

A Model Dairy Barn in Missouri

MR. AMERICAN FARMER: The picture before you is that of the Maplewood Dairy, at Pleasant Hill, Mo., the modern establishment owned by George M. Kellogg. In this big country of ours hundreds of other farm buildings, just as handsome as Maplewood, are covered with

CAREY'S FLEXIBLE ROOFING

It makes the only **TIME-PROOF** roof—the roof of everlasting life and elasticity. Fire brands, heat, cold, moisture, wind or storm do not affect it in the least. A Carey roof will not rot, rust, melt, break nor blow off.

Carey's Roofing is unequalled for **NEW** buildings and adds life to **OLD** structures. It is adapted to flat or steep surfaces, is easily laid and may be applied over old shingle or metal roofs without expense of removal.

Carey's Roofing is composed of our superior grade of woolen felt, our highly tempered asphalt cement and strong burlap. Our patent lap covers and protects nail heads and insures a neat, perfectly moisture-proof, lasting union of sheet to sheet and roofing to roof-board.

GOSSIP.

High-priced mutton and wool are putting sheep values on a plane that makes wheat look cheap by comparison, says the Chicago Live-stock World. Breeding sheep have advanced 100 per cent. in three years. In the West, few are offered, and \$8 per head was paid in Wyoming a few days since for breeding ewes that were worth but \$5 a year ago, and could have been secured by the thousand at \$2 when the Wilson tariff law was in force. All the American wool and mutton growers now fear is that the tariff on wool will be modified.

The Winnipeg Fair premium list has been issued, and is, as usual, a liberal one. The cash prizes are attractive, amounting, in all, to \$30,000, and embrace a wide and generous classification, the various breeds of horses, cattle, sheep, swine and poultry being well provided for. Entries close July 1st. All entries by mail must bear the post-mark of July 1st, or earlier, of the Winnipeg post office. Entries received after that date will be charged double fees. The dates for the exhibition are July 13 to 20. For prize-list and entry forms, address Dr. A. W. Bell, manager and secretary of the Fair, at Winnipeg.

The pacer, Westmont, 2.13 1/4, that died a few days ago at Palatine, Ill., is another illustration of the wearing qualities of the trotting-bred horse. He was foaled in 1875, and was, therefore, 32 years old at the time of his death. Westmont was a Grand Circuit sensation along in the early eighties, and in 1884 at Chicago, he electrified the harness-horse world by pacing a mile in 2.01 1/4, hitched with a running mate. This performance was to a high-wheeled skeleton road-wagon that weighed 100 pounds, and many were the prophecies made that it would never be equalled by another pacer. Westmont was sired by Almont, and his dam, Annie, was by Cottrill Morgan, a son of Vermont Black Hawk; it is possible that some of these qualities contributed to his being able to withstand the ravages of time so well.—[Horse World.]

CRAIGALEE STOCK FARM FOR SALE.

Owing to his increasing horse business, Mr. H. J. Spencely, Box Grove P. O., Ont., has decided to sell his magnificent stock farm, Craigalee, situated in the County of York, 20 miles north-east of Toronto, four miles south-east of Markham Station (G. T. R.), three miles south of Locust Hill Station (C. P. R.), one and a half miles from post office, school and churches, being lots 9 and 10, con. 5, Scarborough, containing 140 acres of the best agricultural land in Ontario, on which is erected a two-story brick house, bank barn (90 by 40), stone stables, cement floors, iron water-bowls, engine-room, in which is an eighteen-horse-power gasoline engine, with 60 feet of shafting, and all necessary pulleys; a hydraulic pump, worked by the engine, forces the water into a huge tank, that supplies the house and stables; a thoroughly-equipped set of slings and hay fork for unloading hay and grain; comfortable box stalls; a large pigpen, and henhouse, also a carriage house; in fact, one of the best-equipped farms in the country. There is four acres of choicest fruit orchard, and an abundance of small fruits. The farm is thoroughly drained and extra well fenced, and in a first-class state of cultivation. Locust Hill Creamery is only 3 1/4 miles away; and there is long-distance Bell telephone connection with the house. Without doubt this is one of the very best farms in the banner County of York, and is thoroughly well fitted up for stock-raising. Mr. Spencely has spared no expense in getting things in first-class shape, intending to spend his life there, but time brings its changes. Being always associated with the breeding and handling of high-class horses, his trade in this line has grown to such an extent that he has decided to give all his attention to it, and to that end has purchased a property in the village of Markham, on which he is now erecting a first-class set of stables, hence the reason for selling the farm. Parties wishing to purchase a model home should move quickly, as such farms as this are not often on the market.

Clean Skimming Means Good Living

The hog trough is no place to put butter. Wide awake farmers want the cream separator that skims the cleanest. It means more profit—better living. That separator is the Sharples Dairy Tubular—the separator that's different. Sharples Dairy Tubulars have twice the skimming force of any other

separators—skim twice as clean. Prof. J. L. Thomas, instructor in dairying at the agricultural college of one of the greatest states in the Union, says: "I have just completed a test of your separator. The skimming is the closest I have ever seen—just a trace of fat. I believe the loss to be no greater than one thousandth of one per cent." That is one reason why you should insist upon having the Tubular. Tubulars are different, in every way, from other separators, and every difference is to your advantage. Write for catalog \$.100 and valuable free book, "Business Dairying."
The Sharples Separator Co.,
