Natural History Society

A. W. Bray delivered an address
the "Need of Scientific Institution"
House last night in presence of
many members of the members of
H. Society. He showed the ad-
vance of training boys early along
lines. He suggested the teach-
geography and having frequent
journeys in order to give boys
ance of studying Nature. Boys
be encouraged to keep records
se observations and to write es-
on the same. A vote of thanks
ed by Mr. V. P. Burke, was sec-
ed by Rev. Dr. Curtis, endorsed by
Butler and W. W. Blackall and
ed unanimously.

Shannahan on the "Live Horse and You'll Get Grass."

This is a strange country, says Tucker. There's always great promises held out to the workman, something that he can't catch up with. The nearer you come to good times and good things the further away you find yourself.

The Spring is always going to unfold something great. Oh, if you can only manage to keep your body and soul in partnership 'till the Spring, you'll be so well off and feel so prosperous that you'll think you're some one else.

When the northeaster drives in through the gable end of your domicile, and flaws come down through the chimney—when you're feeling downhearted owing to slowness of labor, how consoling it is to dream of the good times that "are coming in the Spring."

But one fine morning Spring arrives, the icicles tumble from the roof and outport men look for butter tubs to stow away flippers in; the goat that gnawed the uprights underneath the house all winter and the half-blind hen are allowed to travel for a living once more; the dandelion picker is making for an unused field where to lose the top of her knife—but yet no sign of the oft-promised good times, no appearance of the wonderful achievements that are going to take this land a land of prosperity and contentment. Oh, says Tucker, "Live horse and you'll get grass." How aptly it might be applied in our own time.

TIM SHANNAHAN.

Recital at Cochrane Street Church.

Last night a large and highly appreciative audience assembled at Cochrane Street Church to hear the vocal and instrumental recital given there. All went prepared to hear a musical of more than ordinary merit and certainly they were not disappointed. The vocal soloists were Misses Vincent and Herder, and Mr. Alex. Mews, and they sustained the excellent reputations they have earned in the department of vocal music. The instrumentalists were: Miss Johnson (violin) and Mr. Arthur Mews, organ, and these enthralled the audience with splendid selections. The large choir present rendered the Christmas Carols and choruses in a very pleasing manner. Mr. Arthur Mews at the Grand Organ rendered several beautiful selections, his rendition of Sturge's "Caprice" being specially pleasing. A substantial collection was taken up in aid of the choir funds.

A Lady Says:

"Those Magic are wonderful powders for relieving headache. I don't think I ever took anything which relieved me so quickly and without any ill after effects." They can be had only at W. T. COURTENAY, corner of Duckworth and Prescott Streets—Jan. 14

Grand Falls Wedding.

An interesting wedding took place at Grand Falls Sunday night, last when Mr. Wm. Whalen, of Grand Falls, foreman carpenter with the A. N. D. Co., led to the altar Mrs. J. Ryan (née Miss Flynn, of Concho). Rev. Fr. Dwyer performed the ceremony. The bride was assisted by Mrs. John Lampert, while the groom was attended by W. Burke. The happy couple received several useful and valuable presents. After the ceremony a number of friends of the newly wedded pair spent a very pleasant time at the home of the bride and groom. The Telegram extends congratulations.

Patients Doing Well.

The man George Cheeks, the latest to be stricken with typhus fever, is very ill, but as he is a man of good constitution the physicians attending him believe he will pull through all right. The three Collins boys are rapidly convalescing in hospital, as are Jno. McManus, W. McGrath, the boy Woodfine and Mrs. Pitman. Both Rev. Fr. Goff and Mr. Wm. Fenning who were very ill, are recovering rapidly, much to the satisfaction of their many friends in the city.

Smallpox on Board.

Misses Bishop & Sons yesterday had a telegram apprising them of the arrival of the bright, Golden Hind, at Barbadoes, after a run of 32 days from Pernambuco for this port. The vessel put into Barbadoes to get medical treatment for one of her crew, a man named William Long, who had developed smallpox on the run. None of the rest of the crew were affected.

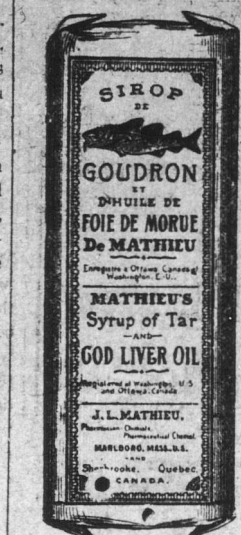

MINARD'S LIMENT CURES COLDS, &c.

CHRONIC BRONCHITIS

Cannot be cured with ordinary soothing syrups. The disease must be attacked at the root to eradicate the irritation of the lungs, heal the wounds and strengthen the respiratory organs. The composition of

MATHIEU'S SYRUP

of Tar and Cod Liver Oil and other Medicinal Extracts marks it amongst all other remedies as the true specific for the diseases of the throat, the bronchial tubes and the lungs. Here are a few conclusive proofs:

PORT GREVILLE, C.B., Dec. 31, '00.
Blacking & Mercantile Co., Ltd.
Dear Sirs,—Please ship by next express, if possible, 3 doz. Mathieu's Syrup. It is the best cough mixture on the market. Yours truly,
W. STERLING.

CHURCH POINT, July 31, '08.

Blacking & Mercantile Co., Ltd., Amherst, N.S.
Dear Sirs,—Nearly one year ago I had my first order of "Mathieu's Syrup" from you. It was not known in this country, and I gave samples to several families whom I knew would use it. After a few weeks I began to have a call for it, and trade has increased wonderfully since. I have not the least doubt but that it will soon be the best selling remedy for coughs, colds, etc., on the market. In my store here sales are good and our people ask for it. Several stores in this country now keep it in stock and report sales increasing. I have bought from you since August 16th, 1907, 4 Gross and have only 3 dozen on hand at this date, and which I am holding for retail trade in my store. Yours truly,
LOUIS A. McLANSON.

AGAINST HEADACHE there is no remedy so active as Mathieu's Nerve Powders which contain no opium, morphine or chloral. 25 cts. per box of 18 powders.

Empire's Biggest Store

Corner Stone Laid in London for Whiteley's New Business Palace.

What is declared will be the biggest Departmental store in the Empire will be that of the Messrs. Whiteley, in Queen's Road, Paddington, for which the foundation stone was recently laid by the Mayor of Addington.

The new building will extend from Forchester gardens to Douglas place, and have a frontage in Queen's Road of 600 feet. It will have a depth of 200 feet and stand on a site of four acres, all of which is freehold property belonging to the firm. There will be five floors, and therefore 20 acres of floor space, of which 16 acres will be devoted to selling purposes. The large centre dome will be 150 feet high, and would be an exact copy of the world's masterpiece. The nearest approach to it is the Pantheon at Paris. There will be 24 passenger elevators so arranged that there will be no waiting. Between five and six thousand employees will be required to run the store, in which there would be many novelties. There will be a wireless telegraphy station, a children's playground on the top floor, and a roof garden.

The store, it is promised, will surpass anything in Paris or New York, and set a new mark for the merchants of Great Britain to emulate.

New Use for Ores Once Worthless.

Marquette, Wis., December 31.—The Ardis furnace at Iron Mountain, Mich., the invention of John T. Jones, of that city, was tested in the presence of fifty leading steel and iron men of the United States, Canada and Mexico. Professor Crabtree, of Pittsburgh, expert of the Carnegie interests, witnessed the operations of the furnace. The experiment was a success. The furnace takes lean ore, now considered worthless, and turns it into good pig iron. This was done with considerable lean ore. A change will be made in the cupola used and the final test will take place next month. The furnace will make millions of acres of iron ore land, now considered worthless, very valuable, and is considered the greatest discovery in the iron industry for many years.

Queer Paris Headgear.

Gold Tiaras, Helmets and Strange Feather Arrangements Seen.

Paris, Dec. 21.—Headgear in Paris for indoors and out is developing new eccentricities. The gold tiara set all round with gems and having for its accompaniment Byzantine ornaments with pendants and coins hanging over the temples, which a beautiful brunette woman wore at the theatre recently, was becoming to her, but not one woman out of ten could wear it. The fez made entirely of colored beads is very effective also. Another stunning headpiece is the helmet of the First Empire, which is much worn and which is made of fine beaded net of golden tulle encircled by old galon and finished with a large cabochon, or again of beaded tulle with with marabout feathers.

A headress consisting of four green feathers stuck in the hair and falling down over the eyes, which a very smart Frenchwoman has been affecting in the evening, is only eccentric, while a hat seen on the Champs Elysees recently and worn by an American woman was weird, for the algreitte on it came down over her shoulder, twisted round her neck and finished under her chin.

The little "heards" and tortoiseshells which were popular a few years ago as ornaments threaten to come back, and jewelled figures of these creatures are worn in the hair.

Cap and Glasses Recovered Identified as Those of Cecil Grace.

London, Jan. 6.—Word was received to-day that the aviator's cap and glasses picked up in the North Sea, off Marinkerke, Belgium, have been identified as those worn by Cecil Grace, who was lost while attempting to cross the English Channel from Calais to Dover on Dec. 22. A diligent search of the coast in the vicinity of Marinkerke is being made in the hope of recovering the aviator's body.
