The provisions of Reg. Luke ii., 7. 26, of the Board of Education, require that "no person shall be admitted to or continue in any school as a pupil, if he is afflicted with, or has been exposed to, any contagious disease, until all danger of contagion from such pupil, or from

the disease or exposure, shall have passed away, as certified in writing by a medical man." Where the school is closed by the

trustees, experience has shown that the unrestrained freedom of the children is dessed from the Sackville papers in rea fruitful means of spreading the dis-ease. We observed that, during the gard to the terminal exhibition of the recent severe visitation of diphtheria at Ladies' Academy. As many Sackville Waverly, N. S., the physicians counselled the trustees not to close the schoool but to use their authority in promptly removing from it any pupils in attend-ance from households where the disease might appear. This is the course taken in all our cities and towns, and school trustees in country districts should in telligently apply the best experience in protecting the children.

The decorations of St. George's were this year on a much larger scale, as also much prettier than for many seasons past. In the large space over the South window were the Texts-" Jesus the Author and Finisher of our Faith," and "Jesus Christ the same yesterday, to-day and forever,"the former in gold letters on crimson and the latter in red and blue letters, on and the latter in red and blue letters, on drab.
