#### Further Intelligence.

LATEST FROM BERMUDA, The arrival on Monday of the R. M. Steamer Ospray, Capt. Sampson, puts us in possession of Bermuda dates to 25th ult. There is little new to add to our summary of Bermuda and West India intelligence received by the brig Griffin. It is a matter for regret, that indications of the Potatoe blight had made its appearance in Bermuda. The Herald of the 18th ult. says :- A larger crop than usual of Irish potatoes, has been planted this season in Bermuda, and we regret to perceive, that the rot has seized them to a considerable extent. This loss of at least one half the crop is attributed to the wet weather which has prevailed during the last month, and to a very dense fog which covered the country about a fortnight since.

A Prussian Ship had arrived at Bermuda, with a cargo of coals from Newport, Wales, for the Steam Packet Company. This is the first arrival of a Foreign vessel under the operation of the New Navigation Laws. The coal in this Instance cost sixteen shillings per ton freight.
The price hitherto paid to British vessels from the same port, had been 18 to 20 shillings; but British vessels have since been engaged at 15 shillings per ton.-The Whaling season has prov- of the Peruvian treasury. ed pretty successful.-Chronicle.

# NEWFOUNDLAND.

The arrival on Tuesday morning of the R. M. S. Falcon, puts us in pos ession of our usual files from Newfoundland. The Falcon was detained to hours off St. John's lankour, on her outward passage in consequence of that port being blocked up with ice. About 10 sealers had returned full fished, or having on an aggregate 200,000 seals. Sanguine hopes are entertained that this important branch of industry will yield above the average of former sensons. The Legislature continued in session, but it was thought it would be proregued in a few days.

It has more than the three States of Arkansas, Florida, and Texas, put together. It also has more population than the States of Rhode Island, lowa, and Delaware, added with that of Oregon Territory.

Paying Her Debt by the Lid of Guano .-A London letter in the New York Courier. daed 8th ult., says that the Government of Peru, which, for the last twenty years, has neglected to pay the interest on her national debt, has at last agreed to recognize the debt, pay the interlast agreed to recognize the debt, pay the interest, and also create a sinking fund for the purpose of liquidating the principal by annual instalments. The rapid increase of the demand for guano, found on the rocky shores of Peru, the sale of which is a government monopoly, is said to have been the cause of this prosperous condition.
