### Side Talks by Ruth Cameron

A REWARD OF VIRTUE.

What a lot of people there are who talk gracefully about things they know little more than a few catch words, merely for the sake of being thought to be in the swim. For instance, the people who read book reviews, not to find it they will care to read the books, nor for the interest of comparing what some critic thinks about it with their own impressions, but simply so that they may be able to discuss them without having read them.

Then there are people who keep track of the theatres in the same way. There is a certain very smart magazine that is unquestionably written largely to furnish table talk for just such people.

They Would Rather Chatter Than Learn.

Then again a few careless catchwords are all that many people have in stock in trade when they discuss the big things of the day—Socialism, the League of Nations, etc. With these they try to hold their own, conversationally, and get their share of the floor, instead of being glad to let anyone who has really read and studied about the subject inform them of their ignorance. Of course a group of talkers will sometimes contain all four flusters, and no one who really does know anything. Could there be anything more futile than the exchange of guesses and prejudices and borrowed catchwords they exchange? Yes, one thing—the sense of satisfaction with himself and his share in the conversation that each feels after such a talk.

It's always a Temptation.

Of course we are all tempted sometimes to assume a knowledge that we don't possess, for the sake of appearing well. I had that temptation yesterday and for once (alas I do not always come off so well) conquered it. Incidentally, virtue has its own reward for my honest confession of ignorance had an amusing outcome.

"Don't you think," said a woman to me, "that F. H. (naming a popular author) has fallen off since her story 'The Vernal Harmony'? I think that really was her high water mark."

I started to assent, having a very vague memory of having read the story and also of having seen somewhere that it was considered her best, and then, for some reason, I decided to be honest.

"I think I've read it, but I'm not sure," I said. "What was it about?"

A slightly taken aback look came over my companion's face. "Why—about the—East Side and the people that live there," she said. (Practically all that author's stories are of those people.)

She Had Read That Criticism, Too.

"Yes," I said, "but what was the action of the story?"

"I don't exactly remember," she said with heightened color, and suddenly changed the subject.

Afterwards, two vague memories cleared themselves up in my mind. One was that it was in a certain magazine I had seen that critic's statement that the "Vernal Harmony" was F. H.'s best piece of work. The other was that I had seen my friend reading that magazine that morning.

Wasn't that a reward of virtue?
