over me, and in the morning I had barely the strength to raise myself. When I went out of doors my breathing was so bad I had to stop and rest every few yards."

The cramp was caused by the gas arising from the fermented food, and the short breathing by a partial paralysis of the nerves, created by the poisonous acids which had entered the blood from the stomach-like all the rest of his body. HIA GI "As month after month went by,"

says Mr. Jones," my relatives "and friends could see me wasting away and apparently sinking into the grave. I became as thin as a lath, and you ould see through my hands. My legs and face were attenuated to the same extent, and as for my muscles they eemed to be all completely gone.

Now, inasmuch as when people waste away the fat goes first, and the muscles and other tissues last, you can erceive how far advanced in a decline our good friend really was.

"Yet I continued in this condition," he says, "altogether for over sermicen months. I was attended, off and on, by four doctors, but their medicines had no good effect on me. I also used lung tonics and cod-liver oil, but to no purpose.

"In June of this year (1893) I first. read of Mother Seigel's Syrup, and my wife get me a bottle from Mr. Cole, the grocer, at Grosmont. After taking it a few days I was relieved, my appetite improved and the sickness (the nausea) left me. Keeping on up J gained strength every day, and in a month I could walk and ride, and was soon as well and strong as ever. Your remedy saved my life, and I wish others to know it. You can refer enquirers to me. (Signed) William Jones, Bridge Inn, Kent-church, Pontrilas, Herefordshire, October 31st, 1893." The case of Mr. Jones and his recovery as set forth by him are well-known in his neighborhood. His wife says that one of the doctors told her that all hope was gone. But happily the doctor was mistaken, as the wis-est of us sometimes are. His disease was chronic inflammatory idy spensia, and that only. But that make spensia,
