

ACKNOWLEDGMENTS

Work on this volume as on its predecessor was begun under the direction of Eric Gilmour. F. J. McEvoy was associated throughout in the collection and annotation of material. I am glad to acknowledge the valuable contribution of Messrs. Gilmour and McEvoy to the text produced here. The sources of the documents published are shown in the Location of Documents list. Jeannette Fournier and her colleagues in the department's Records Management Division and the staff of the National Archives of Canada were of great help during the selection process.

A. F. Hart was director of the former Historical Division while I was engaged in research for the volume, and Janet Bax was director of the Academic Relations Division, which has assumed responsibility for the department's historical work, when the arrangements were completed for publication. I am grateful to both for their interest, encouragement and support. The technical preparation was carried out, under the supervision of E. A. Kelly, by Isobel Cameron, Elizabeth Heatherington, Dawn Jones, Liza Linklater, Laurel Pardy and Catherine Preston. Mrs. Cameron chose the illustrations and prepared the Location of Documents list, the List of Persons and the Index. The manuscript was prepared in the Department of External Affairs Word Processing Centre under the direction of Aline Gélinau. Francine Poirier coordinated the movement of the manuscript among the various members of the production team. I am indebted to all for the careful and patient attention given to the work. Responsibility for the views expressed in the Introduction, is mine as editor.
