

LIBRARY OF UNIVERSAL KNOWLEDGE.

Large Type Edition. A verbatim reprint of the last (1889) London edition of Chamber's Encyclopedia, with copious additions (about 15,000 topics) by American editors: the whole under one alphabet, with such illustrations as are necessary to elucidate the text. Printed from new electrotype plates, brevier type, on superior paper, and bound in 15 elegant octavo volumes of about 600 pages each. It will contain, complete, about 10 per cent. more than Appleton's and 2 1/2 per cent. more than Johnson's Cyclopaedia, and though in all respects important to the general reader, it is far superior to either of them; its cost is but a fraction of their price. Volumes I and II. are ready October 1, and other volumes will follow at least two each month, the entire work being completed by April, 1891, and probably sooner. Price per volume, in cloth, \$1; in half Russia, gilt top, \$1.50; postage, per volume, 21 cents. It has been our custom in previous publications to offer special inducements to those whose orders are soonest received. In pursuance of this policy, on or before October 31 only, we will receive orders with cash for the set of 15 volumes complete for the nominal price of \$10 for the edition in cloth, and \$15 for the edition in half Russia, gilt top. The price during November will be advanced to \$10.50 and \$15.75, and a further advance will be made each month till the work is completed. It is not supposed that the mass of those who will in time become purchasers of the Encyclopedia will make payment in advance, as they now have the opportunity to do, though most of them do pay for their newspapers and magazines a full year in advance. But the old, tried friends of the Literary Revolution, who know that the American Book Exchange always accomplishes what it undertakes, and know what it promises to do, will be glad to save \$5 by investing \$10 and get the earliest and consequently best printed copies of the largest and best Encyclopedia ever published in the country, even at ten times its cost. Volumes will be shipped as they are issued, or when the set is complete.

CHAMBERS' ENCYCLOPAEDIA.

As a portion of the Library of Universal Knowledge, we issue Chamber's Encyclopedia separately, with all the American additions, complete in 15 volumes. In this style it is printed from new electrotype plates, on a fine very clear nonpareil type. Price \$7.00 in cloth, \$10.50 in half Russia, gilt top. In this style 14 volumes are issued October 1, and volume 15 will be ready about October 31, completing the work. To those ordering during the month of October, the price of the 15 volumes complete, will be \$7 for the cloth, \$11 for the half Russia, gilt top. During November the price will be advanced to \$7.50 and \$11.50 for the set.

AMERICAN ADDITIONS:

The very best additions to Chamber's Encyclopedia (about 15,000 topics) which are made by the American editors of the Library of Universal Knowledge, will also be issued separately in four volumes of 80 to 100 octavo pages each, large type; the price being \$1 per volume in cloth, \$1.50 in half Russia, gilt top; postage, per volume, 21 cents. Volume I. will be ready in October, and other volumes will follow as rapidly as possible, the whole being completed by April, 1891, and probably sooner. Price for the set of four volumes during October only, net, \$2.50 for the cloth, \$4 for the half Russia, gilt top. The four volumes of American Additions will be found well worth indispensable by all owners of Chamber's, Appleton's, Johnson's and all other Cyclopaedias except the large type edition of the Library of Universal Knowledge, from which it is compiled.

STANDARD BOOKS.
