ALLIES ADVANCE FROM ARCHANGEL

Trotsky, Enraged, Threatens Death To Many

White Guards Rally to Aid of Allied Units Pursuing Bolshevik Forces—Appeal to British Labor by Russian Social Revolutionists

London, Aug. 7.—Announcement of the landing of Allied troops at Archangel and of further successes for the Czechoslovakians made in a Russian government wireless message received here. Describing the situation in the north and east, it says:

"At Archangel, British and French have landed. They are advancing along the railway. Our staff is at Olenegorsk, 100 miles south of Archangel.

"On the Czechoslovak front, after the fall of Samara and Ufa, the Czechs have captured Novo Nikolavsk, Ekaterinburg and Simbirsk. On the Don we have retreated to Rostov. We are sending reinforcements toward Kazan and Simbirsk. Today the Czechoslovakians shelled Kazan."

Trotsky Enraged.

Amsterdam, Aug. 7.—Leon Trotsky, Bolshevik war minister, says a Moscow despatch by way of Berlin, has issued a proclamation denouncing as traitors punishable with death all representatives of the Soviet power who desert their posts before having done everything possible for defence. He alludes to the Allied occupation of Archangel and the flight of the local Soviet. Trotsky orders immediate arrest of those members of the Archangel Soviet who can be regarded as deserters and will put them on trial before a revolutionary tribunal at Archangel.

Kandalaska, Monday, Aug. 5.—(By the Associated Press)—Volunteer detachments of White Guards are giving aid to the Allied units pursuing the Bolshevik forces retreating southward from Archangel.

The new Archangel government has arrested most of the Bolshevik leaders who had not fled. The Bolshevik commander of the Volga, Zankovsk, was killed, otherwise the change in government was virtually bloodless.

Before the Allied troops landed at Archangel the local Bolsheviks issued a proclamation to the troops urging violence toward Allied cities.

Paris, Aug. 7.—(Havas Agency)—M. I. Terestchenko, minister of foreign affairs, in the cabinet of Premier Kerensky, has been assassinated at Pola, according to announcement made by the Hamburg Fremdenblatt.

Appeal to British Labor.

London, Aug. 6.—The Russian Social revolutionary party, which is opposing the Bolshevik government, has sent a direct appeal to the British Labor party, urging efforts to convene an international Socialist conference. The appeal declares that the Russian revolutionary party is ready to work in union with the European Socialists to re-establish the national power of Russia and to abrogate the "shameful Brest-Litovsk treaty."

London, Aug. 6.—The most sanguinary fighting in the civil turmoil in Russia was for the possession of the town of Jussor on the Volga, and it terminated in favor of the Bolsheviks, according to quotations from Moscow newspapers.

Colonel Pidgeon Resigns.

Ottawa, Aug. 6.—Lieutenant-Colonel D. F. Pidgeon, president of the Ottawa branch of the Great War Veterans' Association, tonight resigned from that position, refusing at a largely attended meeting of members of the branch to remain in office.

"I must put the cause of my country before that of the Great War Veterans' Association," stated Colonel Pidgeon, who is head of the branch in Bangor, a contractor, was seriously injured and the others were badly shaken up. Tremblay, who was instantly killed, leaves a wife and one child.

Killed By Motor Truck.

Quebec, Aug. 6.—George Tremblay, 77 Boulevard Langelier, was killed this evening at Levis, being crushed by a heavy motor truck. The brakes of the truck failed to operate on Cote Du Passage and the occupants of the truck jumped. The owner of the motor, Jules Muller, a contractor, was seriously injured and the others were badly shaken up. Tremblay, who was instantly killed, leaves a wife and one child.

Give British Credit for Victory.

Paris, Aug. 6.—(General P. despatch from Reuters' Limited)—General Mangin, in an inspiring order of the day, warmly eulogized the work of the English and Scottish troops in the Marne battle and especially the storming of the Ourcq-Aisne watershed.

He says the British arrived when the battle was fiercest, but in conjunction with the French, fought a superior number of the enemy's best divisions, foot by foot, notwithstanding the counter-attacks. General Mangin declares the British were responsible in large measure for the victory gained.

MISS HAMILTON SPEAKS ON BURNS AT CHAUTAUQUA

Miss Meddie O. Hamilton, the super-intendent of Chautauqua in her very interesting lecture on "Burns, the people's poet," yesterday spoke of Burns' universality. She vindicated the character of Burns in the light of the age in which he lived and said that the great love for Jean Armour and Highland Mary was not to be put down as insincere. She went on to show that Burns was one of the leaders of the modern ideals of world democracy and with numerous quotations from his works bore out the truth of her statements. Her address was very well received.

Miss Hamilton had evidently chosen a subject which was a particularly interesting one to her listeners, and they listened to her address with evident pleasure.

With Fingers! Corns Lift Off

Doesn't hurt a bit to lift any corn or callus right off. Try it!

For a few cents you can get a small bottle of the magic drug freeze recently discovered by a Cincinnati man.

Just ask at any drug store for a small bottle of freeze. Apply a few drops upon a tender, aching corn or callus and instantly all soreness disappears and shortly you will find the corn or callus so tender that you lift it off with the fingers.

Just think! Not one bit of pain before applying freeze or afterwards. It doesn't even irritate the surrounding skin.

Hard corns, soft corns or corns between the toes, also hardened calluses on bottom of feet, shroud up and fall off without hurting a particle. It is almost magical.

Ladies! Keep a tiny bottle on the dresser and never let a corn or callus ache twice.

RECENT WEDDINGS

Budovich-Acker.

Miss Freda Acker, daughter of Mr. and Mrs. Acker of St. Stephen, and Bernard Budovich of Fredericton were united in marriage on Monday evening in St. Stephen by Rev. Joseph Levine, assisted by Rev. B. L. Amour, both of this city. Three hundred guests from St. John, Fredericton and other parts of the province were in attendance.

OPENING FRENCH HOMES TO ALLIED SOLDIERS

Paris, Aug. 6.—(Havas Agency)—French homes may be opened to soldiers from the Dominions and United States and the French colonies under plans which are now being studied. Civilian and military authorities have the matter in hand, and it is believed that "French Allied Clubs" will be formed so that people unable to open their own homes may meet the Allied soldiers on a social footing.

CITY COUNCIL DOINGS

To put through the license reduction will require some tall hustling. Meanwhile the council will be troubled. The cure is "Putnam's," the old reliable corn extractor that has been curing corns and warts for years. "Putnam's" never fails, 25c. at all dealers.

RED LIGHT WOMEN LEAVE

(Bangor Commercial).

Following the announcement by Chief of Police Gilman that disorderly women would get jail sentences if brought into court, twenty of them left town on Sunday for distant places. The government is directly interested in protecting the health of its present and future soldiers by eradicating as far as possible the social evil and this is move in that direction. Those who remain in Bangor will be prosecuted by the authorities, who have been urged to take drastic steps to purge the community of undesirable women.

TAKING OF EVIDENCE IN CURRIE ENQUIRY HAS BEEN COMPLETED

At a session in Campbellton yesterday afternoon, evidence in the matter of charges against Hon. William Currie was concluded.

When the court resumed in the afternoon, Currie, of Belledune, took the stand and was examined by Mr. Copp. He said he was a lumber scaler working for J. & A. Culligan. He scaled the lumber in the district covered by Joseph Hachey, government scaler. He did not have anything to do with the lumber Murdie scaled. He kept no records of his work. He could not say if the government scaler Murdie ever went to the woods as he did not know him. He thought in 1916-17 he scaled about three million feet cut by Culligans, but there might have been some cut after the lumber witness refused to give any estimate of the number of logs per thousand, cut by Culligans, last year, saying they might run from fifteen to fifty. Neither could he tell how much the Belledune mill at which he worked cut per day, but finally decided it was 25,000 feet, and he said he saw how the mill ran each year, possibly three months. He was shipped at the mill but could not say how much lumber was shipped somewhere between one and three millions.

Witness knew Hachey, the government scaler, but never had compared figures with him and could not say how they compared.

To Mr. Copp again witness said he did not know who the government scaler on the Benjamin River district was.

Charles Purves was recalled by Mr. LeBlanc and gave evidence that he had prepared a statement of the total amount of lumber shipped by the Continental Company in the spring of 1917 from logs cut on crown lands.

In a disbursement of the logs, Mr. LeBlanc said that Colonel Loggie had said that what the department wanted to charge stumpage on was the actual amount of lumber shipped by the company by the saw mills. Mr. Baxter denied this interpretation.

Witness gave figures as follows for the Continental Company cut in 1916-17: total cut, 5,610,491 feet, side boards 819,738 feet; the boards deducted leaving 5,290,753 feet. He was not asked for the total of logs, leaving 4,454,238 feet of merchantable lumber. The statement was put in evidence.

To Mr. Baxter witness said that the total number of pieces shown were taken from his record book without deduction or discount. There were 5,769 logs said to be accounted for and witness said he supposed they were held up along the banks.

Mr. Baxter then said that their contents, about 5,650 logs, should be added. He agreed that eight and nine-inch logs would show their scaled contents and also yield the side boards.
