A BOOM FOR AIRCRAFT.

(Bangor Commercial.)
The war is a very considerable boon to manufacturers of airplanes in the United States. The aeroplane industry has not come up to the expectations of a few years ago when it was believed that voyaging through the air would soon become as popular as automobile driving for the danger has prevented, but the makers of aircrafts now appear to have come into their own. Since the commencement of the war contracts to the extent of \$7,000,000 are said to have been placed with American manufacturers, the latest order being for twenty aircraft of the type of the America that was to have voyaged across the Atlantic or to have attempted, such a voyage had not the war intervened. These will be supplied to the British government at an expense of \$25,000 each.

SUMMARY OF GERMANY'S NOTE TO WASHINGTON

Berlin, July 9, 9 p.m., via London, July 10, 1:08 a.m.—Germany's offer embodied in the reply to the American note regarding the sinking of the Lusitania and submarine warfare, which was delivered to James W. Gerard, the American ambassador, last night, is: First, reiterated assurance that American ships engaged in legitimate trade will not be interfered with, nor the lives of Americans upon neutral ships be endangered. Second, that German submarines will be instructed to allow American passenger ships to pass freely and safely, Germany entertaining, in return, the confident hope that the American government will see that these ships do not carry contraband. Such ships are to be provided with distinguishing marks, and their arrival announced a reasonable time in advance. The same privilege is extended to a reasonable number of neutral passenger ships under the American flag, and should the number of ships thus available for passenger service prove inadequate, Germany is willing to permit America to place four hostile passenger steamers under the American flag to ply between North America and Europe, under the same conditions.
