World Briefs

Austrian police must be able to swim and know how to manage a rowboat. German politicians admitted that the execution of Captain Fryatt was a mistake. British casualties in the month of July, in all the war areas, totalled 7,084 officers and 82,301 men. Russia is estimated to have more than 4,000,000 acres of land that would produce cotton if irrigated. More than 10,000 miles of roads have been built in Afghanistan since the ruler of that country became the owner of an automobile. The latest war names to be recorded at a double christening in London, are 'Rosa Dardanelle' and 'Lille Louvain'. New Mexico broke all records for metal production last year, the output of its mines being officially estimated at \$18,277,000 in value. German officers, now prisoners in France, say the capture of Verdun is no advantage now; it is three months too late to be of any advantage. It will cost Australia about \$35,000,000 to open the Murray River to navigation, and to construct an irrigation system that will develop 1,500,000 acres of land. Lloyd's shipping register shows that there were 440 merchant vessels, of a tonnage of 1,500,000 gross, under construction in the United Kingdom at the end of June. The distribution of 1,000 oxen to 2,000 Armenian families in 40 villages in the Russian Caucasus, is announced by the American committee for Armenian and Syrian relief. Because it is difficult for a man aiming a searchlight to see the object at which it is pointed, a French naval officer has invented an electrical aiming device to be operated from a distance. A Yorkshire farmer, employing eight ladies on his holding of 600 acres, informed a correspondent that they will only work when the weather is fine. The northwest part of German East Africa is now completely in the possession of the Belgians, who are closely pursuing the German forces, according to an official statement issued by the Belgian War Office. Flirting is getting an expensive amusement in New York, when the girl doesn't know the man. In such a case a sentence of thirty days, without the option of a fine, was recently imposed by a magistrate in the Bronx. A London law court has had before it for 42 days a lawsuit between two gold mining companies in Rhodesia. One of the counsel in the case spoke for twenty three days, and then collapsed. He had been kept going by drugs for a fortnight.

Labrador News By the Sagona

The S. S. Sagona, Capt. Parsons, arrived at St. John's, from Labrador, on Saturday afternoon last, having been as far north as Nain. The weather conditions during the trip were favorable, and about 130 ports of call were made going and returning. While coming south the Sagona met the patrol ship Fogota, and took on board the carpenter of the latter, a man named Solomon Brown, of St. John's, who was suffering from internal trouble. He succumbed to the disease before reaching Harbor Grace, at which place the body was confined and thence conveyed to St. John's for burial. A drowning accident was also reported from Bateau. An elderly fisherman, while sculling his boat, having lost his footing and fallen overboard. His name and other particulars were not learned. Owing to the presence of heavy ice, which stretches for miles along the coast, the fishery south of Nain shows no improvement, but the floaters who went north, some below Cape Chidley, were doing well. The following report was received by Capt. Parsons from Sergeant Dwyer, who is doing special police duty on that part of the coast: On Aug. 7th there were three schooners belonging to Little Bay Islands at Turnavie. There was plenty of fish on the bottom, but not much doing. At Long Tickle there were three schooners from Herring Neck getting all the fish they could handle, one having 350 qts. on board. A Green Cove, plenty fish about but not much doing with traps. At Three Mountains the schooner Susie of Little Bay Islands, trapped 45 barrels on the 5th and 20 barrels on the 7th. Several Twilligate schrs. here. At Mugford Tickle there are eight schrs. and five off Churchill. They are not doing much, but there is plenty of fish about, and a good week's work was expected. French Honor

And Appreciate the Newfoundland Troops. Paris, July 27.—President Poincare yesterday morning received Sir Edward Morris, the Premier of Newfoundland. At the conclusion of the interview, which was a long one, M. Poincare handed Sir Edward Morris the following message to the people of Newfoundland: "I am glad to have the opportunity of congratulating, in the name of France, the people of Newfoundland on the valiant army which they have sent to Europe, and which is now fighting victoriously in the midst of French and British troops. I beg the Premier to transmit to the people of Newfoundland the expression of these sentiments, which are also those of my country. Afterwards M. Briand, the Premier, received Sir Edward Morris and Lord Bertie, the British Ambassador, and also handed to the Newfoundland Premier a message to Newfoundland couched in these terms: "The Government of the French Republic would be glad if the Premier of Newfoundland would have the goodness to express to the valiant people of Newfoundland the Government's warm thanks for the effective assistance given by the voluntary troops of Newfoundland to the French armies. Their courage has aroused the admiration of all those who have seen them in battle. From Paris Sir Edward Morris will proceed to Rouen, Havre and Boulogne, where he will visit the Newfoundland soldiers in hospital. Asked what impression had been produced at home by the death of a great many Newfoundlanders, the Premier replied: "For every Newfoundland soldier who falls on the field of battle there will be another ready to avenge his death."
