THE ALDINE, THE ART JOURNAL OF AMERICA,

ISSUED MONTHLY.

"A MAGNIFICENT CONCEPTION, WONDER-FULLY CARRIED OUT."

'The necessity of a popular medium for the representation of the productions of our great artists, has always been recognized, and many attempts have been made to meet the want. The successive failures which so invariably followed each attempt in this country to establish an art journal, did not prove the indiffer lish an art journal, did not prove the indiffer of Fundy Company are now in full operation ence of the people of America to the claims of and the Company are prepared to fill orders with high art. So soon as a proper appreciation despatch. Further particulars and price list on of the want and an ability to meet it were application to the Secretary at St. George, N. B. of the want and an ability to meet it were shown, the public at once rallied with enthu sisem to its support, and the result was a great

ar istic and commercial triumph - THE ALDINE.
THE ALDINE, while issued with all the regularity, has none of the temporary or timely interest characteristic of ordinary periodicals. It is an elegant mi-cellany of pure, light, and graculul literature; and a collection of picture gracultificrature; and a collection of pictures, the rarest specimen of artistic skill, in book and white Although each succeeding num by affords a fresh pleasure to its friends, the real value and beauty of THE ALDINE will be most appreciated after it is bound up at the end of the year. While other publications may claim superior cheapness, as compared with rivals of a similar class THE ALDINE is a unique and original conception—alone and un approached—ab-olutely without competition in price or character. The possessor of a complete volume can not duplicate the quantity of tine paper and engravings in any other shape or number of volumes for ten times its cost; and then, there is the chromo, besides!

The national feature of THE ALDINE Dust be taken into carrow sense. True art is cosmopolitan. While THE ALDINE is a strictly American institution, it does not confine it-elf entirely to the reproduction of native art. Itmission is to cultivate a broad and appreciative art taste, one that will discriminate only on leading characteristic, the productions of the most noted American artists, a tention will always be given to specimens; from foreign

The artistic illustration of American scen ery, original with THE ALDINE, is an import ant feature, and its magnificent plates are of a size more appropriate to the satisfactory treatment of details than can be afforded by any inferior page. The judicious inter-persubjects, sustain an unabated interest, impos sible where the scope of the work coofines the artist too closely to a single style of subject The literature of THE ALDINE is a light and graceful accompaniment, worthy of the artistic features, with only such technical disquisitions as do not interfere with the popular interest of

the work.

The question is almost daily asked, "What is the cause of the unparalleled success of Vinegan Bitters?" Our answer is, that they willowed the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the would have a medicine been compounded possessing the remarkable qualities of Vinegar Bitters in healing the sick of every disease man. is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Infianmation of the Liver and Visceral Organs, in Bilious Diseases.

If men will enjoy good health, let them use Vinegar Bitters and a medicine, and avoid the use of alcoholic stimulants in every form.

Bilions, Remittent, and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Temessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabamas, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughent our entire country during the Summer and Antumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to Dr. J. Walkers's Vinegal Betterms, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs. For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys, and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels.
