McGraw Becomes Partner In Club

By continuing his relations with the club McGraw now insures his record of a longer period of continuous service as manager of a big league baseball club than any man in the game. He came to the New York club in 1902 in midseason. He has therefore been manager of the Giants for fourteen seasons and part of a fifteenth. His contracts, therefore, cover a period of twenty

pennant that they did not get-in 1908 -and last season broke the record for a run of victories in the major leagues. Giants Rejoice by Blanking Texans San Antonio fans, at least. are satisWILLIAM FARNUM

In all these years the Giants have finished only once in the second division.

That was in 1914, when they were fifth.

They have won four pennants and one world's championship, captured another pennant that they did not get in 1908.
