Ice Cream Is Food

"Every time that you eat a dish of good, wholesome Ice Cream, you are adding a rich supply to the materials with which the body is fed and repaired."

"For Ice Cream is made almost wholly of rich, pure cream and milk and therefore contains the very things that help us to grow and to build up our bodies so that they are strong and active and capable of resisting disease. Ice Cream also is excellent as a food because it can be used in place of the many greasy, heavy meats and other things that are so difficult for us to digest, and for this same reason, doctors frequently prescribe it as a food for invalids and convalescents."

"Once upon a time, Mother on special occasions gave you a nice dish of Ice Cream as a treat, but now she knows its true food value and serves it more frequently because it is good for the mental and bodily health and strength of her little ones, and grown-ups, too."

Therefore, eat PURITY ICE CREAM.

evening McNulty's team won from McDonald's.

FOOTBALL
Tie Game.

At Truro yesterday Dalhousie University, the champions of the Eastern Intercollegiate league met Acadia, the champions of the Western league and in an hour and forty minutes of play both sides failed to score.

Acadia's line twice but the referee, Lou Buckley, declared both plays offside. It is probable that a play-off will be arranged.

In The U. S.

New York, Nov. 17.—Neither the army nor the navy football team will play again until they meet at the stadium here on November 27. This was decided yesterday when West Point because of "unforeseen circumstances" cancelled its contest on next Saturday against Colby. George Washington University already had cancelled its game with Annapolis.

BASEBALL

Giants Get Rapp.

New York, N. Y., Nov. 17.—The New York National League Club yesterday announced the purchase of Joe Rapp, third baseman of the St. Paul American Association club.

BILLIARDS.

A Return Match.

The great showing made by Ralph Greenleaf in the final block of his three-cushion match with Alfredo De Oro has caused talk in New York of a return match between the youth and the veteran.

Greenleaf scored 106 points against 100 by De Oro on the last day of their match, in which he was beaten 3 to 2, and his admirers argue that he had just found his stroke by that time. Should he go the same speed through out a match as he did on the last day, there is no question about his having a chance to defeat any player in the world in this game. De Oro will not be back from the championship tournament, however, until December, and those who want to see him play the youngster again will have to wait at least until then.

CHESS

Thinks Highly of "Boy Wonder."

New York Times.—Jose R. Capablanca, now chess champion of the world by virtue of the resignation of Dr. Emanuel Lasker and in accordance with the conditions of their first contract, but with whom nevertheless he will play a match on the title in Havana, is back from England. Capablanca was interviewed as to what he thinks of Samuel Reschewski, a boy wonder, who made so sensational debut at West Point on Wednesday. In the champion's opinion, the little fellow is in a class a shade below that of the international masters. He thinks that there are probably not more than six players in this country who could defeat the child in a serious match.

CARPENTIER RICHER BY MILLION FRANCS

Returns to Paris Also With Increased Respect for Dempsey's Fighting Ability.

Paris, Nov. 17.—Georges Carpentier, the heavyweight champion of Europe, returned from America richer by 1,000,000 francs and with a great respect for the fighting ability of Jack Dempsey, world's "fiftieth."

Carpentier, who was never boastful, even before leaving France, when he had yet seen Dempsey, said on his return that Dempsey was considered in America to be a "superfighter," but that he would meet him with as much confidence as he did the British fighters, Wells and Beckett, whom he knocked out.

"The newspapers," said Carpentier, "reported Dempsey as saying he would lead me to the slaughter like an ox. I don't believe it. I have met Dempsey, who is really a very amiable gentleman. I even had one match with him which I won—but that was at golf. Dempsey's kind thought in sending me a wireless message when off Nantucket wishing us Godspeed, was very gentlemanly."

The boastful remark attributed to Carpentier's manager, Descamps, at the Jersey City hall park to the effect that Carpentier would beat the champion in two rounds, has now been modified to such expressions as: "The difference in weight of fourteen pounds will be a great handicap," and "the man who lands the first blow will win."

Descamps appeared proud of the concession he succeeded in obtaining from the promoters—the privilege of making Carpentier's forfeit deposit in scrip of the new French loan, which will be placed in J. P. Morgan & Co's bank this week bearing 6 per cent. interest.

Carpentier showed only a trace of bitterness when he referred to the outcry of "fake" raised concerning his bout with Levinisky and the hissing and jeers.

to which he was subjected while acting as second to Charles Ledoux, the French bantamweight, in the latter's bout in Madison Square Garden, New York.

He seemed greatly amused at Descamps' reference to the ringside "sports" in evening clothes and bedecked with mounds in Jersey City, who kept exhorting Levinisky to "kill the frog."

MARC KLAW PLANS TWO NEW THEATRES

A Property Deal in New York Which Involves \$2,225,000.

Marc Klaw, president of Marc Klaw, Incorporated, theatrical producers, of New York, has signed contracts for the purchase of the Astor estate through the Farmers Loan and Trust Company, or a plot of land 225 by 100 feet on the south side of West 207th street, between Broadway and 22d Avenue, and will erect on it two new theatres and an office building. The purchase was said to involve the largest plot of land recently sold in the Lower Square district.

The construction of the two new theatres, in addition to a theatre now under construction for Mr. Klaw in West 40th street, will give the latter four new legitimate theatres. Approximately \$2,225,000 was said to be involved in the purchase of the land and buildings now on it and in the construction contracts for the new buildings, or which plans have already been drawn by Eugene de Rosa.

The plot is now occupied by thirteen brownstone business buildings, numbered from 226 to 238, which are situated on a street which runs east and west, pushing firms. It is expected that the proposed office building, which will be located in the plot under the theatre, will be largely by the music publishing trades.

Two theatres, which will cost \$2,225,000 each, will be built together and will present an continuous front, over which there will be a roof garden seating 1,400. A large hall, seating 1,400, will run the length of the plot under the building.

The front of the combined theatre building will be constructed of limestone with a classical facade and a classic colonnade of twenty columns. The roof garden will be set back from the front of the building and a pronounced balcony, extending across the entire front, will be used for garden effects. The interior of one of the theatres will have furnishing of the Louis XV style, and the interior of the other will be treated in the Colonial style.

Mr. Klaw, owner of the New Amsterdam and Liberty Theatres and has interests in theatres in several other cities. Upon his return from Europe late this summer, he announced the formation of Marc Klaw, Inc., in association with his two sons, Alonzo and Joseph Klaw. "French Le Theatre and "Sonja" at the Princess Theatre in Chicago, are his productions.

THIN PEOPLE SHOULD TAKE PHOSPHATE

Agrees That Plain Bitro-Phosphate Helps to Build Strong Nerves and Put on Firm Healthy Flesh.

Feed your nerves plenty of phosphate with Bitro-Phosphate. It gives the blood and bone cells the power to return to old-time vigor with a power of endurance that will surprise you.

So say the prominent New York physicians. Thinness, weakness and lack of ambition are in most cases due to underfed nerves, and this is so since the body is made up of phosphoric elements.

Over 40 per cent of the people of America are thin. Many thin people can take on more pounds of firm, vigorous flesh if they feed the nerves direct with Bitro-Phosphate, a plain ordinary organic phosphate that druggists know all about.

Tens of thousands of run-down, delicate frail underweight people have learned the way to better health through Bitro-Phosphate. It was just the one element lacking to put on much desired flesh and bring them health, happiness, and a mind free from dullness.

LOCAL NEWS

Several boys from Moncton were sent to the Industrial School at East St. John yesterday. An effort is being made by Mayor Schofield and the other members of the school board to provide a partial technical training at least for the boys at the school, so that they will know something of a trade when they leave and are obliged to earn their own living.

At the third session of the inter-church teacher training institute held last night in the church of England, Institute, under the auspices of the St. John County Sunday School Association, Hon. Dr. W. F. Roberts, minister of health, spoke on religious education. The subject of Sunday school topics was dealt with by Rev. H. B. Clark, Rev. A. S. Bishop, who was chairman of the evening, and Venerable Archdeacon H. Crawford. Three interesting papers

were read by Mrs. James McTavish, Mrs. R. A. Jamieson and Mrs. Maxwell.

The Harmony Club, an organization of young men interested in athletics and music in the north end of the city, held a social and smoker in their club rooms in Victoria street last night with about twenty-five members in attendance.

Among the numbers on the programme were solos by Cyril Moore and Paul Moore and a recitation by Harold Le-Clair. Refreshments were served during the latter part of the evening.

The Women's Auxiliary of Trinity church observed Tuesday and a meeting of the branch was held yesterday afternoon at which members of each brought a pound of groceries or a donation of canned goods which is packed in a bale and sent to the Shingauk Indian Home in Algoma. Mrs. L. R. Harrison presided. Found day is an annual event and as a result many needy persons in other lands are helped by the generous donations.

ASSAIL MOVEMENT TO TEACH RELIGION

Schools Would Be Hurt, Say Opponents—Friends of Plan Will Be Heard.

(New York Evening Post.)

Objections that closing the schools for outside religious instruction one hour a week would interfere with the religious independence of children, open the way to religious propaganda in the schools, encourage dangerously close relations between church and state, increase truancy and deaths of children in automobile accidents, were urged last night at a hearing before a special committee of the school board consisting of Commissioners George J. Ryan, Arthur S. Somers and Samuel Stern. School authorities, pastors and leaders of several denominations and representatives of the Freeholders' Society spoke against the proposal, which originated with the Interdenominational Committee for Weekly Religious Instruction, of which the Rt. Rev. Charles Sumner Burch, Episcopal Bishop of New York is chairman.

The proposition is to dismiss all public school pupils at two o'clock each Wednesday afternoon for religious instruction in the church or synagogue. Attendance at the religious classes, however, is optional.

Resolutions condemning the plan were presented by S. M. Silber, a member of the Local School Board No. 14, representing a general meeting of Manhattan school members, and by Mrs. William C. Wilson, president of the Mothers' Club of Manhattan.

Might Make Trouble.

Miss Sarah H. Conant, principal of Public School 21, Manhattan, aroused mild excitement by her declaration that even without such a measure in force, teachers of school where a particular faith was predominant were likely to make it unpleasant for those of other faiths who happened to be assigned there. Such cases, she declared, should be brought to the attention of the superintendent.

The Rev. William M. Tess of Trinity Congregational Church, Bronx, asserted that the proposal did not represent the wishes of the Congregational churches of the city, nor of many of the Baptists. "I urge you to wash your hands of it," said Mr. Silber. "Let the church take care of its own duty and let the school make good, many American citizens."

Friends of the measure will have an opportunity to speak for it at two subsequent hearings. Among its advocates are Rabbi Joseph Silverman of Temple Emanu-El, and W. Bourke Cockran.

DELMA'S FRENCH HAIR TONIC

The greatest invention of the age, now sold in Canada, grows hair, brings back to life and color, makes hair beautiful. Price in Canada, \$1.00. Sold by one druggist in every town. Sold by Benson Mahoney, corner Union and Dock streets, St. John.

QUOTED HON. DR. ROBERTS.

At a recent meeting of the Vancouver Local Council of Women, Mrs. Ralph Smith, M. L. A., who attended the annual meeting of the National Council of Women, held in St. John, read a report on "The Reconstruction of the Adoles-

cent Period of Our Canadian Girl," as given by the Hon. Dr. Roberts, minister of public health for the province of New Brunswick, at that meeting. The educational career of the child, as outlined, would be divided into three stages: First, Smith said she hoped that a uniform law the primary or fundamental, from six to thirteen years inclusive; second, inter-

mediary or physical, from fourteen to fifteen years; third, the final or obligatory period, sixteen and onwards, as far as necessary for those who wish to pursue a life calling. In closing, Mrs. Smith said she hoped that a uniform law would be adopted throughout Canada to protect the health of children.
