

Building? Yes.
Then it's a question of material. Wood shingles you have found to be short-lived and disappointing. Prices have gone up, and you do not like to pay a big price unless you are sure of what you are getting.

We know what you want, and we have it. This is an age of steel, and metal-covered buildings will be the buildings of the future. By their superior merits they have overcome prejudice, until to-day they are springing up all over the country, to the admiration and satisfaction of all.

Lightning proof, fire proof, weather proof, beautiful and durable. "A thing of beauty and a joy forever," or at least for twice as long as wood-covered buildings, and at much less cost.

I am very much pleased with the Metal Ceiling. It looks fine, and I thank you for the kind way you tried to please me. Signed, **ROBERT WOOD,** Onondaga, Ont.

I am much pleased with the Safe-Lock Shingles on my house. I consider that I have an A1 job, and have not the least hesitation in advising anyone wanting roofing to go to Preston, as you gave us a first-class article and used us well. Signed, **THOS. HAGGARD,** Scotch Block, Ont.

Quality holds our trade, and our prices are as low as they will go. Write us for our catalogue, and let us quote you prices. What years have taught us is at your service.

Galt Steel Siding

is made in large and small sheets—six grades and five designs.

Our large sheet siding (28"x 60") is made in perfect imitation of brick and stone, with clear cut mortar lines and tuck-pointing; and having fewer joints is handsomer and more rapidly applied.

Like our other Sidings it is cheaper and warmer than wood, fire and wind proof, reducing your insurance and coal bills.

Worth knowing more about. Write for Catalogue and Classic Kids Booklet. This is the Sheet Metal Age.

The Strongest Fencing

is Anchor Fencing

Every wire—of hard galvanized steel—is a strand of strength. Every clamp (the famous, non-slipping, 1-inch, japanned or galvanized steel Anchor clamp) irresistibly re-inforces each crossing wire. Every ratchet, securing the ends, yields automatically to strain—rendering the fence invulnerable to storm, frost and pressure.

Horse-high—dog-tight—bull-proof. Not woven with fence machines which can only use light wires. Anchor Fences are constructed with Nos. 7, 8 or 9 uprights. Our agent will construct it, or supply all materials, if you wish to employ your own labour. Send for catalogue. Many plain and ornamental designs. Also farm and garden gates. Agents wanted.
