

IMPERIAL GRANUM.—A prominent Vermont physician writing to thank the Imperial Granum Company for copies of their famous clinical record, adds the following convincing words as to the merits of their product as a food for children: "I can show a baby that has been reared on—imperial granum—after trying numerous other foods until he was reduced to a mere skeleton—that is now as tough and strong a boy of fourteen months as can be found anywhere."

A RINDERPEST SERUM.—Koch has completed his studies of the rinderpest in South Africa, and has sent word that he is about to return to Berlin with a newly discovered serum which will lessen the force of the disease. In the meantime, he is unable to say whether or not he will be able to prevent animals from being infected with the disease. He has

demonstrated that sheep and horned cattle are the most liable of all animals to contract the disease, and that dogs, monkeys and rodents enjoy complete immunity from it.

DECLARATIONS OF CAUSE OF INJURY NOT EVIDENCE.—Whatever the rule may be in other jurisdictions, the Supreme Court of Illinois holds, in *Globe Accident Insurance Co. v. Gerisch*, November 23, 1896, that the declarations of an insured person, as to the cause of his injury, made to his physicians at different times from several hours to three days after the supposed accident, are not proper or competent evidence in an action brought to recover upon a policy of accident insurance for his death, though had his statements related only to the part of his person that was hurt, his sufferings, symptoms, and the like, it would have been competent evidence.

CAUTION.—Be sure the name S. H. Kennedy, Mfr., Johnstown, N.Y., is printed at the bottom of labels. All others are SPURIOUS.

S. H. Kennedy's Concentrated Extract of

OAK BARK (QUERCUS ALBA).

"WHITE AND DARK."

Most Valuable Aqueous Astringent known to the medical profession, and superior to anything of its kind made. DR. J. MARION SIMS wrote of it in a personal letter under date of August 12th, 1871, in which he said, "I have used the Extract of 'White Oak Bark, Q. Alba,' to my entire satisfaction. I gave to one of my professional brethren some of it to test in his practice. After using it, he agreed with me that it was superior as a medicinal to the 'Hemlock Extract Pinus Canadensis.' I bespeak for this new 'Oak Extract, Q. Alba,' a cordial reception by the profession."
