SILLY MOTHERS

Undoubtedly one of the evils of the age is the mothers who warn their daughters against marriage, and hys-terically point out to them the bur-den they must bear as wives and mothers. To hear some of them talk one would imagine that matri-mony was a new and diabolical in-stitution devised for the ruin of fe-male happiness, and to be avoided by all ciris unless they were cer-tain of the consolations and hymnis jority of arms are mosquito-bitten and scarred, are shaggy or black or spotted, that the elbows are rough and sharp. If long gloves cover them, all right, but if the gloves are absent, then sleeves would better be decently iong. Shirtwaists show off a woman's Shirtwaists show off a woman's figure as surely as does any other body. A woman may fail to no-tice when her back gets round; may-ment in others. But a round back spoils a woman's appearance. On that day when devotion was realized by its lack, that array of round backs was striking. And they were twisted first with one shoulder up and then the other up; and when the woman stood, one hip was up and the other down until there came to mind an old-fashioned sawbuck, the like of which is not known in these modern days. by all piris unless they were cer-tain of the consolations' and luxuries tain of the consolations and -luxuries of a large income. Their conversa-tion makes their daughters mercen-ary, and puts ideas into their heads which they bitterly regret in lonely after years. Not one girl out of ten thousand can hope to marry a rich man, and it is pitiable to see so many hundreds of charming wo-men turing any term receible hus. men turning away from possible hus bands in the belief that they had they n share bands in the belief that they had better remain single than share a modest income. Some of the happi-est homes in the world are humble ones, and some of our richest people married on an income that their daughters would not consider suf-faint for home met Three beau modern days. The trouble was and is, we will say it is a present trouble, that worshippers do not assume a reveren-tial attitude in the presence of the Most High. They may be reveren-tial in heart, but from their loung-ing and sprawling no one would guess it. When they stand, they should put their weight on both feet. When they sit, they should sit well back on the seat and -let their backs rest against the back of the pew. When they kneel, they should get down on both knees and keep an upright kneeling posture. Age and infirm health excues slovenli-ness in attitude. Perhaps a stray non-Catholic may also be excused because she knows no better. But able-bodied Catholic women do know botter than to lounge, and they know 'too, that they should show by their position that they are in the house of God for the purpose of worship. The thought comes that perhaps a good many crooked-backed loungers have the bad habit just mentioned because they hadn't the advantage of education in Catholic schools. A nun takes her pupils into church and sits ficient for house rent. 'Two honor-

ficient for house rent. Two honor-able and industrious young people can scarcely go wrong by Joining their fortunes and facing the world to-gether, even though they do have to live more moderately at first than they were accustomed to while sin-gle. The success of nations has been forced by humble homes and it is forged by humble homes, and it is there, too, where much of the happi-ness of life is found. There is, on the other hand, no greater misery than that of a loveless life and a starved nature.
