TO PROBE THE ESKIMO MURDER

Northwest Mounted Police Patrol Goes North.

A WARLIKE TRIBE Other Fights Have Been Numerous Recently.

Ottawa despatch: To investigate the facts in connection with the murder at Bathurst Inlet by Eskimos of H. V. Radford, explorer, and his companion, George Street, of Ottawa, special patrol of the Royal Northwest Mounted Police, under the direction of F. J. A. Demers, Superintendent commanding the Hudson Bay District has been despatched to the scene of the tragedy under the command of Sergt. Edgerton. The patrol will make the journey via Chesterfield Inlet, Baker Lake, Schultz Lake, Beverly Lake, and thence across country to Bathurst Inlet, Kahmuk, and an Es kimo trader will go as guide.

The patro which has been sent wil be strong enough to make any neces sary arrests, which it is expected will be numerous if reports are correct It is expected that the natives may resist arrest, and it is considered impossible to depend upon local help. It is thought likely that the patrol will remain in the country at least

a year, if not two. Though the primary object of the patrol will be to investigate in connection with the murder of Radford and Street and to make arrests of the guilty persons, it will have other work to do in addition. The tribe which is involved in the murder is known as the Kilimonuits, and its members live in the country south of Coronation Gulf and along the Thelon River. Accord-ing to reports received at Mounted Police headquarters here they are decided ly uncivilized, and somewhat more war-like than is usual with the Eskimos Few possess rifles, the spear, the bow and arrow and the seal knife being the weapons with which they hunt and fight. They live on the musk ox, from whose hide they make their clothing. The Hudson Bay Eskimo traders do business with them, prominent among the traders being three men, Kakame,

Kahmuk and Partridge. REPORT OF BLOODY BATTLE.

Reports have just been received by Comptroller Fortesque of a sanguin-ary and murderous battle which is said to have taken place among the Eskimos of the district two winters ago. A statement from H. H. Hall, in charge of the Hudson Bay Post at Fort Hall, two hundred miles north of Brochet, contains an account of the fight obtained from travelling Eskimos, At a place northwest of the Dubaunt River country every male member of a band of inhabitants of that region engaged in a battle with hows and arrows, spears and knives, during which twenty-eight men fell. The fight, according to reports, was engaged in with the utmost ferocity. According to advices received, one man had pro cured possession of a rifle, to gain which another member of the tribe killed him. Others took the matter up, and a feud ensued, by which the tribe was divided into two warring factions.

In a further statement describing these tribes Mr. Hall says: "All quar statement describing rels and disputes among the northern Eskimos are settled by a fight which must result in the death of one of the the only way to settle disputes. All second-born children are put to death immediately after birth. This is due to a superstitious belief among the

In December of 1910, Mr. Hall states, Hudson Bay limiters and traders to the number of five men and their families, left Fort Hall to go and trade with the northern Eskimos They were to have returned in February of this year, but have not yet been heard from, and it is believed that something serious has befalled them at the hands of the shostile has befaller tribe

STORY OF LATEST MURDER. From the information received in connection with the killing of Radford and Street, the principal murder erg are said to be two men names Huiltalark and Ammekernic. The circumstances of the murder were par ticularly atrocious, and bear out all reports concerning the warlike char-acter of these natives. According to report of an eve-witness. Novoli the report of an eye-witness, Novolic, Radford put up a gallant fight before the succumbed. Time and again were the spears driven into his back before the fell. As life still lingered while he lay on the ground his murderer pounced upon him and administered the coup de grace by cutting the fallen man's throat with his knife. Street was sim-Alealt with, "If the report is true," Mr. Hall in his statement of the r. "then Mr. Radford showed very judgment in having struck an Es-

inn, so far from civilization."

Later on Radford's rifle and some arts of his effects were seen by trad-

ing Fekimos among the tribe.

A report to the effect that Radford and Street had arrived safely at Herschol Island has been denied by Inspector Beyts of that district. The later states that no word of them had been received

is intended that the special pa trol will make a thorough investiga-tion of the "unlawful killing of Eskition of the "uniawful killing of Eski-mes" throughout the district, and it is more than probable that several prisoners will be brought back with them. Though the possession of firearms and other modern weapons will give the police a considerable advantage over the hostile natives, it is not expected that the expedition will be lacking in danger.

LIGHT APPLE CROP

Western Ontario Dealers Reports Are Bad.

Guelph despatch: From reports which have reached the city during the past few days there will be a sear city of good apples during the coming winter. Dealers paid a visit to the farms in the Township of Puslinch and Nassagaweya during the week, and report the apples a poor crop. There are very few number one appies at all and the number three grades will be light. This applies both to fall and winter apples. The ause of this is attributed to a back ward spring and exceptionally dry wes

ther.

The Colvert apple, which is usually large, will be small this year, with but very little color in it, while the same thing may be said of the Spy, the Snow and others. The Greenings will be the best crop of any, and they will be rdly be up to the usual standard.

WELFARE WORK

In Industries, Must Soon Become General.

Washington, Sept. 15.-Welfore work will be a requirement in the near future, in the opinion of Elizabeth Lewis Otey, Ph.D., who, at the instance of the United States Bureau of Labor Statisties, personally visited upwards of fifty establishments of the country, noted for welfare work. The results of her investigations are contained in a bulletin ssued to-day by the Department of La

Miss Otey found that sentiment throughout the country generally favor-ed welfare work, but that it was not so kindly received in certain labor cir-

"The sphere of welfare work," she de clared, "must not be confounded with that of legislation, nor should it be used as a means of retarding wise labor laws If it should have this effect, and make workroom conditions, the safeguarding of machinery, or the prevention of child labor and night work for women, dependent on the employers kindness or sympathy, its effect becomes at once deleterious instead of beneficial. Sanitary conditions within the factory ild be a legal obligation."

The representative asserts that the beginning of all welfare work must be lirected toward bettering the physical well-being of employees in their places

of work, and adds: "These are clearly not matters which should be left to the humanity or a truism of the employer. They are the society as a whole, and should be the direct supervision of the State.

BUSH FIRES

Are Menacing Guelph and Puslinch Townships,

Guelph despatch: A menace which threatens to destroy considerable property in Guelph and Puslinch Townships is the spread of large bush fires several of which are now raging.

A fire was started a few days ago on the Armishaw farm, in Guelph Township, and has spread rapidly, due to everything being very dry. It is also reported that bush fires exist in the v-cinity of Gourock, and that they are spreading rapidly. The fire which has been burning for some days in Guelph Township, near Mr. J. Bohn's The fire which was last night burning fiercely. appears to have got right into the ground, which lends support to the theory that there is peat in that neigh-

It has been found necessary to curtail the plans for the building, since many of the subscribers have withdrawn their subscriptions because of the ill-feeling which has arisen between two factions.

ARE ALL AT SEA

Mistaken Identity Baffles in N. Y. Murder Mystery.

New York Sept 15 .- The finding i Havana of Mrs. Janin disposes of what the local detective bureau regarded as a promising clue in the solution of th river murder mystery. Her presence there invalidates the identification made yesterday by Cashier Janin, who said he knew the torso was that of his wife from birthmarks on the back. Other clues have led detectives against a wai carpenter, and his daughter, sought ye terday, also have been found, and hav accounted satisfactorily for their move ments since leaving their apartments few days ago. They had lived near the stores where the pillow and tar paper wrapped around a portion of the body were purchased, and were sought by the police because Bolian had sent a much stained and discolored shirt to a nearb laundry. The stains on the garment were found later to be those of varnish used in his work. The clearing of these used in his work. The clearing of these clues leaves detectives where they were four days ago, when they located the shops where were sold the pillow and tar paper. The purchasers of these articles were sought with redoubled persistence to-day. A vigilant watch was enforced along the river front and the bay for other members of the body. One log both arms and the lead were still both arms and the head were still leg, both arms and the head were still unfound this morning. Two persons have seen a woman's head floating in the bay within the past eight days was last seen on an outgoing tide by Miss Grace Cure, of Bayonne, on Tuesday, while she was rowing near Con-stable Hook, and is believed to be that of the victim. The finding of this head would make possible identification. which now seems remote and strip the mystery of its most baffling feature.

THE THAW CASE

Prisoner Under Guard at Colebrook, N. H.

Issues Statement of His Demand For Freedom

Colebrook, N.H., despatch - The next legal battle in the case of Harry K. Thaw will likely be at Concord, N.H., before Governor Felker. The fugitive's lawyers, learning to-day that an extra dition warrant from Acting Governor Glyne, of New York, was on the way to the New Hampshire capital, decided to defer arraigning Thaw in Police Court Lere, and to demand a hearing of the Governor before he acts on the matter of extradition. They cent a representa tive to Concord to confer with Felker and reinforced their appeal by tele

graph.

Thaw, in the meantime, is here in the custody of Sheriff Drew, of Coos county, in a Colebrook hotel. He was to have been arraigned at 10 o'clock this morning, but his counsel, after trying vainly to persuade Wm. Travers Jerome not to seize Thaw instantly, should the warrant from New York be henored at once, deferred bringing him into court on the ground that a preliminary hearing would bring no good results. In fact, it might mean his liberation, with incident possibilities of his scizure. Counsel for both sides were in conference at noon, after which it was announced that by mutual consent of counsel the hearing had been put over till to-morrow

THE COLEBROOK HEARING.

Colebrook, N.H., despatch- Surrounded by ten of the twenty special guards sworn in by Caief of Police Kelley, Harry K. Thaw was to be arraigned to-day before Police Judge James T. Carr on a complaint setting forth that he was wanted in the State of New York, on a charge of conspiring to defeat Justice by escaping from the Matteawan Asslum for the criminal insane.

The scene of the hearing was a law-yer's office; the time, as set yesterday, 10 a.m. Thaw slept well during the second night of his detention in the Monadnock House. Four armed guards sat just outside his door throughout the night; others paced about the corridors and around the building. Talk of plots and counter-plots to kidnap him were still in the air to-day, and every time an automobile whizzed down the street with muffler open the guards tightened their grip on their automatic pistols. The pro-Thaw Canadian contingent, which followed him over the border, after his sudden deportation via Norton Mills, Vermont, was somewhat depleted to-day, although more than a dozen were waiting the outcome of the court procedure. While residents of Colebrook are evincing great interest in the case, they have taken no open stand either for or against the fugitive. Shortly af-ter rising this morning, and before going to the barber shop to be shaved Thaw issued a formal statement sumhis case, and lamenting the fact that New York State was spenduch money on him. The state-

THAW'S STATEMENT.

"I think the people of my own State would like to know by what warrant of law or common sense the money of the people of the State of New York is being squandered like water by many more thousands of dollars than are available to me in these persistent and scrupulous efforts to return me to Matteawan.

"If I am same then certainly I don't belong to Matteawan, if I were insane then the laws of New York State it-self make it compulsory that I be de-You York to my home

ported from New 1018 State, Pennsylvania.

"The statutes of New York require that insane persons from another State, who are sent to Matteawan or to any New York nubble asylum not charged with crime, (and I, as an acquitted man, stand exactly in this class), shall be reported to the State Board of Deportation and promptly sent out of the State, back to the State of their residence.

Train Theft Was Worse Than Reported,

\$71,800 GONE

Savannah, Ga., Sept. 15. A steel safe, containing \$71,800 in cash, en route from New York to banks at Savannah, Bruns wick, Albany and Valdosta, Ga., was en tered somewhere between Jersey City and Savannah and the cash extracted The safe arrived in Savannah with seals unbroken, but the money was missing. The consignment was in the care of the Southern Express Company and the Adams Express Company. The safe was delivered by the Adams Express Company to the Southern at Jersey City. The transfer was made Monday night. It is claimed by the Adams Express Company that the safe and its contents were intact at that time. Fifty thousand dollars of the total was des-tined for the Savannah Bank & Trust Co. Harry Scott, superintendent of the Pinkerton Detectice Agency in Atlanta, reached Savannah this morning, and is conducting an exhaustive investigation of the robbery. So far there has not been developed a single clue to the identity of the robbers.

The trunk arrived in Savannah yester day morning over the Atlantic Coast Line Railway, and was transferred at once to the offices of the Southern Express. There the receptacle was opened but instead of bulky packages of cur rency the officials were greeted by empty void. Only a few loose packages of money were in the strong box.

CREW STRUCK

And Cunarder Ansonia Was Held Up.

London. Sept. 15. The Cunard Liner Ansonia, with 500 passengers aboard. bound for Canada was held up for sev eral hours at Southapton last night, ow ing to a number of men striking. The men complained of the food among other matters and demanded the removal of the chief steward. This was refused, and thereupon the sailors refused to touch the ropes and shortly afterwards when the stewards were told off to serve tea to the passengers they refused to obey. Police were sent for and a detachment guarded the gangways to prevent the men coming ashore. A dele-gate of the National Sailors' Union who was called in by the men stated that on everal voyages the crew had complained of the food. They had seen Cunard of ficials, who had promised to remedy the grievance. The company finally agreed to appoint a new chief steward, upon which the men consented to return.

A BRITISH WIN

Her Steel Men Outbid U. S. Naval Contractors

Washington, Sept. 15 .- A British ailder to day was awarded the contract for turbine drums for the newest American battleship, No. 39, at a little more than one-third the price offered by the lowest American bidder.

The proposed bid, \$57,436, was submitted by New York agents of the Cyclops Steel & Iron Works, Sheffield,

It is exceptional for the Navy De partment to send a contract abroat, a but Acting Secretary Roosevelt held that the action to-day was justified by the tremendous difference between the British and American prices. The Sheffield bid includes the payment of duty, and by giving the work to the foreign builder the United States saves more than \$100,000.

HORSEMAN FOUND DEAD.

London, Ont., despatch: Thomas Atkinson, of De'hi, a horseman em ployed by J. H. Smith, of the same place, to care for horses being exhibited here, was found dead in a stable on the premises of Thomas Patterson at the corner of York and Adelaide streets, this morning. While in To-ronto Atkinson complained of feeling unwell, and since coming to London he had been treated by a physician Coroner Ferguson concluded that ar inquest was unnecessary, as death was due to heart disease.
