THE LITTLE THINGS

Studebaker cars are fine cars. The excellence of Studebaker chassis design—the beauty of the body, both in finish and in line—the wonderful power of the motor—the smooth, almost vibrationless operation of the car—these are the BIG things that indicate quality, which makes Studebaker a fine car.

But PERFECTION also is shown in the LITTLE things.

In both the Studebaker FOUR and SIX you find a high-grade Yale Ignition Lock; permanently bright finished metal parts; hand grips on the door; leather-bound carpets in the tonneau; aluminum bound linoleum in the driver's compartment; leather edged top; Blackmore curtain openers; leather-bound robe straps; big pockets on every door.

These are some of the LITTLE things that indicate the perfection not only in BIG things but in detail, which make the Studebaker such a wonderful value for the money.

Permanence.

When an institution, almost from its inception, takes the commanding position in its field—And when that institution maintains that commanding position without interruption over a series of years—Then you may be assured of that institution's integrity—both as to its product and its dealings with the public.

From an output of 465 cars eight years ago the Willys-Overland industry has grown steadily and this year our dealers throughout the world have contracted for more than 200,000 cars.

Willys-Overland net resources have grown in that time from a little more than fifty thousand dollars to more than sixty-eight million dollars.

This year we are building the most comprehensive line of motor cars ever produced by any one concern.

They include Fours, Sixes and an Eight.

If yours is a family of average size, you will be particularly interested in the comfortable, powerful, Big Four at \$1190 or Light Six at \$1380. They exemplify the remarkable values characteristic of the entire line.

When you buy any car in the Willys-Overland line you are assured by our commanding position in the industry, by our unequalled facilities and resources, of integrity of value in your car throughout the whole period of its performance in your service.
