Fine Finish

The farmer manufactures beef, pork, milk, etc., and he must properly handle his live stock machinery to get the greatest and best finished production.

Just as he is careful to put oil on his harvester bearings, so should he be as careful to keep his live stock machinery in good working condition.

An animal whose digestive machinery is heavily loaded needs more oil than one that isn't.

Clydesdale Stock Food

is the oil to ease the load on your animal's digestive machinery, because it increases the digestive fluids owing to the food being made "tasty."

It also makes the feeder bristle with activity and vitality, making the blood circulate better, thereby distributing the flesh more evenly over the body instead of into the paunch for tallow at 4c. per pound.

It makes the hide and coat soft and glossy, giving that "fine finish" that fetches from 25c. to 50c. per hundred more than from ordinary feeding.

Contains nothing injurious, and can stop feeding it without harmful effects.

Your money cheerfully refunded by the dealer if you are not satisfied after feeding it. Same for all Clydesdale Preparations.
