It is impossible to over estimate the value of warm feet at this season of the year. Thousands of valuable lives are sacrificed every year in consequence of damp, cold feet. Cold feet lay the foundation for Pulmonary Diseases, so fatal to the people of our land. Could we make the world know how valuable our *Magnetic Foot Batteries* are for keeping up a warm, genial glow through the feet and limbs, none would be without them. These Insoles warm the whole body, keep the vital forces up, magnetize the iron in the blood, and cause a feeling of warmth and comfort over the whole body. If no other result was produced than to insulate the body from the wet, cold earth, the Insoles would be invaluable. In many cases the Insoles alone will cure Rheumatism, Neuralgia and Swelling of the Limbs. \$1 a pair, or three pairs for \$2, to any address by mail. Send stamps or currency in letter, stating size of boot or shoe, and we will send free by mail to any part of the world. Send for our book, "A PLAIN ROAD TO HEALTH." Free to any address.

OUR SPECIALTY!

This cut represents (imperfectly, as our electro is an old one from iron-beam plow,) our best **Wide Flow, No. 21**, of which we are the original makers. Wherever introduced in Ontario it has at once taken the lead of all others. We believe the mould-board to have the best shape for Ontario work of any used on a wide plow. It is not made to compete in price with cheap material and thrown together plows, but is made to excel them in every point, in quality of steel used, in temper, in finish and in work. It has steel beam and steel coulter—a simple and perfect skimmer. Besides this plow we make a variety of narrow and medium width plows; some specially made for the trade in the Maritime Provinces, others for Ontario, for Manitoba and British Columbia. AGENTS WANTED, but none but those who can give best references need apply. If we have no agent in your district, write us for circulars. See November, December and January ADVOCATES for Straw Cutters, Root Cutters, and Grain Crushers. Correspondence solicited. 254-a
