Annual Report

OF THE ST. VINCENT DE PAUL

In presenting our Annual Report for 1911, our first duty is to return our sincere thanks to the public for their very generous response to our appeal for contributions, and no doubt it will please them to know that on account of their liberality a large amount of destitution was relieved. The number of people relieved during the past winter was the largest

in the history of the Society. The Factory was opened as usual and a number of people availed of this means of employment to help

We ned submit the Treasurer's Report and hope it will meet with your approval and that of the public, to whom we must again appeal for assistance in carrying out the work. Respectfully submitted,

ST. JOHN'S TEAM DEFEATED BY

WINDSOR BY 5 GOALS TO 4. Before a large, excited and enthusi astic gathering of spectators the third Inter-Colonial hockey match between Windsor and St. John's was played in the Prince's Rink last night, the visitors succeeding in carrying off New foundland honors after playing over ime an extra half hour. The ice wa in poor condition. Four of the City's best men, since the visitors cam here were laid off. It was no easy matter for Capt. Herder to select suitable men. After the arrival of His Excellency the Governor and suite the game was started. The officials and line-ups were:

LONDON, Feb. 28. LONDON, Feb. 28.

The Government to-night acknowledges its failure to settle the dispute
between the coal owners and miners.
By breaking the rule of necessary
silence, which heretofore had been
rigidly observed during the course of
the negotiations, an official statement has been issued regarding the pro-posals submitted by the Prime Minis-ter to the representatives of the own-ers, and miners. The statement be-gins by declaring that the Government is satisfied there are cases in which underground workers are not able to earn a reasonable minimum wage. The Government is further satisfied that the power to earn such wage should be secured to each district, with an adequate safeguard to protect employees from abuse. The best method of giving practical effect to the conclusions by means of district conferences, a representative by the Government to be present at each. In the event of failure to arrive at a thing for Barber's use; Bulb Syringes, a reliable but inexpensive line; Nipples—Tyrian and Excel, American to decide jointly any outstanding tyle; and all rubber Eye, Ear and Doints. These proposals, continues Ulcer Syringes. These are from the the statement, were considered by re-Tyrain Rubber Company and are good, well made, and serviceable stock.

Pine Tree Lozenges are of service in in the Federation area, which includes

Yorkshire, Lancashire, Midlands, and North Wales, accepted; adding that it is expected the Government will make such arrangements as would secure agreements arrived at be binding on both sides for a reasonable time. Durham and Cumberland emtime. Durham and Cumberland employers also accepted the proposals. They were rejected, however, by Northumberland, Scotland, and South Wales coal owners, also by representatives of the smaller districts of Forest of Dean, Bristol, Glouceter, Somerset. More than 60 per cent. of the coal trade counties has accepted the records but the National Miners. the proposals; but the National Miners Federation replied by adopting the following resolution: "There can be "no settlement of the present dispute "unless on the principle that an in-'dividual minimum wage for all un-"derground workers is agreed to by

coal owners." At the request of the Prime Minister, representatives of both parties agreed to be available for further consultation this morning. Thus ends official statement, but it is evident the situation offers hardly the remotest chance of reaching a settlement in ime to avert a national coal strike.
