BOSTON LETTER.

Not Fully Recovered from Recent Big Financial Crash.

Provincialists in New England Desirous of Joining Canada's Second Contingent.

An American Citizen Back to the Boon-Lumber and Fish Markets.

(From Our Own Correspondent.)

BOSTON, Dec. 31.—Massachusetts is one of the few states of the union that does not observe New Year's day.

The holiday in New York is the most important of the year with the exception of Independence day, and business is suspended, but in this city business goes on the same as any other day.

The year 1899 has been an important one to all business men, and in most branches of trade has been a record breaker, with good times prevailing all over the country.

Most republicans, especially the active supporters of the McKinley-Hanna dynasty attribute the prosperity of the republic to the administration which in the same way that the Canadian Liberals of the modern school give credit to the Laurier-Tarte government for all the increased business that may have fallen in the way of Canadians.

The party press and leaders in each country in this fall into the intemperate error of ignoring the trade conditions which influence the world always and which invariably change the tide of commerce every ten or fifteen years.

In years past, men were in the habit of acknowledging the hand of Providence in the liberal distribution of the good things of the earth, but unfortunately many politicians whose parties now happen to be in power in both countries sometimes forget to explain that any agency outside of their own temporary rule may be responsible for the good times.

Boston has not fully recovered from the effects of the financial crash of two weeks ago, but general business does not seem to have been injured to any great extent.

Unless the continued lightness of the money market is considered a result of the recent bank failure, failures are still occurring almost daily, but no other serious disaster is apprehended at the present time.

The assignment of the well known John P. Lovell Arms Co. for \$1,000,000 was caused by the noted condition of the Globe National Bank, whose doors will be undoubtedly for ever closed to the public.

An important failure in the lumber trade was announced last night—that of A. M. Stetson & Co. This long established lumber concern also failed yesterday on account of the bank affair.

The Broadway National Bank is still closed and in the hands of a receiver, but its affairs are in much better shape than those of the other institutions. The Broadway bank was swamped by the assignment of the John P. Squire provision packing corporation and its allied companies for three millions.

There was a heavy all-day run on the Five Cents Savings Bank of Lynn yesterday, but it is in no danger and will weather the storm. The Lynn institution owned 80 shares of stock in the defunct Globe bank, hence the excitement.

The run on the Portland banks was short lived, and did not injure them. Another result of the Globe crash was the failure of F. E. Rogers & Co., bankers and brokers of this city a few days ago.

A cold wave has reached here. The temperature for three or four days has been below 30, and last night it fell pretty well down towards zero, the lowest of the season. Snow has yet to make its appearance.

Quite a number of provincialists in New England would like to enter the British army in South Africa, but as thousands of Canadians at home who are desirous of going cannot get the opportunity, these here know there is little use in their offering their services, although some have done so.

Among the number is Dr. Hugh McLeod, formerly member of parliament from Cape Breton, and George A. Bowser, an ex-member of the House of Representatives and former attendant of the military school at Fredericton. The American public is ten times more interested in the South African war than in the killing of the so-called insurgents in the Philippines.

Both sides in the African contest have many supporters among Americans, and lively arguments over the matter are frequent wherever any considerable number resort. The majority of the members of the Boston common council made asses of themselves at the last meeting, and adopted a resolution of sympathy with the Boers.

The supporters of the resolutions were nearly all born in Ireland or sons of Irishmen, whose natural hatred of Great Britain outweighed everything else. It is needless to say that the location of the council attracted no more attention than would the ravings of Dr. Tanner, the national member from Middle Cork, or similar politicians of the firebrand variety.

Wallace B. Decker, of Johannesburg, an American interested in mining in Kruger's country, is at his daughter's home in North Adams. Mr. Decker says that the English pay about all the taxes in the Transvaal, and that despite this the Boers have an intense hatred of everything British. He describes the Boer farmers as shiftless, ignorant and lazy. He says the Boers are far from being the God-fearing people held up to the world. There is no such thing as justice, and a man's ability to get free from the clutches of the law is limited only by the use he makes of his pocket book. Mr. Decker says he has no hesitation in

CATARRH.

Easily Cured by Catarrhose—New Scientific Treatment—Guaranteed to Cure.

Catarrh, Asthma, Bronchitis, Hay Fever.

It has been confirmed that catarrh of the nose and throat is caused by micro-organisms which keep up a constant irritation, producing inflammation and ulceration of the mucous membrane.

The cause of catarrh being now well established, it is easy to understand that a remedy having the power to destroy microbes or germs will surely cure, or at least prevent the disease by removing the cause, providing this remedy will have no injurious effect upon the surrounding tissues.

Late scientific research has brought forward just such a remedy—Catarrhose, which cures by the action of medicated air, inhaled through the mouth or nostrils, cleansing all the inflamed and diseased parts, which can not be reached by snuffs and ointments so frequently recommended for catarrh.

Catarrhose is the only germicide having sufficient power to kill the bacilli of catarrh, bronchitis and consumption, and volatile enough to impregnate every particle of air breathed by the patient, thus enabling the cure to reach every part of the passages in the head and throat, and to penetrate the minutest air cells in the lungs.

For public speakers, ministers, singers, persons troubled with a weak and irritable throat, Catarrhose is a most valuable relief. The inhaler can be carried in your pocket and used at any time or in any place.

Price \$1.00 at all druggists or direct by mail. Send loc. in stamps for sample outfit to N. C. Pollock & Co., Manufacturing Chemists, Box 625, Kingston, Ontario.

declaring England to be in the right.

The post office authorities have been notified to stop all mail sent from this country addressed to the National Society of Sculptors, or for Amoshe Archambault, Quebec, Que., on the ground that the mail is being used to defraud and that the concern conducts a lottery.

Hon. Charles A. Bouteille, congressman from the Arrowsick-Penobscot district of Maine, is the recipient of a mental disease at the McLean asylum near here. It is said he may never again take his seat in congress. Mr. Bouteille is the last of the "big four," which for years comprised the Maine delegation, Nelson, Dirigo and Seba.

William F. Donovan, aged 38 years, son of the late Denis Donovan of St. John; and Somerville, Dec. 26, Frank H. seven years old, son of Gilbert and Ellen Patterson, formerly of St. John; in Christchurch, Dec. 26, Frederick J. 17 year old son of Christina and the late Frank McRae of Cape Breton; at 17 Paul street, Newton, Dec. 26, Angus Macdonald, Nova Scotia; in East Boston, Dec. 24, John McDonald, son of Laughlin and Ann McDonald, formerly of Cape Breton.

The death of Hon. L. E. Baker of Yarmouth was a severe shock to his many friends in this city, where he was a frequent visitor. Along the water front he was almost as well known as in his own home.

The spruce lumber market is steady and unchanged. There is a fair business doing, but the demand is not as great as on Dec. 1. Prices are unchanged, \$17 being asked for spruce frames, 9 inches and under; \$19 for 10 and 12 inch frames; and \$15 for merchantable boards. Six cases of provincial lumber arrived last week. They amounted to 651,983 feet, 196,000 laths and 800,000 shingles. Shingles are in fair request, but laths and clapboards are quiet.

The spruce market is still quiet, but there is promise of an early improvement. Codfish are steady at \$5.50 for large dry bank and \$5.50 to 6 for large shore and Georges. Pickled herring are firm, with N. S. split offering at \$4.50 and medium at \$4.25 to 5.50. Fresh fish are firmer, with lobsters commanding 6 to 7c. Live lobsters are firmer at 17c. and balled, 19c.

The administrator of Gambia, West Africa, deprecates the people of the colony to contribute \$500 to the war fund.

BIRTHS.

THURBER—At Campbell, N. B., Dec. 25, to the wife of John W. Thurber, a son.

MARRIAGES.

ALLEN-BOLES—In Houlton, Dec. 25th, by Rev. C. E. E. Thomas & Allen of Fredericton, N. B., and Miss Georgia A. Byles of Acadia.

COATS-BURLOCK—At the Methodist parsonage, Petitediac, N. B., Dec. 24th, by Rev. C. E. E. Thomas, to Miss Rachel, eldest daughter of John Purlock, all of Corn Hill, Kings Co., N. B.

FRITZ—At 24 Crown street, Dec. 31st, to the wife of H. D. Fritz, a son.

KING-PETERS—At St. Paul's church, Chatham, N. B., Dec. 27th, by the Rev. Canon Forsyth rector, Elmer Ellsworth King of Logville, to Isabella Forrester, daughter of Alfred Peterson of Chatham, N. B.

RICHARDSON-HATHWAY—At the residence of Geo. L. Hathway, by Rev. C. A. S. Warriston, on Dec. 28th, 1899, Andrew Richardson to Lizzie M., eldest daughter of Geo. C. Hathway, both of Annapolis, Queens Co., N. B.

WIDBUR-HICKLEY—At the home of H. Stanley Young, Bessie E., second daughter of John Hickley of Point Wolfe to J. Harry Young, son of Sarah and the late Charles Laird, of E. M. S. Customs, leaving a wife and two children to mourn their loss.

WATSON—In this city, on Dec. 29th, Edward Watson, eldest son of Alfred N. Watson, M. D., of Albert, N. B.

DEATHS.

DONOVAN—At the residence of his brother, James E. Donovan, 83 Dorchester avenue, Boston, Mass., Dec. 28th, William F., beloved son of Ann and the late Denis Donovan, aged 38 years, 3 months and 4 days.

INIS—At Sussex, N. B., Dec. 24th, Mary J. Inis, aged 81 years.

LAIRD—At Lynn, Mass., on Dec. 28th, George, youngest son of Sarah and the late Charles Laird, of E. M. S. Customs, leaving a wife and two children to mourn their loss.

WATSON—In this city, on Dec. 29th, Edward Watson, eldest son of Alfred N. Watson, M. D., of Albert, N. B.

THE MARKETS.

Revised Every Monday for the Weekly Sun.

ST. JOHN MARKETS.

The markets generally have been without special feature during the past week. In country markets, butter has lately turned firmer, and dairy tins are bringing a little better price. In poultry, geese were scarce and higher last week. There is no change in meats, eggs or vegetables.

The dairy, grocery and provision markets are without change. There is no change in fish. A few frozen herring were brought in last week. Fruit, oranges are higher, also cranberries. Oils are unchanged.

(Wholesale Prices.)

Table listing market prices for various goods including Butter, Eggs, Poultry, Fish, and other commodities.
