You Pay Only if Cured

Expects No Money Unless He Cures You—Method and Full Particulars Sent Free—Write For It This Very Day

A Detroit specialist who has 14 certificates and diplomas from medical colleges and boards, has perfected a startling method of curing the diseases of men in their own homes; so that there may be no doubt in the mind of any man that he has

DR. S. GOLDBERG,
The Possessor of 14 Diplomas and Certificates Who Wants No Money That He Does Not Earn.

With the method and the ability to do as he says, Dr. Goldberg, the discoverer, will send the method entirely free to all men who send him their name and address. He wants to hear from men who have stricture that they have been unable to get cured, prostatic trouble, sexual weakness, varicocele, lost manhood, blood poisoning, hydrocele, emaciation of parts, impotence, etc. His wonderful method not only cures the condition itself, but likewise all the complications, such as rheumatism, bladder or kidney trouble, heart disease, nervous debility, etc.

The doctor realizes that it is one thing to make claims and another thing to back them up, so he has made it a rule not to ask for money unless he cures you, and when you are cured he feels sure that you will willingly pay him a small fee. It would seem, therefore, that it is to the best interests of every man who suffers in this way to write the doctor confidentially and lay your case before him. He sends the method, as well as many booklets on the subject, including the one that contains the 14 diplomas and certificates, entirely free. Address him simply:

Dr. S. Goldberg, 208 Woodward Ave., Room P, Detroit, Mich., and it will be immediately sent you free.

This is something entirely new and well worth knowing more about. Write at once.

"He Won't Die"

Of consumption" is a remark often made of a fleshy man. The remark expresses the popular recognition of the fact that the sign of consumption is emaciation, loss of flesh. On the other hand, a gain in flesh is a sure sign that wasting diseases are being cured.

Emaciated people with obstinate coughs, bleeding lungs, night-sweats and weakness, have been perfectly cured by the use of Dr. Pierce's Golden Medical Discovery.

The several steps of the cure were recorded in ounces and pounds of increasing weight. When there is gain in flesh the wasting disease is being surely cured.

Mr. Will H. Whitmore, of Arden, Rockingham Co., Va., writes: "Our son contracted a deep cold about the first of July, 1899, and had a terrible cough. We called a doctor and he pronounced it irritation of the bronchial tubes, with asthmatic trouble, and he informed me that my son was liable to die at any time. He told me that if we could keep the bronchial tubes open, he might cure him; but after treating him several weeks and my son growing worse all the time, I concluded to try Dr. Pierce's Golden Medical Discovery and 'Pleasant Peppets.' I had seen several almost miraculous cures brought about by the use of these medicines, and of course I had wonderful faith in them. He used three bottles of 'Golden Medical Discovery' at home and one of the 'Peppets,' and was then well enough to go to West Virginia, taking a supply with him. I am just in receipt of a letter from him from which I quote: 'I am well and hearty and getting very fleshy.'"

Mr. O'Brien's Retirement.

London, Nov. 7.—The Dublin correspondent of The Times, referring to Mr. William O'Brien's retirement from public life, says he cannot remain idle. He will be a disturbing force in Irish politics so long as his health permits.

In addition to possible financial embarrassments, Sexton, Dillon and Davitt may have to reckon with the danger of a rapprochement between the O'Brien and Healyite sections in Irish politics.

One of the stock stories about tipping is that of the waiter in a swell hotel, sneering at a quarter and remarking to the giver: "I beg, sir, haven't you made a mistake?" A few nights ago, in the main dining-room of the Waldorf-Astoria, where tips range from a quarter to \$5, a westerner said to his two companions:

"Watch me paralyze this waiter, he ain't worth a cuss. He hasn't showed us any extra attention, and doesn't deserve a cent, but here goes."

The bill being paid, and change placed before him in a plate, he handed the waiter a copper cent. As he expected, garcon turned up his nose and said:

"I beg, pardon; haven't you made a mistake?"

"Not at all," was the reply; "not at all. You are quite welcome. I never give less."

RECORDED BY U. S.

Panama Republic Regarded as Fully Established.

Washington, Nov. 7.—The United States Government has recognized the de facto Government of Panama. It was announced at the State Department after the return of Secretary Hay from the Cabinet meeting that instructions have been sent to United States Minister Beaupre at Bogota (assuming that he has not left the capital yet), and to Mr. Ehrman, the United States

Vice-Consul at Panama, and now acting Consul there, to inform the Governments of Colombia and Panama respectively that the de facto Government is recognized.

Commander Hubbard cabled that the isthmus, from one end to the other, was in the hands of the revolutionists. This statement is of the greatest importance, as the United States Government, being bound by treaty to maintain order and preserve free traffic across the isthmus, is now under the obligation to prevent any hostile collisions, either along the line of the Panama railway or at the termini, Panama and Colon. Thus the future attitude of the Colombian Government towards the new republic of Panama becomes of little importance, for it is practically impossible for it to go to war with Panama. Officials here familiar with the country declare that it is impossible to move a Colombian army overland to the isthmus owing to the character of the country. On the other hand, if an attempt is made to bring troops either to Colon or Panama by water, the United States naval officers at those points would interfere. Thus, by force of treaty obligations requiring the maintenance of order across the isthmus as a necessary condition to free transit, the United States Government practically has been placed in the position of a protector to the new republic of Panama, regardless of any bias on the part of the United States Government towards either party to the strife in Colombia.

City of Mexico, Nov. 7.—There is great public interest here in the Panama revolution, and the undercurrent of talk in clerical party circles, where Colombia is regarded as in sympathy with the clerical party programme, is that the American authorities are the secret promoters of this disturbance, and are planning to seize the Panama region

Malicious Damage in a Brockville Factory.

Brockville, Nov. 7.—Thursday C. J. Altman, late of the firm of Saulnier, Decelles & Altman, Union Hat Works, here, was arrested, charged with being a party to mutilating goods in process of manufacture, with a view to rendering them useless. It is alleged that about four hundred dozen hats were destroyed by a small hole being stretched in their tops before they were stretched. The damage is estimated at \$2,500. Altman retired from the firm about a month ago.

TO REFORM WAR OFFICE.

British Government has Appointed a Committee.

London, Nov. 7.—It was officially announced that Premier Balfour, with King Edward's approval, has, after consultation with the Secretary for War, appointed a committee of advise concerning the creation of a board for the administrative business of the War Office and the consequent changes involved.

The committee named consists of Viscount Esher, Admiral Sir John A. Fisher, and Col. Sir Geo. S. Clarke.

SHARP GERMAN TRICK.

Results in Loss of Traffic to Canadian Pacific Steamers.

London, Nov. 7.—The German Government have established a control station on the frontier of Saxony in order to prevent intending emigrants passing the frontier en route to the ports of Holland or Belgium, consequently compelling every German emigrating to embark at a German port and by a German steamer. This move of Germany seriously interferes with the Canadian Pacific Line steamers, probably causing that line the loss of 50,000 passengers.

NOT FOR MR. BRYAN.

Adverse Decision in Peculiar Will Case.

New Haven, Conn., Nov. 7.—Judge Livingston W. Cleveland of the Probate court handed down a decision in the Philo S. Bennett will case, holding that a secret letter directing Mrs. Bennett, the widow, to pay William J. Bryan \$50,000, was not part of the will. The effect of this is to prevent Mr. Bryan, the famous Democratic politician, from obtaining the money mentioned in the letter unless the present decision is reversed by a higher court, or unless he should be successful in legal proceedings against Mrs. Bennett. The clause of the will upon which suit was brought reads as follows: "I give and bequeath unto my wife, Grace Imogene Bennett, the sum of fifty thousand dollars (\$50,000) in trust, however, for the purposes set forth in a sealed letter which will be found with said will."

Souvenir Range.

Without an abundance of pure fresh air in the oven whatever is cooked therein is distasteful and unhealthy.

Meats are especially susceptible to impurities while being roasted—their rich flavor is retained only when the oven is pure.

Aerated Ovens Breathe Fresh Air.

By an ingenious arrangement applied only to the Souvenir, fresh air is made to circulate freely and everything impure, including odors from cooking food is driven out of the oven and up the chimney—not into the room.

The Aerated principle is the only one that actually ventilates the oven.
