the foundations within the buildings for the installation of a second briquetting unit, so that we can double the output, which would enable us to turn out 400 tons of fuel daily.

We require \$50,000 more to make this installation—when we will have a quarter million

On the basis of \$1.00 per ton profit, this would ensure \$400.00 daily, or \$120,000 annually; consequently a dividend of about fifty per cent. If the profits were only fifty cents per ton, or the output was only one half, the dividend would be approximately twenty-five per cent.

"Looks good," you say; "why don't the big men jump at it?" Scores have, so far as we permitted them. We placed a limit on individual holdings, so as to make an OAKOAL investment safe for every shareholder. There are many big men who would not invest because they wanted big blocks.

Some doubted our statements; others said they would wait and see if we made good; if the fuel were any good, and so on. Well, we've made good-our fuel is unequalled; our plant unexcelled anywhere on the two Continents. We're proud of it, and you will be, too, when you see it.

The \$50,000 worth of stock now offering will be taken up quickly, because it is a Real Investment, and since the Common stock is now \$10.00 per share, and will soon be of double and multiplied value, it is to your interest that you lose no time in securing your limit.

Preferred stock is \$5.00 per share and pays 8%. Common stock, at \$10.00 a share, earns the profits of the Company. Additional plants mean multiplied values; options already given on Montreal, which, when sold, will further multiply Common stock values.

Come in and secure your stock now. This stock is not being peddled. You must come to the offices or write, wire or telephone for your reservation. Victory Bonds accepted in lieu
