A Brutal Assault.

Thursday afternoon as cabinman T. Power was driving in Cove Road he saw a man this side of Mount Cashel kneeling on the road and falling each time he attempted to rise. Coming near he saw that the man was well advanced in years, and that his head was badly cut. Blood oozed from the wound and came in a flood from the wound. On questioning the man he found that he had a disagreement with another who was drunk, when suddenly his adversary whipped a "horn" from the side which he had and hit him with such force that he dropped him in his tracks and then walked away. The man was unconscious for a while and Mr. Power brought him to a house near and had the wound dressed. The injured man will summon his aggressor.

Capt. Jacobs Killed at the Dry Dock.

Capt. John Jacobs of the tug Petrel (R. N. Co.), met with an accident on board the steamer at the R. N. Co. pier this forenoon, which resulted in his death about an hour afterwards, at his late residence, Brass Square. He was working on the deck of the tug and assisting to lower a punt when the latter suddenly fell over, and jammed Capt. Jacobs against the davit. The full weight of the punt fell on his chest and broke several of his ribs. He was taken up unconscious and driven to his home in a sleigh. Dr. Paterson went to attend him immediately, but though he did all that could possibly be accomplished, the suffering man passed away about 1 o'clock without having regained consciousness. Capt. Jacobs was about 55 years of age and was highly esteemed by the Reid Mtd. Co. The Telegram extends its sympathy

Sealers Notice.

All men who intend leaving for the seal fishery should take with them one or more bottles of "Stafford's Liniment," the Queen of Liniments (at 15 cents a bottle).

You will be surprised with its marvellous results. When rubbed to the wrists, and arms, ankles and legs, I will not only enable you to travel on the ice faster, yes, faster even than the seals themselves, but it will remove the tired muscular fatigue of the limbs, the result of excessive walking and hauling. Once you have applied it to your wrists and ankles you will never again think of proceeding to the fishery without a good supply. It is worth its weight in gold. It should always be in every household as it is also one of the best preparations for the following diseases: Earache, Headache, Toothache, Faceache, Neuralgia, Wounds and all Skin Diseases as Itch, Acne, Ringworm, Barber's Itch, Eczema, Hay Fever, Burns, Scalds, Excessive Sweating on body or feet, Diphtheria, Croup, Catarrh, Sore Throat, Laryngitis, Hoarseness, Quinsy, Mumps, Bronchitis, Pleurisy, Pneumonia, Asthma, Whooping Cough, Colic, Cramps, Wind, Diarrhoea, Fistula, Piles, Rheumatism, Lumbago, Sciatica, Strains, Bruises, Sprains, Corns, Warts, Chilblains, Ringworm, Bites of Animals, Stings of Insects, Chapped Skin, Worms, Poisonous Wounds, Carbuncles, Syphilis, etc. This Liniment can be used internally as well as externally. Special to Evening Telegram. QUEBEC, This Morning. Amidst applause from both sides of the House, Sir L. Gouin told the Legislature that the Quebec Government had no intention of departing from the policy adopted last April which requires that all pulpwood cut on Crown Lands shall be at least partly manufactured before being exported. The question, Sir Lomet stated, is: "Shall we accept the offer from Washington and go back on our Order in Council and let our pulpwood go into the market of the States to be made into pulp and paper there? I have not heard any argument to make us change our minds."

Remarkable Cure

London, March 1.—Dr. George Robertson, superintendent of the Royal Dindburg Asylum for the Insane, in a report published in the Scotsman of marvelous cures of the insane, intimated two cases.  
The first was of a woman who became sufferer from myoclonia. She became childish, heard imaginary voices and had strange delusions. A tablet prepared from the thyroid gland of a sheep was given to her. She was transformed from a misshapen, stupid being to a bright, intelligent woman.  
The second case was that of a woman whose affliction was due to excess of a secretion of thyroid in the blood. She was treated with serum from a goat, the thyroid gland of which had been removed. She rapidly recovered.

Dr. Robertson says those unbalanced by politics (3) usually recover. He states that the cures effected to-day would have been considered miraculous twenty years ago.
