Sixty per cent. was allowed for placing and the balance for reasons. In the grand total on all four classes the Manitobans took first with 1,609 points; Minnesota College men were second, with 1,523; North Dakota, 1,473; and South Dakota, 1,290, being third and fourth. The Manitobans spend the balance of the week studying animal methods on the farms here, continuing their journey to the Chicago show next week.

MARKETS AND TRADE

TUESDAY'S GRAIN MARKETS.
Winnipeg, Nov. 15.—Cables came higher and exporters looked for a fair trade, but local bulls came down with their horns and persistently showed the market upward. There was pretty heavy buying of December and a very sharp advance in prices, being 2 to 2 1/2 for November; 1 1/2c for December and 1 1/4 for May.

Export was out of line and though there were rumors of a large amount of storage space being taken for Buffalo they could not be confirmed. There was certainly a good demand for each of all grades, especially spot, and one boat of 300,000 capacity was reported with only 25,000 in the hold and no more obtainable. The market is of the fractional type and the views of one side are violently contradicted by the other. In the meantime, wheat is sold, the market is quiet, and no report is out of the question. It looks very much as if considerable of this wheat would eventually be unsold right here. The weather is visible, the daily shows an increase against a decrease last year. Spreads on cash wheat narrowed materially.

The advances in American markets was 1 to 1 1/2 for Chicago and Minneapolis.

The harvest festival was held at Emmanuel Church on Sunday, October 9th. The church was very nicely decorated, the ladies of the W.A. having been at a great deal of trouble. Sheaves of grain were placed near the altar and a very nice arch of evergreens built near the chancel steps. The service was fully choral. The following special harvest hymns were sung: Nos. 249, 248, 251 and 254, and the chorale, "Magnificat and Nunc Dimittis." The organist, Mr. E. Sleep, presided at the organ. The special preacher was Rev. T. Castle, rector of Glaston, who preached a very appropriate sermon from Exodus chapter 16, verse 16; which was listened to by a very large congregation.

From the start there was no time when they were appreciably below yesterday's final prices. Wheat closed at almost the top price for the day. Indeed, any fresh news was usually a signal for fresh support, but the market. There was, however, no lack of advice tending toward a higher level. The cables from wheat markets in France unfavorable for seeding and also brought word of dryness in parts of the Argentine Republic where rains are needed by the growing crops.

Primary receipts were small, and moreover did not reach the total of shipments from the same cities. The fact was noticed, that cash weather in Baltimore had gone to a premium against quite a discount recently. Milling purchases in Minneapolis formed another source of courage for the bulls. Even a big increase in the world's available supply had not the slightest effect in the way of causing a backward sit. The market were covering right up to the last moment, when May, after having ranged from 93 to 97, stood at 97 1/2, a net gain of 1 1/2.

you do not have to work close to the stove, which is usually far from the window. You can work where you wish, and be warm. You can work on dull winter days in the full light near the window, without being chilled to the bone.

The Perfection Oil Heater quickly gives heat, and with one filling of the font burns steadily for nine hours, without smoke or smell. An indicator always shows the amount of oil in the font. The filler-cap, put in like a cork in a bottle, is attached by a chain. This heater has a cool handle and a damper top.

The Perfection Oil Heater has an automatic-locking flame spreader, which prevents the wick from being turned high enough to smoke, and is easy to remove and drop back, so the wick can be quickly cleaned. The burner body or gallery cannot become wedged and can be unscrewed in an instant for re-wicking. The Perfection Oil Heater is finished in japan or nickel, is strong, durable, well-made, built for service, and yet light and ornamental.
