It is caused by the clogging of the bowels and intestines. Keep the digestion active, the stomach right, the bowels healthy and open with Beecham's Pills

BOARD OF TRADE AND THE CITY STREETS

Board Wants Competent Engineer in Charge of Street Work--The Question of Street Signs.

At a meeting in the board of trade rooms yesterday afternoon two important resolutions were passed.

The meeting was a small one, not more than a dozen being present.

J. N. Harvey first introduced his resolution which was as follows:

"That in the opinion of this board of trade it is of the utmost importance to the present and future welfare of our city that the common council should take immediate steps towards the securing of a competent engineer to take charge of the public works department."

The large annual expenditure and the importance of the work would, we believe, warrant the payment of a salary sufficiently large to attract the best available man.

Mr. White then introduced his resolution on street signs which was as follows:

"Resolved: That in the opinion of the board of trade it is desirable that the common council should at its earliest opportunity take steps towards the securing of a competent engineer to take charge of the public works department."

The summary of the proceedings of council since the meeting having been read, the following paragraphs:

"It having come to the knowledge of the board that a party of Scottish farmers were visiting Canada during the summer, the attention of Premier Hazen was drawn to the fact that the province, and it is understood that the premier has been in correspondence with the minister of agriculture, proper and improving way of farming included in their itinerary."

"A petition has been received by the board from the Rev. Seal Cove Grand Manan, asking its assistance in impressing upon the local government the importance of reconstructing a portion of the streets of the town of Seal Cove which had been destroyed during the past winter."

"Arrangements have been made with Thomas H. Day, of Boston, to deliver one of a series of lectures on the uses of electricity, proper and improving way of wiring buildings, etc., before the merchants of the city sometime during August. The lectures will be given in these rooms in the afternoon."

FIRE AT PERTH JUNCTION

Perth Junction, N. B., July 7.—Fire which broke out at 2 o'clock this morning completely destroyed Donna's hotel and a number of stores and dwelling owned by Mrs. Mallory. It is supposed to have been of incendiary origin and tramps who were refused supper are suspected of having started the fire.

"I am glad to see you looking none the worse for your adventure," Ravenspur said. "I have managed to convince the servants that your appearance here is quite natural. One had to tell a few falsehoods, but in the circumstances it was necessary. Still, servants are suspicious creatures, and I don't want their curiosity to go too far. Already they are curious to see your mother here, and we must have her in no time, or she will get the wind of our London address."

"No, I don't," Vera replied. "I saw her last night, and she is all right. I understand that it was necessary for her to be back in London again. But I would rather not talk about that if you don't mind. You will quite understand why."

Walter murmured something in reply. Then his face brightened.

Hay's Hair Health

Never Fails to RESTORE GRAY OR FADED HAIR to its NATURAL COLOR and BEAUTY

No matter how long it has been gray or faded. Promotes a luxuriant growth of healthy hair. Stops its falling out, and positively removes dandruff. Keeps hair soft and glossy. Removes all dandruff. 2 1/2 times as much in \$1.00 as \$2.00.

IS NOT A DYE. Philadelphia, Pa., Nevada, N. J. 50c and 50c bottles, at druggists. CLINTON BROWN

MORE MONEY IS NEEDED TO COMPLETE RODNEY WHARF

Director Reports That \$6,375 is Needed for Additional Stringers and \$3,725 for Guard Piling.

At the monthly meeting of the board of works last evening it was announced that about \$10,000 would have to be expended in connection with the new Clark & Adams wharf in Carleton for additional hard pine stringers and for the protection of the piling until the government begins the new work.

The director reported on the repair work on the sewer pipes.

The chairman, Ald. Pickett, and the director were appointed to report on the drainage at Egbert street.

On motion of Ald. Baskin, it was decided to make repairs to the north side of a ferry wharf out of general revenue.

The director reported on the purchase of an additional 60,000 feet of deals at \$12.

It was decided to hand over an old cannon taken up from Water street to Mrs. Mary A. Harvey, who claimed that it had been placed there by a relative.

PLAYS AND PLAYERS

AN EXCELLENT PERFORMANCE Joseph Selman's Stock Company Present "Northern Lights" at the Opera House.

The Selman Stock Company, headed by Joseph Selman, who is well known here through his connection with W. S. Hanley's companies opened an engagement at the Opera House last night presenting the interesting melodrama "Northern Lights."

It was an excellent production in every way and the company is one of the most capable seen in St. John.

Mr. Selman introduced his resolution on street signs which was as follows:

"Resolved: That in the opinion of the board of trade it is desirable that the common council should at its earliest opportunity take steps towards the securing of a competent engineer to take charge of the public works department."

The summary of the proceedings of council since the meeting having been read, the following paragraphs:

"It having come to the knowledge of the board that a party of Scottish farmers were visiting Canada during the summer, the attention of Premier Hazen was drawn to the fact that the province, and it is understood that the premier has been in correspondence with the minister of agriculture, proper and improving way of farming included in their itinerary."

"A petition has been received by the board from the Rev. Seal Cove Grand Manan, asking its assistance in impressing upon the local government the importance of reconstructing a portion of the streets of the town of Seal Cove which had been destroyed during the past winter."

"Arrangements have been made with Thomas H. Day, of Boston, to deliver one of a series of lectures on the uses of electricity, proper and improving way of wiring buildings, etc., before the merchants of the city sometime during August. The lectures will be given in these rooms in the afternoon."

MORE GROUND FOR CAMP AT BEULAH

Beulah Camp, Brown's Falls, July 7.—Rev. G. B. McDonald, vice-president, presided at the business session of the Reformed Baptist Alliance this morning.

Rev. W. B. Wiggins is presiding at the camp meetings. At today's business meeting the editor of Highway presented a financial statement showing a balance of more than \$100 on hand.

A report was received from the committee of the ministers' association who have adopted the constitution of the Reformed Baptist Alliance this morning.

Mr. L. L. Baber was instructed to prepare the minutes of the alliance for publication and received the usual sum for his work.

The report also recommended the ordination of P. L. Gosman and that a committee be appointed to carry this into effect immediately after the alliance meetings.

The Sabbath school report showed: number of scholars reporting, 25; number of scholars enrolled, 1,839; average attendance, 916; number of teachers, 127; number of conversions in the schools, 69; amount raised for schools, \$268.22; amount raised for missions, \$182.75; total amount raised, \$751.61.

was instructed to examine the Market alleys in Carleton with a view to placing blocks for the ferry boats there.

The St. John Railway Company informed the board that their offer to pay the city \$22,000 a year for repairs and removal of snow in the streets was made on the understanding that the contract would be made by the committee.

As no detailed report as to the mileage and other matters had been submitted by the committee it was decided to take the matter up at a special meeting.

On motion of Ald. Rowan, the superintendent was instructed to place timber curbing and an ash side walk in Chesley street.

A request from the exhibition association for permission to close the end of Wentworth street during the exhibition was granted.

The director was requested to bring in a list of the complaints as to retaining walls and to refer them to the director. It is probable that repairs will require a bond issue.

Ald. Pickett called attention to the need of placing signs with the names of the thoroughfares. It would be desirable well spent, he said, and should be done before the exhibition.

The director was requested to bring in a list of the complaints as to retaining walls and to refer them to the director. It is probable that repairs will require a bond issue.

Mr. Daly is very versatile and as Lieutenant Sherwin was very popular with Dorothy Dunbar. He also was heard to advantage in songs. Harry Wilson and his company were very popular with the audience by his refined and delicate humor.

Mr. Selman introduced his resolution on street signs which was as follows:

"Resolved: That in the opinion of the board of trade it is desirable that the common council should at its earliest opportunity take steps towards the securing of a competent engineer to take charge of the public works department."

The summary of the proceedings of council since the meeting having been read, the following paragraphs:

"It having come to the knowledge of the board that a party of Scottish farmers were visiting Canada during the summer, the attention of Premier Hazen was drawn to the fact that the province, and it is understood that the premier has been in correspondence with the minister of agriculture, proper and improving way of farming included in their itinerary."

"A petition has been received by the board from the Rev. Seal Cove Grand Manan, asking its assistance in impressing upon the local government the importance of reconstructing a portion of the streets of the town of Seal Cove which had been destroyed during the past winter."

"Arrangements have been made with Thomas H. Day, of Boston, to deliver one of a series of lectures on the uses of electricity, proper and improving way of wiring buildings, etc., before the merchants of the city sometime during August. The lectures will be given in these rooms in the afternoon."

AT THE PRINCESS

Hundreds of persons enjoyed the morning picture performance at the Princess picture theatre yesterday.

The programme of dramatic and comedy pictures was highly appreciated.

Mr. Monroe Durr was heard to great advantage in the latest illustrated songs. The performance, which is one of the best in the city, is continuous afternoon and evening.

PERSONALS

H. B. Loggie, of Chatham, passed through the city yesterday en route to his home from Northfield (Mass.), where he has been attending the college Y.M.C.A. camp.

E. E. Fraser of Fraser, Fraser & Co., left last evening, accompanied by Misses Lou and Lily Fraser, to spend three months in Nova Scotia. They will visit Sydney first.

Rev. H. I. Lynde and wife, of St. George were registered at the Dufferin yesterday.

George L. Harris, of Moncton was at the Royal yesterday.

ANSWER TO YESTERDAY'S PUZZLE: Upside down, between men.

DR. GEO. R. PARKIN IS AN OPTIMIST

Believes Canada Will Have 70,000,000 in the Lifetime of Some Now Living.

A London cable gives the following summary of Geo. R. Parkin's recent address at Oxford, at a meeting in support of the Wolfe-Montcalm memorial.

The period of 1759 was perhaps the most glorious in British history, said Dr. Parkin, what Wolfe was doing in Canada, Clive was doing in India—laying far and wide the foundations of our world-wide Empire. In India Duplax, in Canada Montcalm, representing the French race, were both of them men of finely tempered steel, worthy of the great race from which they sprang and worthy of the great opponents against whom they were matched.

These men, great in military skill and in governing powers as they were, had not behind them the firm support of a free people directed by a supreme patriotism as was the case in England. They failed, but failed nobly and gloriously, winning in failure the admiration of all posterity.

Canada, he thought, would have 70,000,000 people in the lifetime of men now living. By dramatic stages the task of developing civil liberty for its two people had gone on and Dominion Day, July 1st, 1857, would yet be recognized as one of the great turning points in the history of the Empire.

Confederations had been followed by another in Australia, and New Zealand and Outh Africa was feeling its way.

Dr. Parkin recalled the fact that seven years later, in 1874, he had first come to Oxford, a very crude youth.

The other day the University Magazine stated that the term Imperial Federation was first used in a Union debate in 1874, in which the Vice-Chancellor and he both took part.

Whether this was true he knew not, but he knew that the idea had since grown from a small blemish into a mighty tree, and that great statesmen were willing to sacrifice their whole career on its fulfillment.

Only statesmanship which took an Imperial view could now give to a man a supreme career in the public life of his country. They must strive to keep Empire politics from being the football of party in this country.

In asking them to join in this great common oration of a country's birth and of its common hopes he felt he was asking them to help in maintaining and conserving the noblest ideals of the Empire. (Applause.)

School of Mining

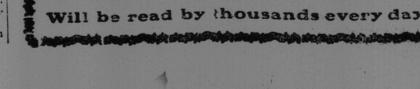

A COLLEGE OF APPLIED SCIENCE, Affiliated to Queen's University, KINGSTON, ONT.

The following Courses are offered: I—Four Years' Course for Degree of B.Sc. II—Three Years' Course for Diploma.

III—Mining Engineering. IV—Chemistry and Mineralogy. V—Mechanical Engineering. VI—Civil Engineering. VII—Electrical Engineering. VIII—Geology and Public Health. IX—Power Development.
