THE EVENING TIMES AND STAR, ST. JOHN, N. B., MONDAY, JUNE 9, 1913

GREEKS ARE SHUT OUT BY BANGOR

N. B. and Maine League Standing

Team	W	L	P.C.
Fredericton	6	3	.667
St. John	7	4	.637
St. Croix	5	3	.625
Bangor	1	9	.100

The Bangor Maroons broke the Saturday afternoon and after having lost nine straight games, shut out the Maroons 3 to 0. A shake-up in the Maine boys line up worked wonders and they gave little support to their young pitcher, McPhee.

The game, although almost errorless, was slow, and Shankey was unable to handle effectively the moist sphere, being touched for six safe ones and having two wild pitches. The Greeks worked hard but their handling of the ball is not yet first class and they will have to work a little more ginger into their playing to keep up the winning form which they showed last week.

Shankey went bad in the fourth and Bangor scored their first run on two bases on balls, several wild bases and singles by LaBreck and Tewey. In the fifth Talcott singled, McPhee and Lamorey sacrificed and Talcott scored on Mayo's hit. The third and last was Talcott's hit. With two out Mayo hit and scored on Hammond's single to left.

The Greeks had six hits but they were scattered. Riley had two nice ones and the others were made by Black, Watt, Rien and Shankey. The scores:

Notes of the Game
Our heroes got it on Saturday from the tail-enders, and a shut out at that. They have a chance to get back at them today.

Fredericton returns to the head of the class and we drop gently into second place. But watch us grow. Lamorey and Mayo, with the Woodcock Colts in 1911 and 1912, have come back. They made their bow with the Maroons on Saturday and both did good work.

"Rip" McPhee also made his debut on Saturday and was very effective. Manager Ganley has let go two of his best, Lavasseur and Gerard in order to bring his team within the limits necessary under the rules. Lavasseur has uncles with one of the other teams in N. B. and Maine League or he may be with the Glace Bay Club in the Cape Breton League. Gerard expects to get together in the Twin State League.

The Maroons have lines on Wear, a teacher and outfielder, who has been hit Portsmouth, and he has been wired report.

Had Pimples on Face
And Back Was Literally Covered With Them.
Bad blood is the direct cause of pimples breaking out on the face and body, and it is impossible to get rid of them unless you cleanse the blood of all its impurities.
Burdock Blood Bitters is without a doubt, the very best medicine for this purpose.
This old and reliable remedy has been used for over thirty-five years, and has a reputation unequalled by any other for purifying the blood.
Mr. Peter La Pierre, Assistant Postmaster, Touchwood Hills, Sask., writes: "The fall before last, I was very much troubled with pimples on my face and back. My back was literally covered with them, and I could not lie on it at night, they were so painful. One day my sister advised me to use Burdock Blood Bitters, so I got two bottles, and before I had taken all the first one, the pimples had nearly disappeared, and now I am completely cured."

MORE NEW BLOOD FOR BANGOR TEAM; REED FROM COLBY

Reed, the captain of the Colby varsity team this year, is slated for the Bangor team, according to a statement made on Friday. Reed plays first base, and is a clever player and a heavy hitter. He will be a strong acquisition to the Bangor team when he arrives here.

LaBreck, Bangor's catcher, has been released following Sarette, whom Mr. Magoon released on Thursday night, N. C. Mayo an Athol, Mass. man, who is going to catch for the team arrived here with the squad for St. John. Lamorey who has been signed also came Friday. He came from Manchester, N.H., and is both a good outfielder and infielder, and as a former Bates college player is well known. McPhee of Eastport, who has been a good pitcher and a good hitter.

The manager is out after a number of other men who look good and it is possible that Bangor's present team will undergo a complete change in the next two weeks.

"I am going to have a good nine if I have to go to Boston and bring down a hill a few days ago. The society is the most powerful institution of its kind in the world. It has contracts with every French manager, and the one single manager who, a few years ago, tried to go without the society, had to surrender after a six months' fight. He was boycotted by the society. No member was allowed by the letters and posts of expulsion, to sell him a play; and as every playwright whose plays are worth having belongs to the society, he was reduced to writing his plays himself, and they were bad.

This body enjoys an absolute monopoly, and collects the royalties from every theatre in France, even when the play is not the work of a member, or by Moliere or Shakespeare. The statutes of the society contain one famous paragraph, Article 17, which forbids the lesser manager of a theatre to bring out his own plays on his own stage. Thus Moliere could not have belonged to the society. But M. Henry Bernin has taken over a theatre of his own, at which he naturally wants to bring out new plays. Henceforth a manager of a theatre will be allowed to bring out his own play on his own stage, but only on the following conditions:

First, he must pay an extra 1 per cent. of the gross receipts to the funds of the society; secondly, he must never bring out more than one play by himself in collaboration; he must give the name of his collaborator to the society before making any arrangements whatever for the production of the piece; fourthly, these stipulations apply also to a manager willing to bring out a play a relative or connection of his, which he was forbidden to do under any conditions by the former Article 17. Each false statement made to the society will entail the penalty of a fine of not less than \$2,400. The French Society of Dramatic Authors is, in its way, the most drastic authority in the world, but the authors need not complain, for it gives them a business status such as playwrights in no other country possess.

THE RING
Jack Johnston
Montreal Gazette, editorial:—Jack Johnston, the pugilist, has been sentenced to a year in the penitentiary by a Chicago court, for violation of the laws against white slavery. He probably deserves the imprisonment which, however, he may not undergo. He had a fair trial, so far as a trial of a black man in such a case can be fair, and he was found guilty. The end is not out of keeping with his career. He was spoiled by good fortune in a bad occupation, and white men, and even white women batterers, were eager to follow in his process.

Knock-out in Maine
Fighting Longley, and Kid Dennis met on Friday evening at Waterville in what was to have been two six-round bouts at the Beaver Athletic club. After two minutes of fighting Dennis knocked out Longley. It was all Dennis from the tap of the gong. In the semi-final, Young Dennis of Winslow, knocked out the victor in the main bout, knocked out Young Derocher in the second round by a right Englishman.

KENNEL
Has White Cocker Spaniel
Wells, Ont. June 7—If an offer of \$1,000 for a white cocker spaniel or collie dog, which was made in a year ago by Lady Somerset of England, is still good, S. M. Clemo, a local farmer, thinks he has the dog which can claim the young fortune.
So far as is known the offer has never been taken up, as this color of cocker spaniel is as scarce as a white black bird. Mr. Clemo is therefore going to open up correspondence with Her Ladyship with a view to establishing her wish and the humble Wells dog may yet find its way to the celebrated white farm owned by the titled Englishwoman.
In a litter of four cocker spaniels owned by Mr. Clemo three are black as the raven's wing and the fourth is pure

time that the better classes should stir themselves and provide a remedy. The building of workmen's dwellings does not meet the case. Such dwellings are really occupied as soon as built by workmen who can afford to pay for a fair amount of comfort. The people, on the other hand, who are evicted, especially when they have large families, have got into trouble because they are totally destitute. There can be no question of erecting large and comparatively comfortable dwellings for them. What, then, is to be done?

Senator Berger suggests that they should be treated simply in the way that the temporary housing of soldiers is treated by the military authorities. Temporary or permanent barracks should be constructed, where these destitute people could find a shelter. The city of Paris would no doubt soon find many empty plots of ground which it could lease for a nominal rent. With the buildings there could large playgrounds for the children and, finally, this sort of workmen's barracks should be supplemented by suitable trade schools, in which the children, when they reach a certain age, should be taught a trade and fitted for life.

Autocratic Playwrights Society
If Moliere were a living playwright, he would not have the society to join the French Society of Dramatic Authors and a hill a few days ago. The society is the most powerful institution of its kind in the world. It has contracts with every French manager, and the one single manager who, a few years ago, tried to go without the society, had to surrender after a six months' fight.
